How to Draw Swan — Free Practice Sheets

ANSWER / CASE 1

swan: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

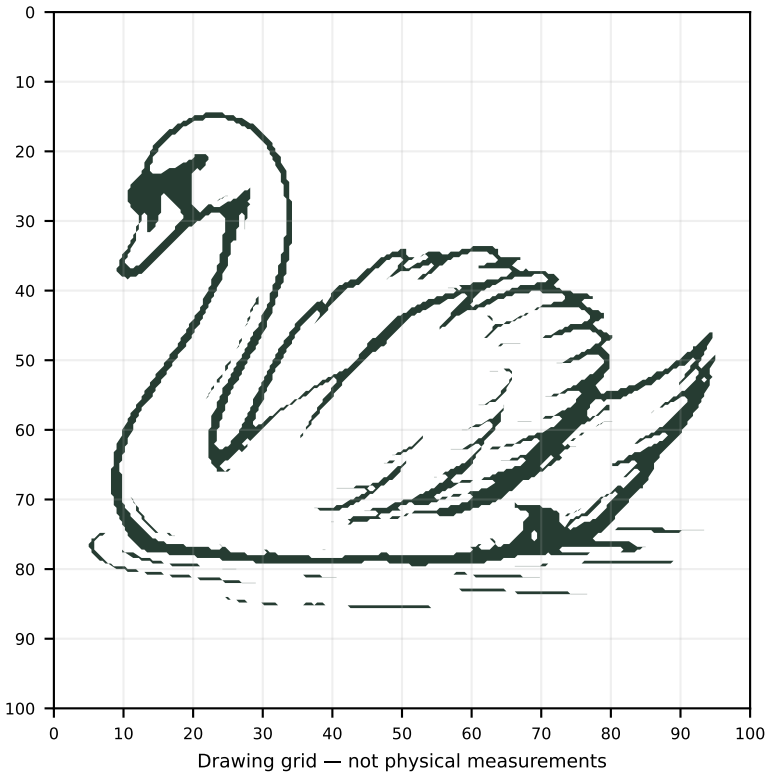

ANSWER: Example solution: preserve Long S-curved neck contour rising from a low, rounded body mass, Head with a pointed beak and a dark, jagged eye/face patch, Layered wing outline with feather-like scalloped edges sweeping toward a pointed tail. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a low horizontal body oval and a tall S-shaped neck curve above it
2. Attach a small head shape with a pointed beak at the top of the neck
3. Add a large wing contour over the body with repeated scalloped feather lines
4. Extend the wing/tail into a pointed rear shape and add a horizontal waterline beneath

ANSWER / CASE 2

swan: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

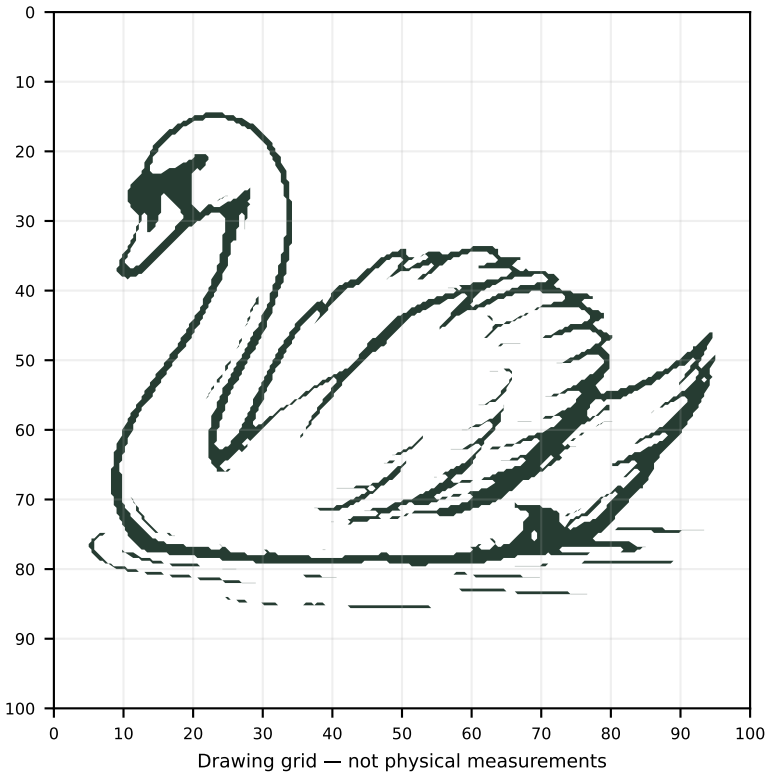

ANSWER: Example solution: preserve Long S-curved neck contour rising from a low, rounded body mass, Head with a pointed beak and a dark, jagged eye/face patch, Layered wing outline with feather-like scalloped edges sweeping toward a pointed tail. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a low horizontal body oval and a tall S-shaped neck curve above it
2. Attach a small head shape with a pointed beak at the top of the neck
3. Add a large wing contour over the body with repeated scalloped feather lines
4. Extend the wing/tail into a pointed rear shape and add a horizontal waterline beneath

ANSWER / CASE 3

swan: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

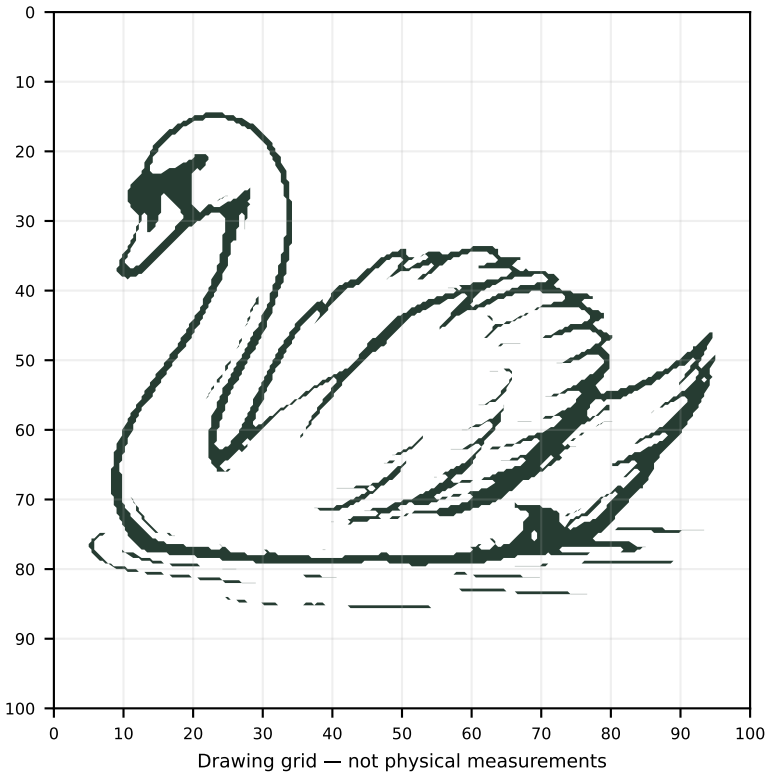

ANSWER: Example solution: preserve Long S-curved neck contour rising from a low, rounded body mass, Head with a pointed beak and a dark, jagged eye/face patch, Layered wing outline with feather-like scalloped edges sweeping toward a pointed tail. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a low horizontal body oval and a tall S-shaped neck curve above it
2. Attach a small head shape with a pointed beak at the top of the neck
3. Add a large wing contour over the body with repeated scalloped feather lines
4. Extend the wing/tail into a pointed rear shape and add a horizontal waterline beneath

How to Draw Swan — Free Practice Sheets

ANSWER / CASE 4

swan: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve Long S-curved neck contour rising from a low, rounded body mass, Head with a pointed beak and a dark, jagged eye/face patch, Layered wing outline with feather-like scalloped edges sweeping toward a pointed tail. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a low horizontal body oval and a tall S-shaped neck curve above it
2. Attach a small head shape with a pointed beak at the top of the neck
3. Add a large wing contour over the body with repeated scalloped feather lines
4. Extend the wing/tail into a pointed rear shape and add a horizontal waterline beneath
