How to Draw Ostrich — Free Practice Sheets

ANSWER / CASE 1

ostrich: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

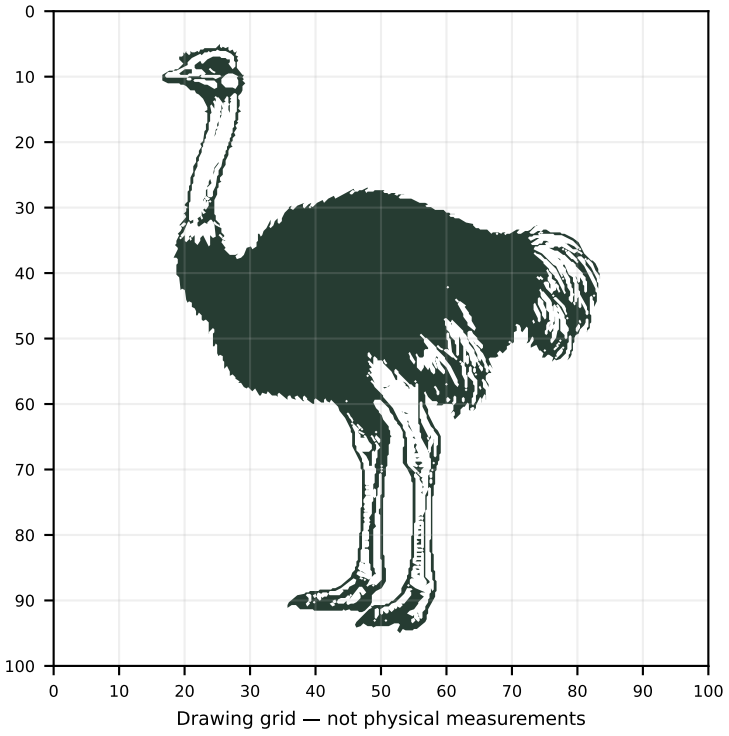

ANSWER: Example solution: preserve long slender neck extending upward from a bulky feathered body, small head with a visible large eye and beak, two long legs with distinct feet, one slightly behind the other. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the bulky oval body with a rounded tail plume at the rear.
2. Add the long neck rising from the front of the body and place the small head with a large eye and beak at the top.
3. Sketch two long legs descending from the lower body, angling one slightly back for a natural stance.
4. Outline the feet with visible toes and add feather texture lines across the body and tail.
