REFERENCE / CASE 1

resplendent quetzal: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

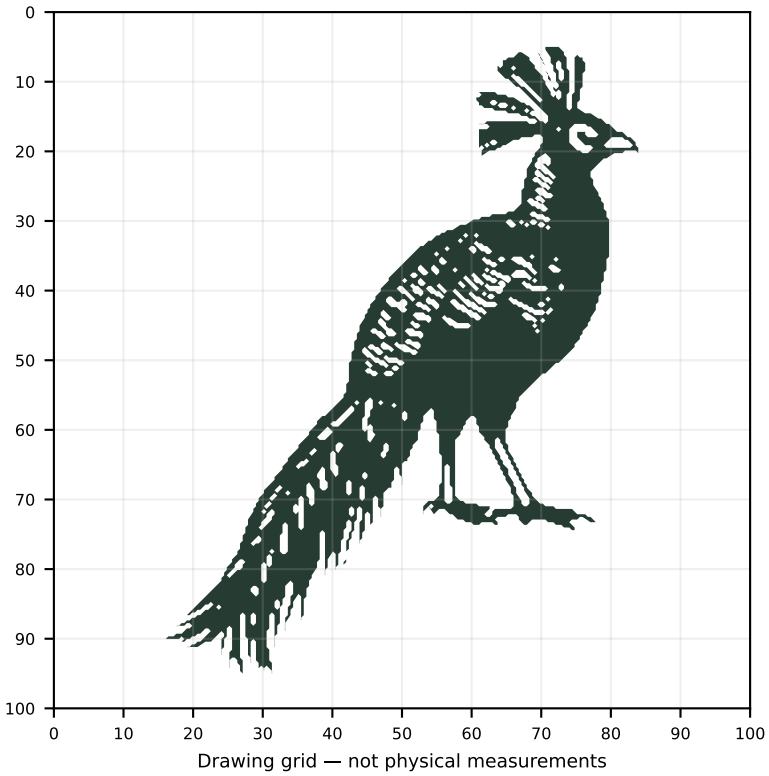

METHOD: Draw the head with a rounded crown and fan-shaped crest, then add the short curved beak and eye ring. Sketch the plump body and wing as an oval with layered feather lines, keeping the chest dark and the back/wing hatched. Extend two long, tapering tail streamers from the rear, curving them downward and slightly outward. Add two thin legs with visible toes attached under the body, then refine the crest and tail feather outlines.
