How to Draw Teepee — Free Practice Sheets

ANSWER / CASE 1

teepee: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

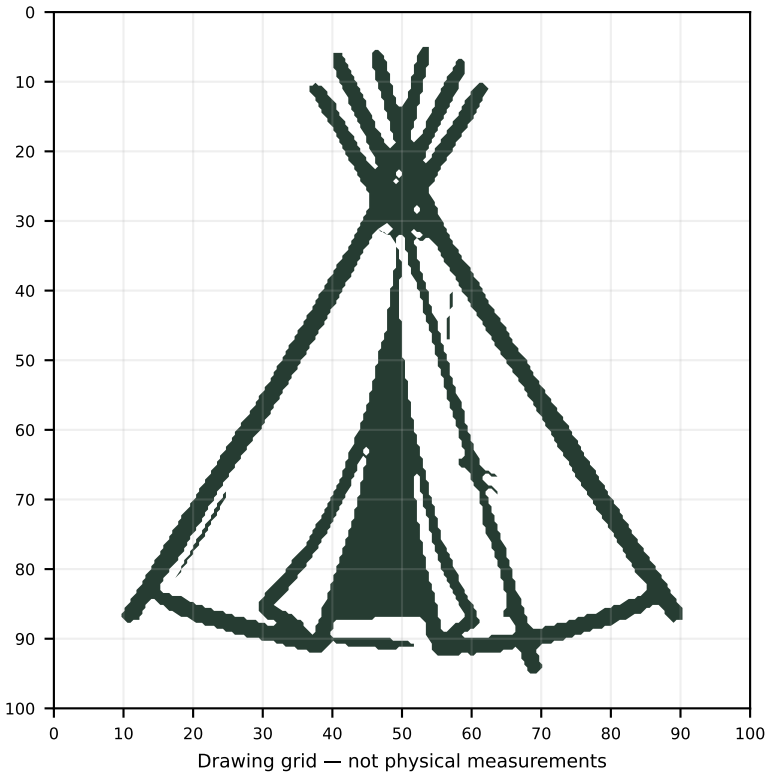

ANSWER: Example solution: preserve conical tent shape with wide base tapering to a top apex, multiple pole tips crossing and extending above the apex, dark triangular entrance flap opening at the front base. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a wide horizontal base line and two long diagonal lines rising from its ends to meet at a central apex, forming the conical tent body.
2. Add several short pole lines extending upward and crossing at the apex to create the exposed pole tips.
3. Draw a tall narrow triangular opening in the front center, shading or outlining the entrance flap edges.
4. Add a bottom edge line connecting the base corners and refine the flap outline to show the opening.

How to Draw Teepee — Free Practice Sheets

ANSWER / CASE 2

teepee: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

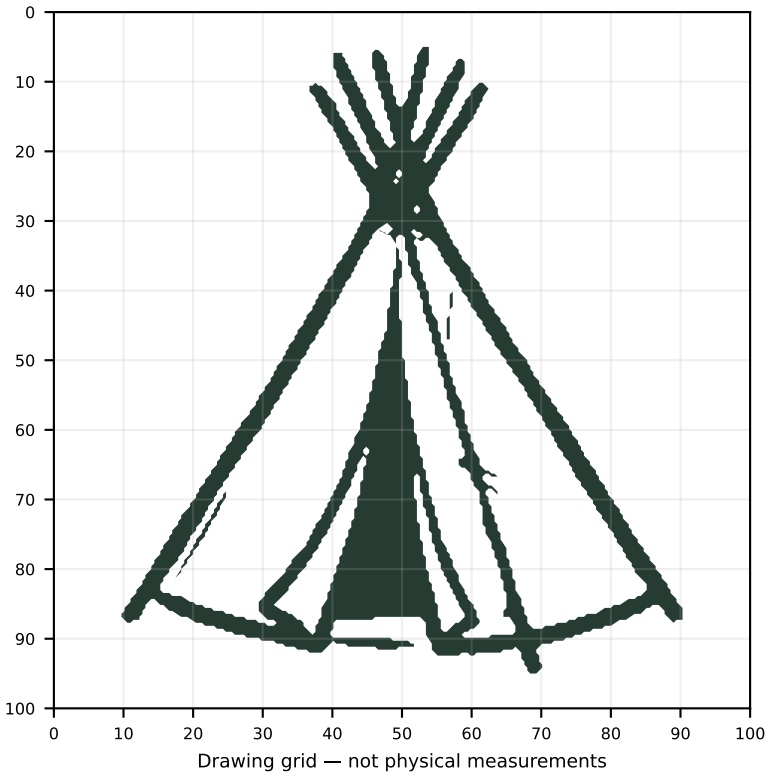

ANSWER: Example solution: preserve conical tent shape with wide base tapering to a top apex, multiple pole tips crossing and extending above the apex, dark triangular entrance flap opening at the front base. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a wide horizontal base line and two long diagonal lines rising from its ends to meet at a central apex, forming the conical tent body.
2. Add several short pole lines extending upward and crossing at the apex to create the exposed pole tips.
3. Draw a tall narrow triangular opening in the front center, shading or outlining the entrance flap edges.
4. Add a bottom edge line connecting the base corners and refine the flap outline to show the opening.

ANSWER / CASE 3

teepee: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

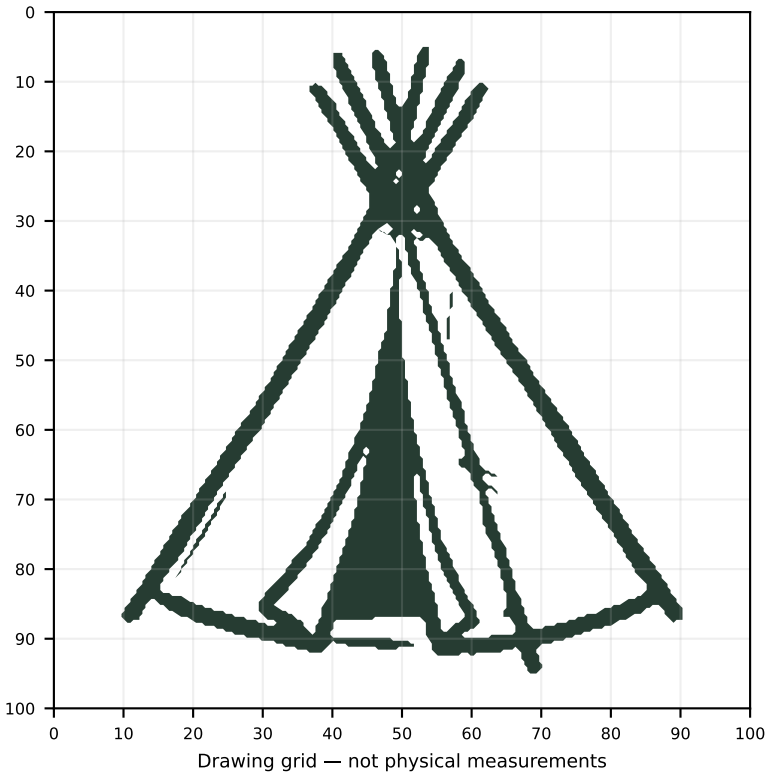

ANSWER: Example solution: preserve conical tent shape with wide base tapering to a top apex, multiple pole tips crossing and extending above the apex, dark triangular entrance flap opening at the front base. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a wide horizontal base line and two long diagonal lines rising from its ends to meet at a central apex, forming the conical tent body.
2. Add several short pole lines extending upward and crossing at the apex to create the exposed pole tips.
3. Draw a tall narrow triangular opening in the front center, shading or outlining the entrance flap edges.
4. Add a bottom edge line connecting the base corners and refine the flap outline to show the opening.

How to Draw Teepee — Free Practice Sheets

ANSWER / CASE 4

teepee: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve conical tent shape with wide base tapering to a top apex, multiple pole tips crossing and extending above the apex, dark triangular entrance flap opening at the front base. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a wide horizontal base line and two long diagonal lines rising from its ends to meet at a central apex, forming the conical tent body.
2. Add several short pole lines extending upward and crossing at the apex to create the exposed pole tips.
3. Draw a tall narrow triangular opening in the front center, shading or outlining the entrance flap edges.
4. Add a bottom edge line connecting the base corners and refine the flap outline to show the opening.
