How to Draw Lighthouse — Free Practice Sheets

ANSWER / CASE 1

lighthouse: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

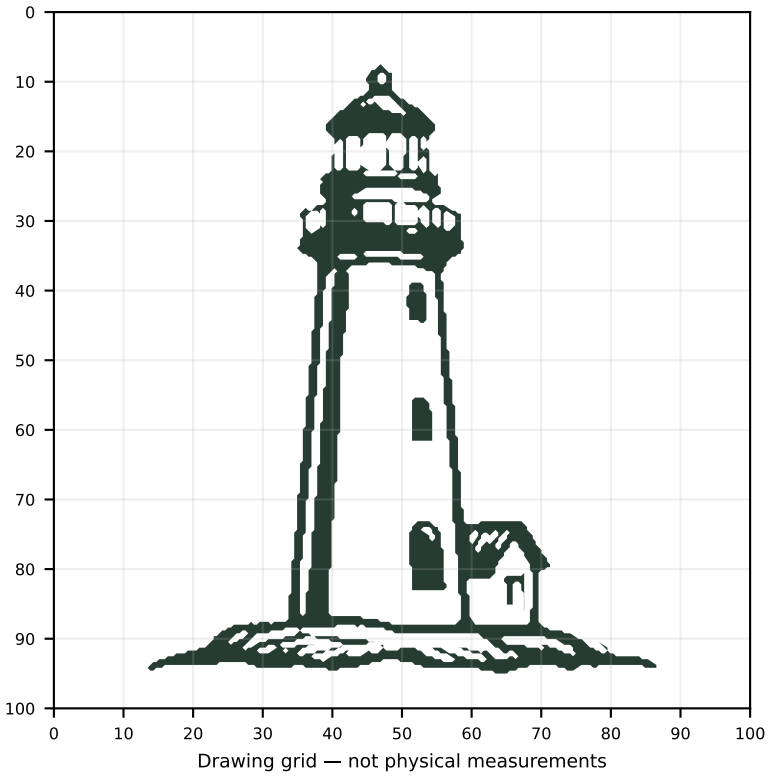

ANSWER: Example solution: preserve tapered tower with slightly curved sides, lantern room with domed roof and finial at top, gallery railing encircling the lantern room. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a tall tapered tower outline, wider at the base and narrowing toward the top.
2. Add the gallery railing as a horizontal band with vertical supports near the top of the tower.
3. Draw the lantern room above the railing with a domed roof and a small finial.
4. Add a small attached building at the lower right and a rocky ground line at the base.

ANSWER / CASE 3

lighthouse: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

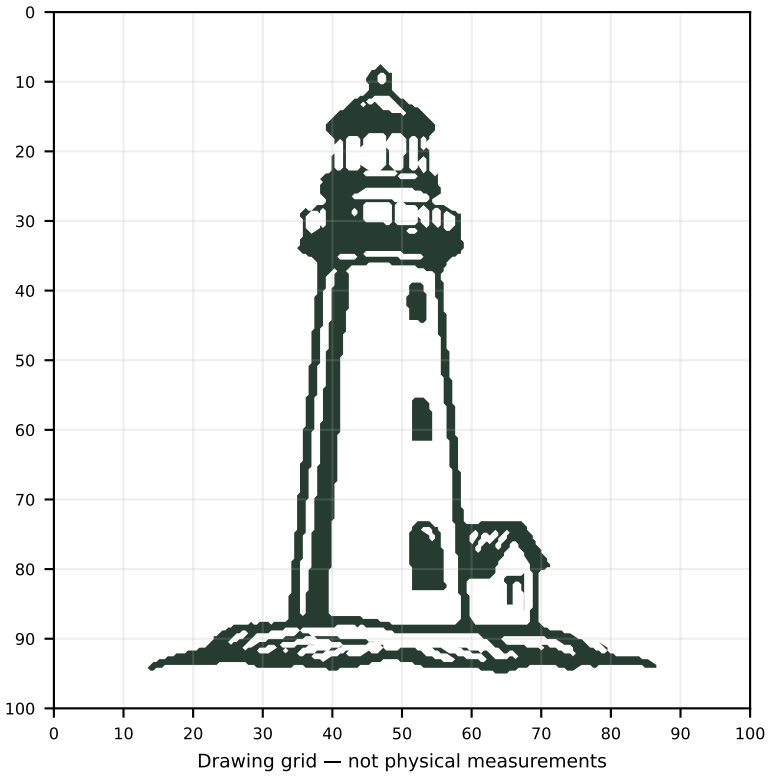

ANSWER: Example solution: preserve tapered tower with slightly curved sides, lantern room with domed roof and finial at top, gallery railing encircling the lantern room. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a tall tapered tower outline, wider at the base and narrowing toward the top.
2. Add the gallery railing as a horizontal band with vertical supports near the top of the tower.
3. Draw the lantern room above the railing with a domed roof and a small finial.
4. Add a small attached building at the lower right and a rocky ground line at the base.

How to Draw Lighthouse — Free Practice Sheets

ANSWER / CASE 4

lighthouse: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve tapered tower with slightly curved sides, lantern room with domed roof and finial at top, gallery railing encircling the lantern room. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a tall tapered tower outline, wider at the base and narrowing toward the top.
2. Add the gallery railing as a horizontal band with vertical supports near the top of the tower.
3. Draw the lantern room above the railing with a domed roof and a small finial.
4. Add a small attached building at the lower right and a rocky ground line at the base.
