How to Draw Resplendent Quetzal — Free Practice Sheets

ANSWER / CASE 1

resplendent quetzal: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

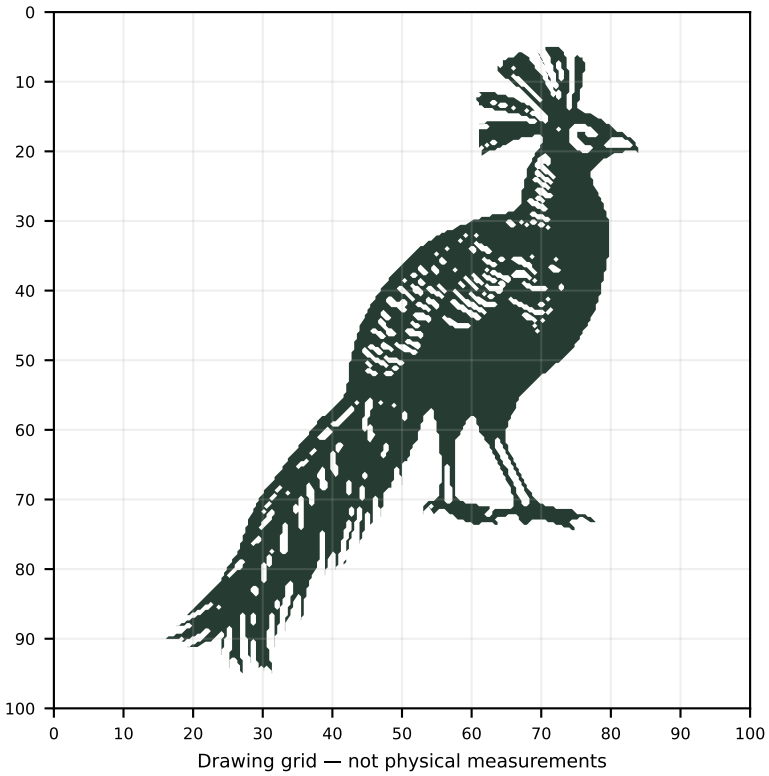

ANSWER: Example solution: preserve long tail streamers extending down and back, crested head with fan-like crown feathers, bright green plumage indicated by dense line hatching on back and wing. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the head with a rounded crown and fan-shaped crest, then add the short curved beak and eye ring.
2. Sketch the plump body and wing as an oval with layered feather lines, keeping the chest dark and the back/wing hatched.
3. Extend two long, tapering tail streamers from the rear, curving them downward and slightly outward.
4. Add two thin legs with visible toes attached under the body, then refine the crest and tail feather outlines.

ANSWER / CASE 2

resplendent quetzal: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

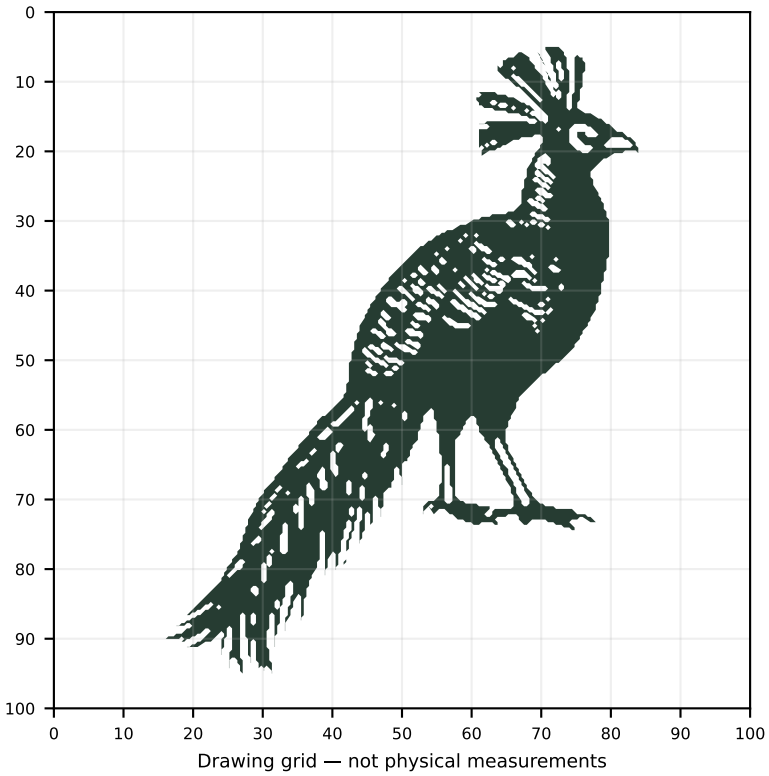

ANSWER: Example solution: preserve long tail streamers extending down and back, crested head with fan-like crown feathers, bright green plumage indicated by dense line hatching on back and wing. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the head with a rounded crown and fan-shaped crest, then add the short curved beak and eye ring.
2. Sketch the plump body and wing as an oval with layered feather lines, keeping the chest dark and the back/wing hatched.
3. Extend two long, tapering tail streamers from the rear, curving them downward and slightly outward.
4. Add two thin legs with visible toes attached under the body, then refine the crest and tail feather outlines.

ANSWER / CASE 3

resplendent quetzal: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

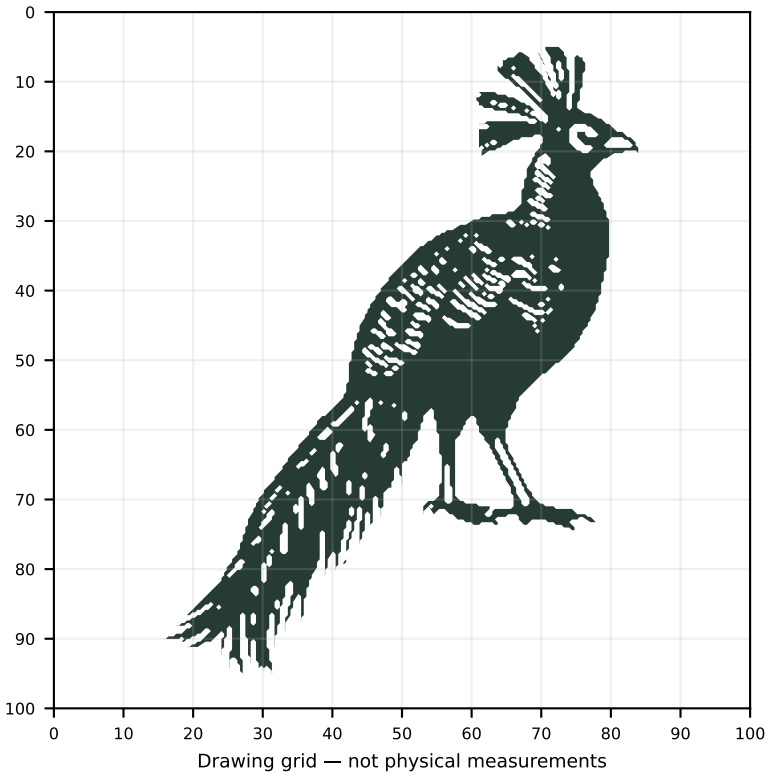

ANSWER: Example solution: preserve long tail streamers extending down and back, crested head with fan-like crown feathers, bright green plumage indicated by dense line hatching on back and wing. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the head with a rounded crown and fan-shaped crest, then add the short curved beak and eye ring.
2. Sketch the plump body and wing as an oval with layered feather lines, keeping the chest dark and the back/wing hatched.
3. Extend two long, tapering tail streamers from the rear, curving them downward and slightly outward.
4. Add two thin legs with visible toes attached under the body, then refine the crest and tail feather outlines.
