How to Draw Lovebird — Free Practice Sheets

ANSWER / CASE 1

lovebird: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

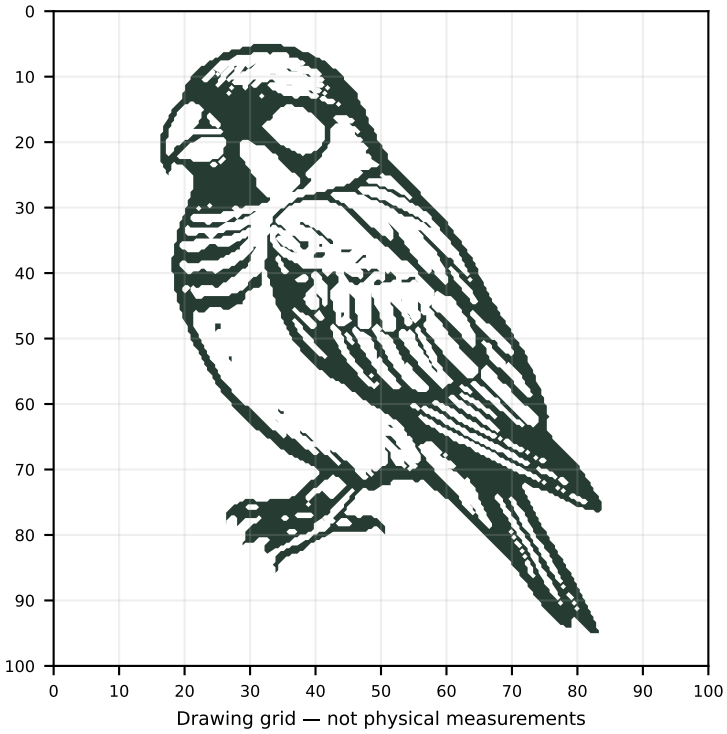

ANSWER: Example solution: preserve small rounded body with compact proportions, short hooked beak, distinct facial mask/plumage patch pattern around eye and cheek. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a rounded oval for the body and a smaller circle for the head, overlapping slightly at the neck.
2. Add the short hooked beak at the front of the head and place the eye above/behind it.
3. Sketch the folded wing as a layered teardrop shape along the side of the body, with feather lines following its contour.
4. Draw the tail extending down/back from the body and add two visible legs with toes gripping below the body.

ANSWER / CASE 3

lovebird: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

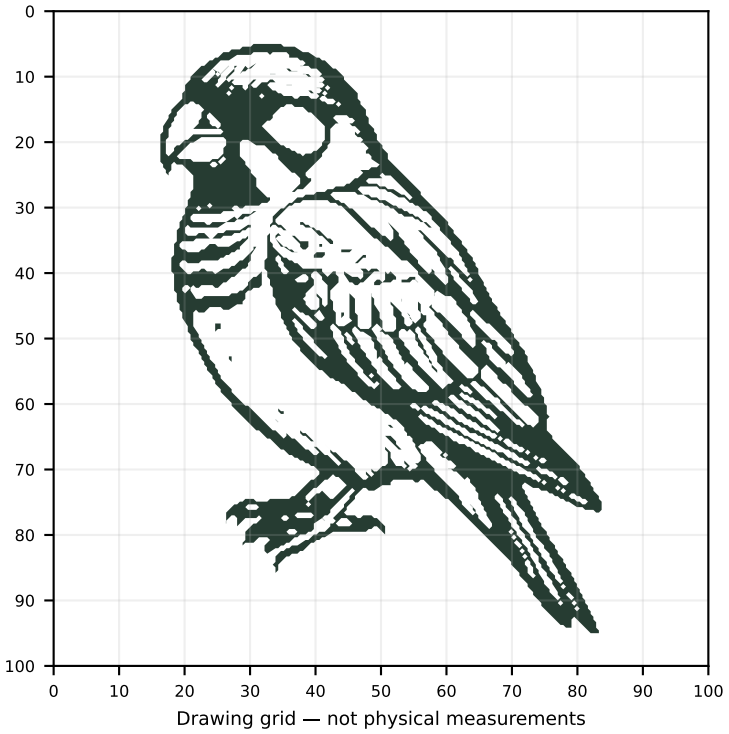

ANSWER: Example solution: preserve small rounded body with compact proportions, short hooked beak, distinct facial mask/plumage patch pattern around eye and cheek. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a rounded oval for the body and a smaller circle for the head, overlapping slightly at the neck.
2. Add the short hooked beak at the front of the head and place the eye above/behind it.
3. Sketch the folded wing as a layered teardrop shape along the side of the body, with feather lines following its contour.
4. Draw the tail extending down/back from the body and add two visible legs with toes gripping below the body.

How to Draw Lovebird — Free Practice Sheets

ANSWER / CASE 4

lovebird: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve small rounded body with compact proportions, short hooked beak, distinct facial mask/plumage patch pattern around eye and cheek. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a rounded oval for the body and a smaller circle for the head, overlapping slightly at the neck.
2. Add the short hooked beak at the front of the head and place the eye above/behind it.
3. Sketch the folded wing as a layered teardrop shape along the side of the body, with feather lines following its contour.
4. Draw the tail extending down/back from the body and add two visible legs with toes gripping below the body.
