How to Draw Teepee — Free Practice Sheets

REFERENCE / CASE 1

teepee: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

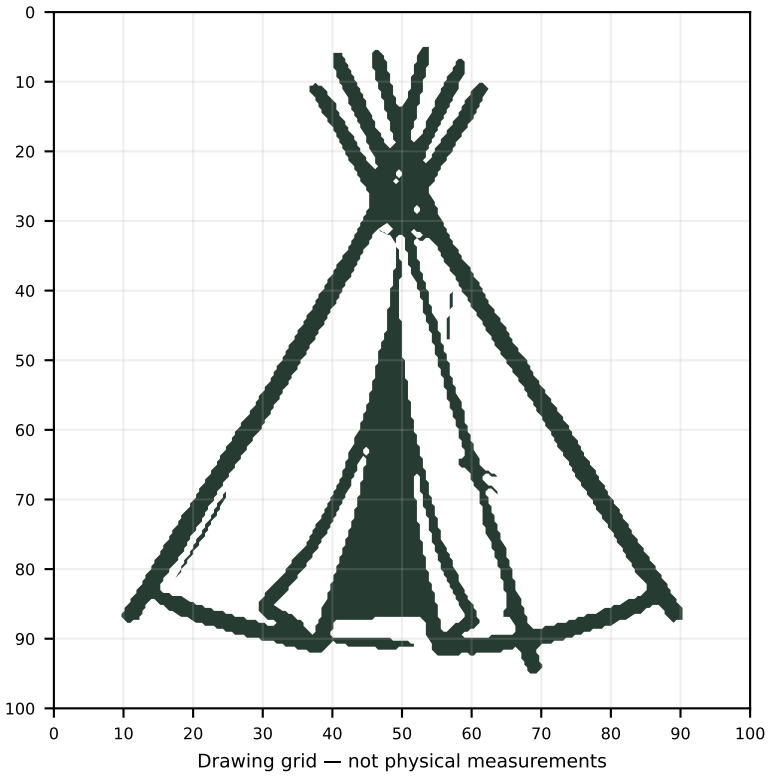

METHOD: Draw a wide horizontal base line and two long diagonal lines rising from its ends to meet at a central apex, forming the conical tent body. Add several short pole lines extending upward and crossing at the apex to create the exposed pole tips. Draw a tall narrow triangular opening in the front center, shading or outlining the entrance flap edges. Add a bottom edge line connecting the base corners and refine the flap outline to show the opening.
