How to Draw Eagle — Free Practice Sheets

REFERENCE / CASE 1

eagle: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

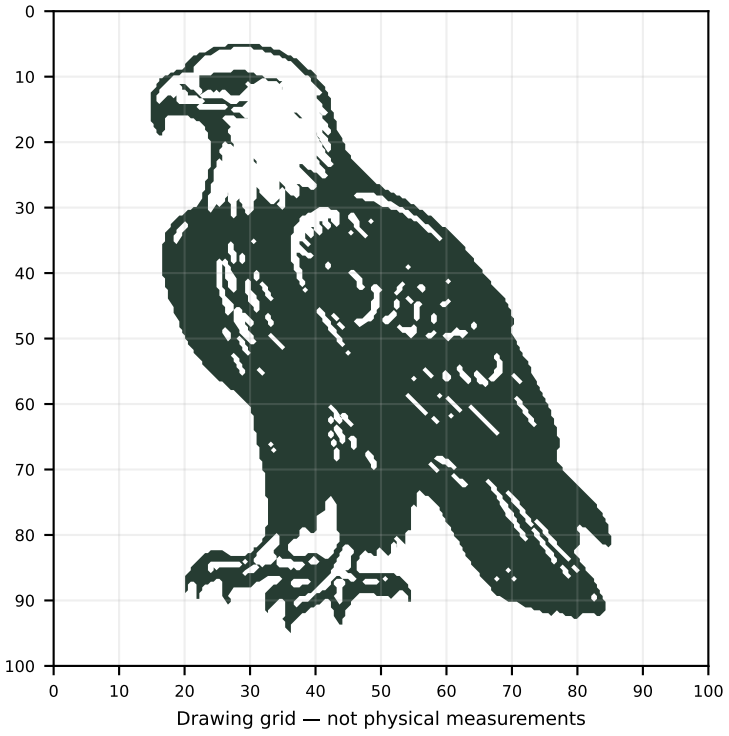

METHOD: Draw the head and hooked beak, then add the white neck/head feather boundary. Outline the body and folded wing shape, layering curved feather lines along the wing. Add the fanned tail feathers extending down and back from the body. Draw the two visible legs and talons attached under the body, then finish feather texture lines.
Use the separate practice sheet before checking the answer.

How to Draw Eagle — Free Practice Sheets

REFERENCE / CASE 2

eagle: Copy the reference onto the blank grid, using matching grid intersections.
Compare with the separate full reference sheet.

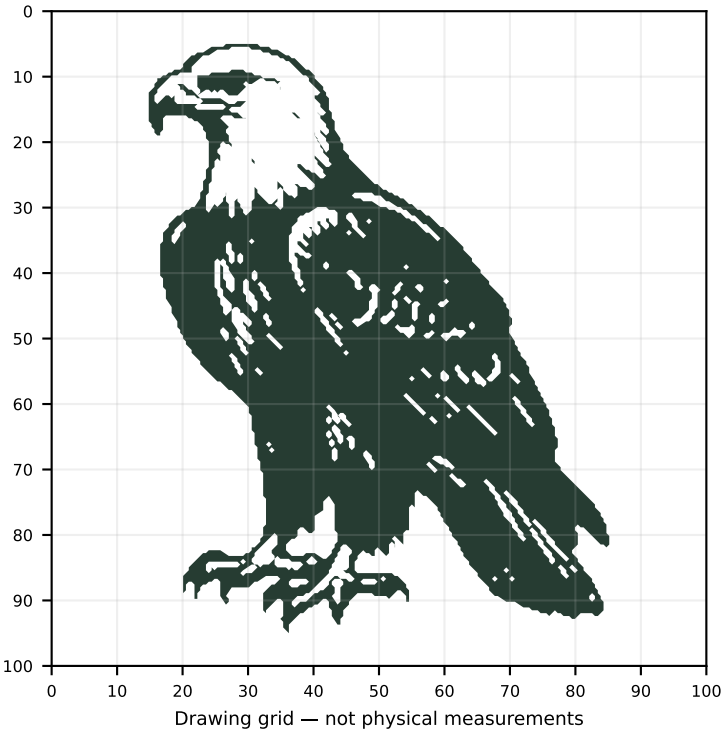

METHOD: Draw the head and hooked beak, then add the white neck/head feather boundary. Outline the body and folded wing shape, layering curved feather lines along the wing. Add the fanned tail feathers extending down and back from the body. Draw the two visible legs and talons attached under the body, then finish feather texture lines.
Use the separate practice sheet before checking the answer.
