How to Draw Pelican — Free Practice Sheets

ANSWER / CASE 1

pelican: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

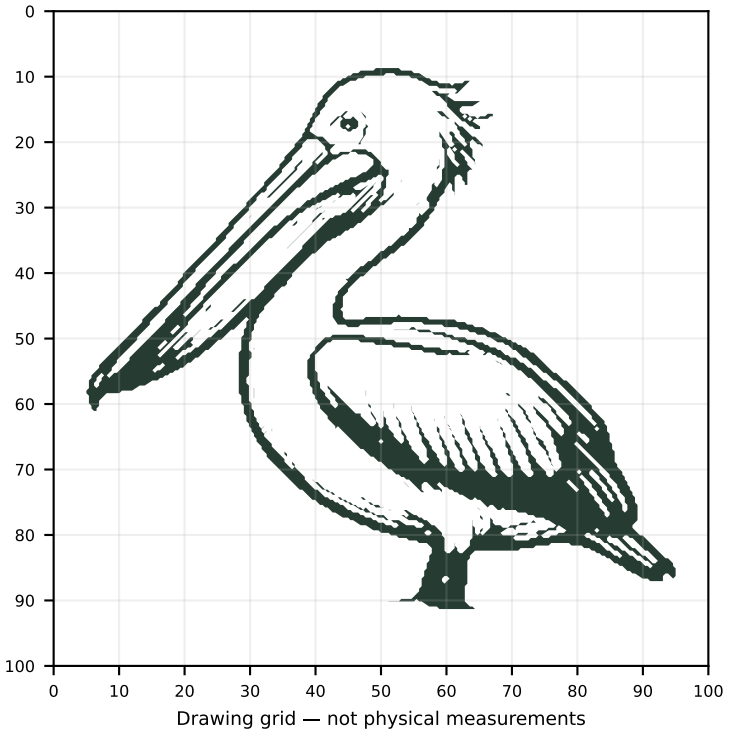

ANSWER: Example solution: preserve long pouched bill with large throat sac, stocky body with folded wing, single visible webbed foot/leg. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the long, downward-angled bill and large throat sac as the dominant head feature.
2. Attach the rounded head with a small eye and crest feathers to the bill.
3. Form the stocky body with a curved neck and folded wing shape.
4. Add the single visible leg and webbed foot beneath the body, then outline the tail.

ANSWER / CASE 2

pelican: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

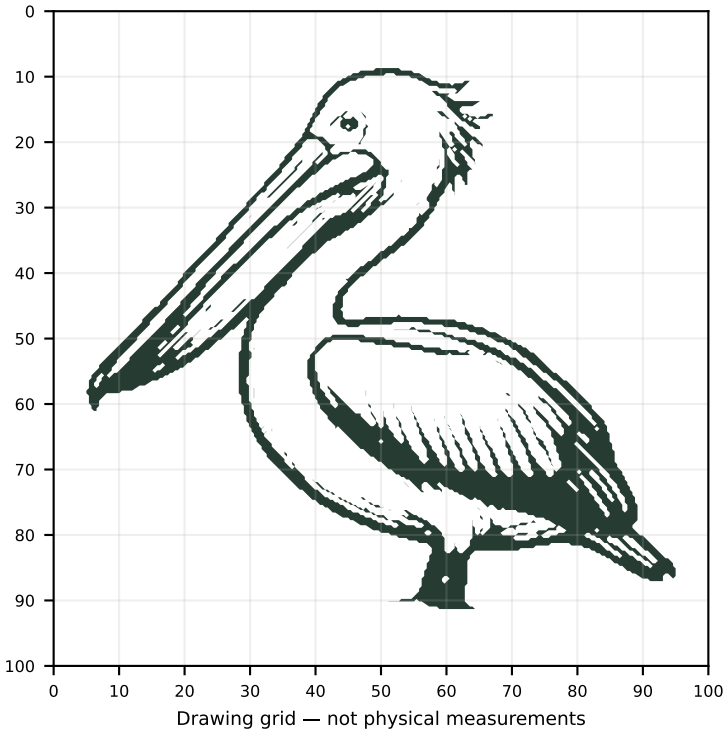

ANSWER: Example solution: preserve long pouched bill with large throat sac, stocky body with folded wing, single visible webbed foot/leg. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the long, downward-angled bill and large throat sac as the dominant head feature.
2. Attach the rounded head with a small eye and crest feathers to the bill.
3. Form the stocky body with a curved neck and folded wing shape.
4. Add the single visible leg and webbed foot beneath the body, then outline the tail.

How to Draw Pelican — Free Practice Sheets

ANSWER / CASE 3

pelican: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

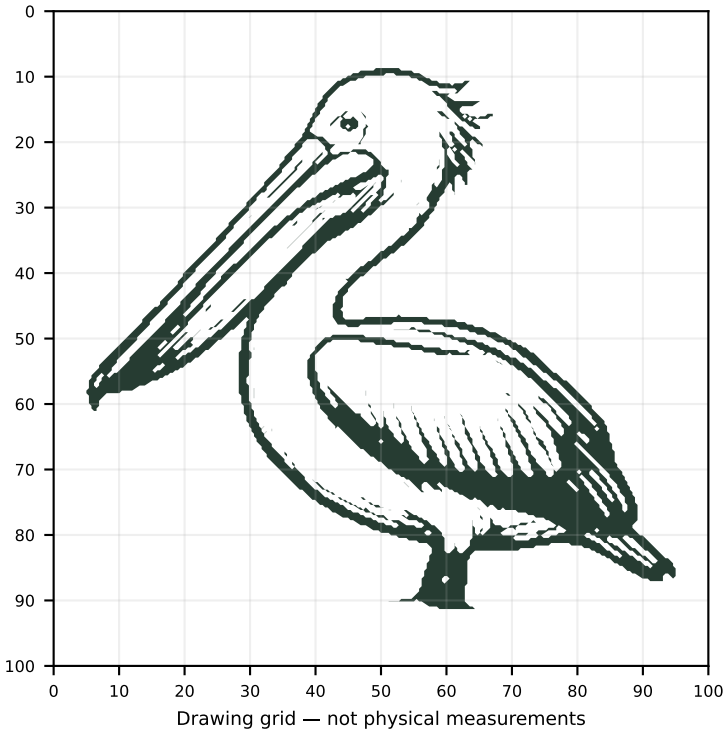

ANSWER: Example solution: preserve long pouched bill with large throat sac, stocky body with folded wing, single visible webbed foot/leg. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the long, downward-angled bill and large throat sac as the dominant head feature.
2. Attach the rounded head with a small eye and crest feathers to the bill.
3. Form the stocky body with a curved neck and folded wing shape.
4. Add the single visible leg and webbed foot beneath the body, then outline the tail.

How to Draw Pelican — Free Practice Sheets

ANSWER / CASE 4

pelican: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve long pouched bill with large throat sac, stocky body with folded wing, single visible webbed foot/leg. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the long, downward-angled bill and large throat sac as the dominant head feature.
2. Attach the rounded head with a small eye and crest feathers to the bill.
3. Form the stocky body with a curved neck and folded wing shape.
4. Add the single visible leg and webbed foot beneath the body, then outline the tail.
