How to Draw Eagle — Free Practice Sheets

ANSWER / CASE 1

eagle: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

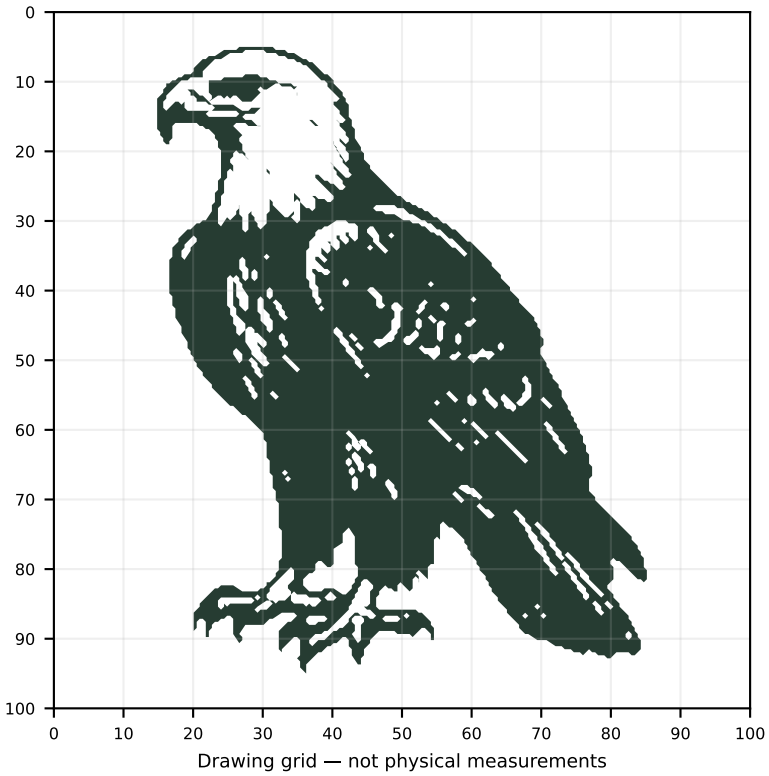

ANSWER: Example solution: preserve hooked beak, folded wings with layered feather outlines, fanned tail feathers. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the head and hooked beak, then add the white neck/head feather boundary.
2. Outline the body and folded wing shape, layering curved feather lines along the wing.
3. Add the fanned tail feathers extending down and back from the body.
4. Draw the two visible legs and talons attached under the body, then finish feather texture lines.

How to Draw Eagle — Free Practice Sheets

ANSWER / CASE 2

eagle: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

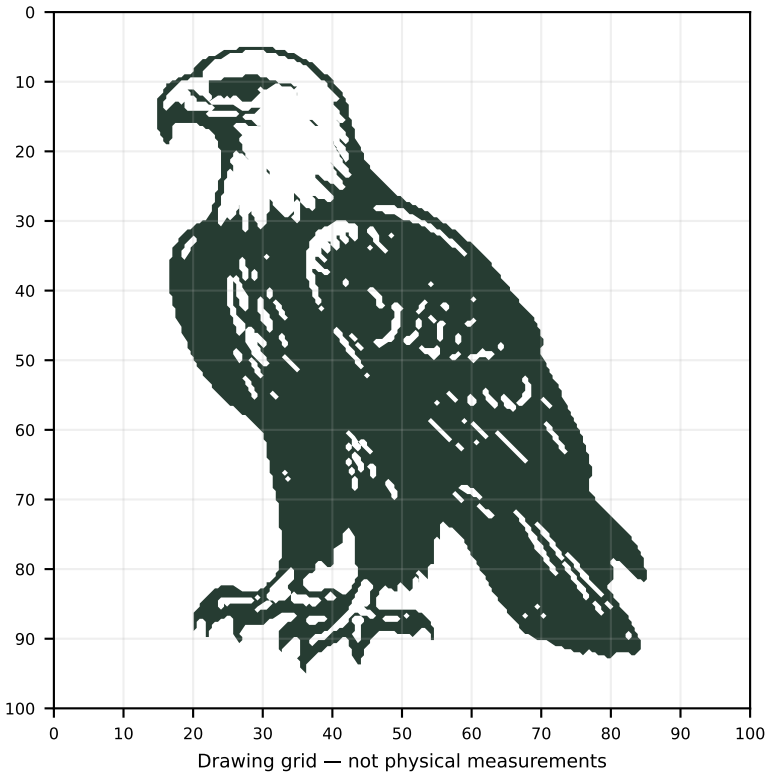

ANSWER: Example solution: preserve hooked beak, folded wings with layered feather outlines, fanned tail feathers. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the head and hooked beak, then add the white neck/head feather boundary.
2. Outline the body and folded wing shape, layering curved feather lines along the wing.
3. Add the fanned tail feathers extending down and back from the body.
4. Draw the two visible legs and talons attached under the body, then finish feather texture lines.

How to Draw Eagle — Free Practice Sheets

ANSWER / CASE 3

eagle: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

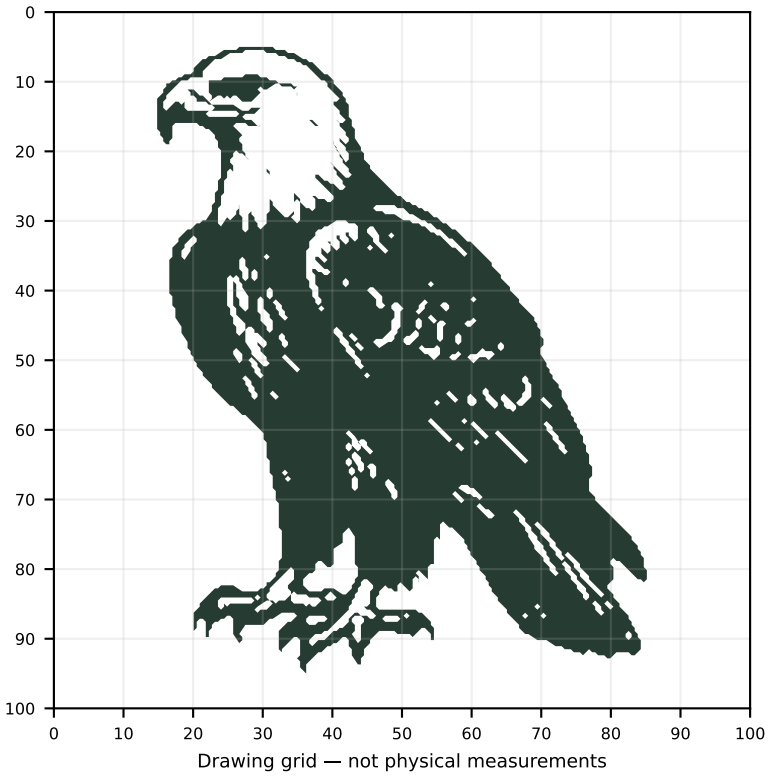

ANSWER: Example solution: preserve hooked beak, folded wings with layered feather outlines, fanned tail feathers. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the head and hooked beak, then add the white neck/head feather boundary.
2. Outline the body and folded wing shape, layering curved feather lines along the wing.
3. Add the fanned tail feathers extending down and back from the body.
4. Draw the two visible legs and talons attached under the body, then finish feather texture lines.

How to Draw Eagle — Free Practice Sheets

ANSWER / CASE 4

eagle: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve hooked beak, folded wings with layered feather outlines, fanned tail feathers. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the head and hooked beak, then add the white neck/head feather boundary.
2. Outline the body and folded wing shape, layering curved feather lines along the wing.
3. Add the fanned tail feathers extending down and back from the body.
4. Draw the two visible legs and talons attached under the body, then finish feather texture lines.
