How to Draw Woodpecker — Free Practice Sheets

REFERENCE / CASE 1

woodpecker: Trace the reference outline, then practise the contour independently.
Compare with the separate full reference sheet.

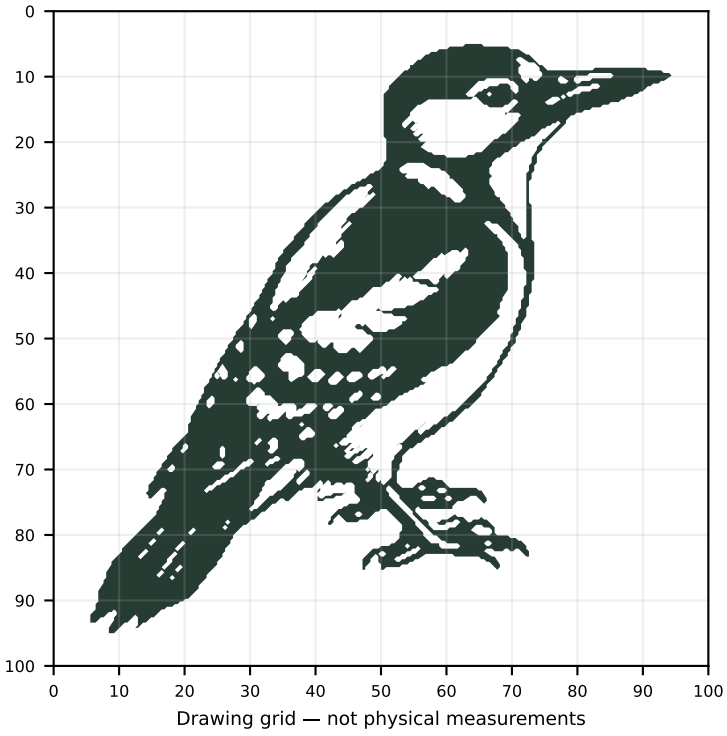

METHOD: Draw the head as a rounded oval with a long, straight, chisel-shaped beak pointing to the right. Add the body as an elongated oval angled downward, with the back curving along the left side. Sketch the wing as a layered shape along the back, using rows of small white spots and dark bars to suggest feather patterning. Extend a stiff, pointed tail downward from the rear and draw two visible legs with toes gripping an implied vertical surface.
Use the separate practice sheet before checking the answer.

How to Draw Woodpecker — Free Practice Sheets

REFERENCE / CASE 2

woodpecker: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

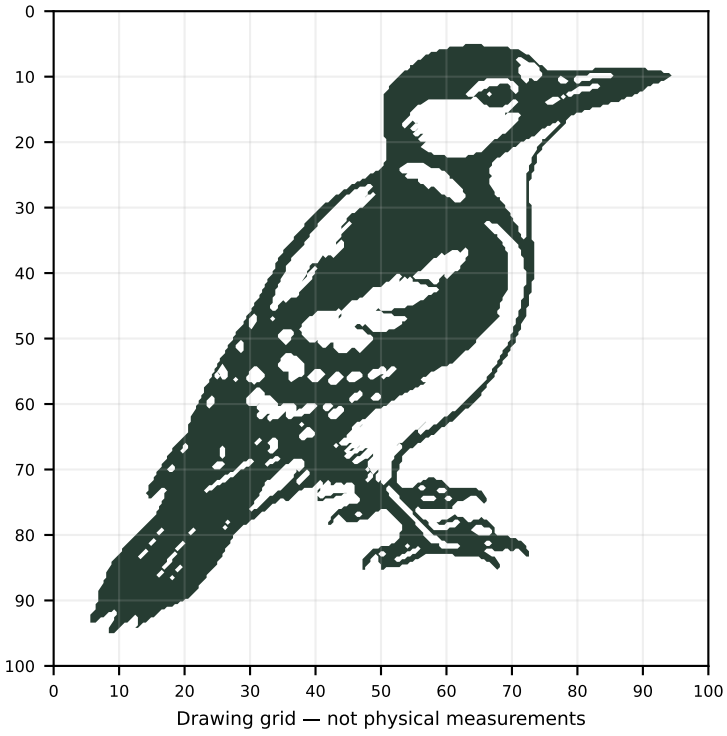

METHOD: Draw the head as a rounded oval with a long, straight, chisel-shaped beak pointing to the right. Add the body as an elongated oval angled downward, with the back curving along the left side. Sketch the wing as a layered shape along the back, using rows of small white spots and dark bars to suggest feather patterning. Extend a stiff, pointed tail downward from the rear and draw two visible legs with toes gripping an implied vertical surface.
Use the separate practice sheet before checking the answer.

How to Draw Woodpecker — Free Practice Sheets

REFERENCE / CASE 3

woodpecker: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

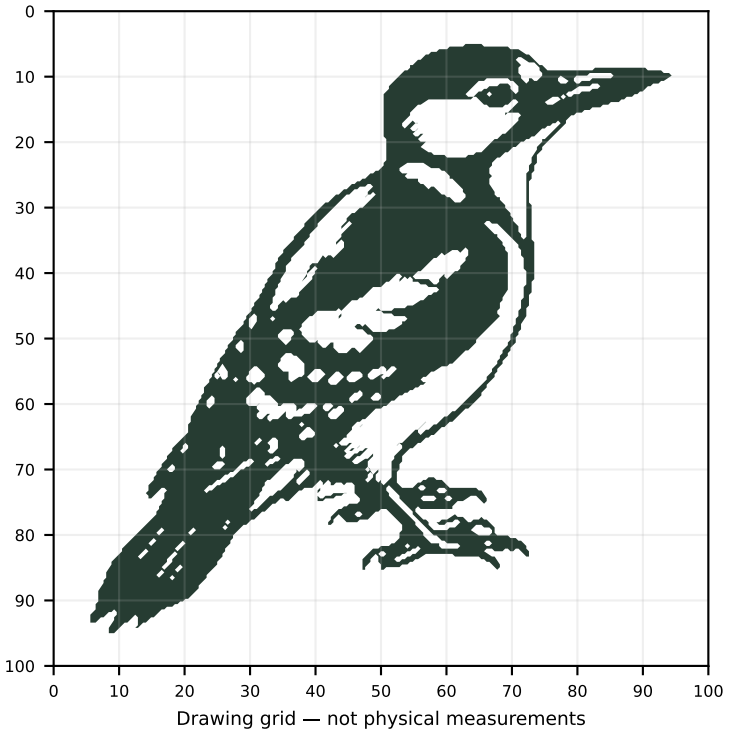

METHOD: Draw the head as a rounded oval with a long, straight, chisel-shaped beak pointing to the right. Add the body as an elongated oval angled downward, with the back curving along the left side. Sketch the wing as a layered shape along the back, using rows of small white spots and dark bars to suggest feather patterning. Extend a stiff, pointed tail downward from the rear and draw two visible legs with toes gripping an implied vertical surface.
Use the separate practice sheet before checking the answer.

How to Draw Woodpecker — Free Practice Sheets

REFERENCE / CASE 4

woodpecker: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw the head as a rounded oval with a long, straight, chisel-shaped beak pointing to the right. Add the body as an elongated oval angled downward, with the back curving along the left side. Sketch the wing as a layered shape along the back, using rows of small white spots and dark bars to suggest feather patterning. Extend a stiff, pointed tail downward from the rear and draw two visible legs with toes gripping an implied vertical surface.
Use the separate practice sheet before checking the answer.
