How to Draw Log Cabin — Free Practice Sheets

ANSWER / CASE 1

log cabin: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

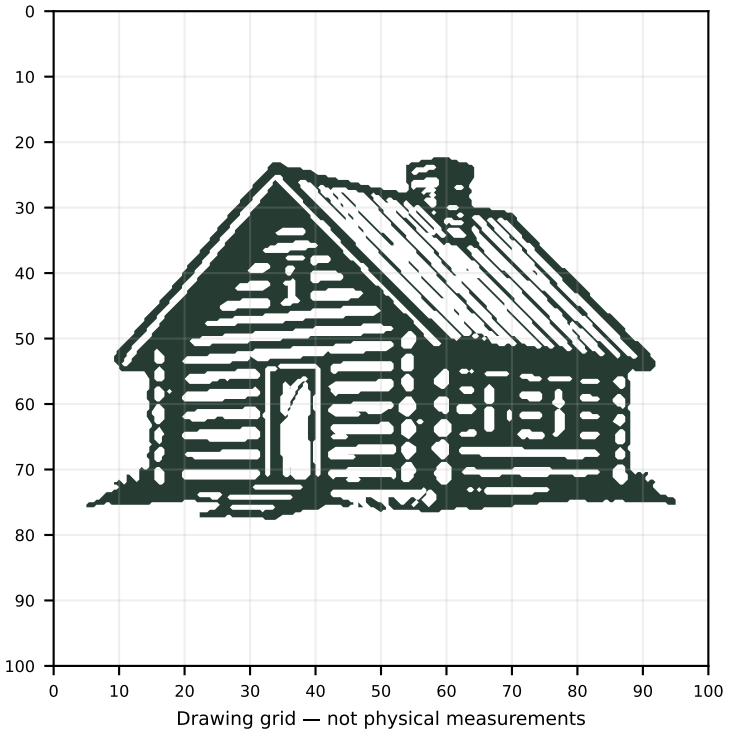

ANSWER: Example solution: preserve stacked horizontal log walls with rounded log ends at corners, gabled roof with parallel line texture, rectangular chimney on the roof ridge. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the main rectangular cabin body and side extension as simple box shapes.
2. Add stacked horizontal log lines across the walls and round log ends at the visible corners.
3. Place the gabled roof over the main body and the lower shed roof over the side extension, then add the chimney on the ridge.
4. Draw the front door, steps, and windows, then finish with simple ground/grass lines at the base.

How to Draw Log Cabin — Free Practice Sheets

ANSWER / CASE 2

log cabin: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

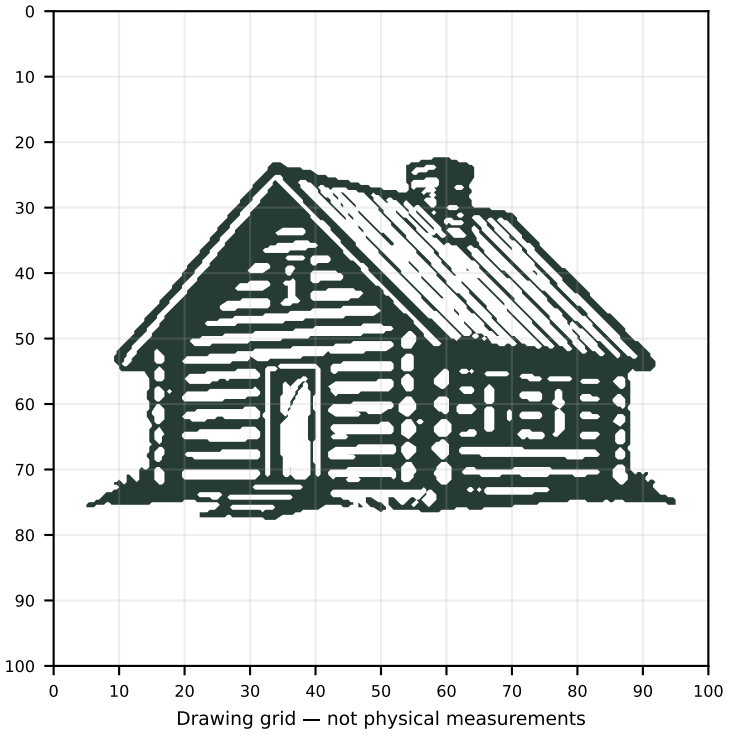

ANSWER: Example solution: preserve stacked horizontal log walls with rounded log ends at corners, gabled roof with parallel line texture, rectangular chimney on the roof ridge. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the main rectangular cabin body and side extension as simple box shapes.
2. Add stacked horizontal log lines across the walls and round log ends at the visible corners.
3. Place the gabled roof over the main body and the lower shed roof over the side extension, then add the chimney on the ridge.
4. Draw the front door, steps, and windows, then finish with simple ground/grass lines at the base.

How to Draw Log Cabin — Free Practice Sheets

ANSWER / CASE 3

log cabin: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

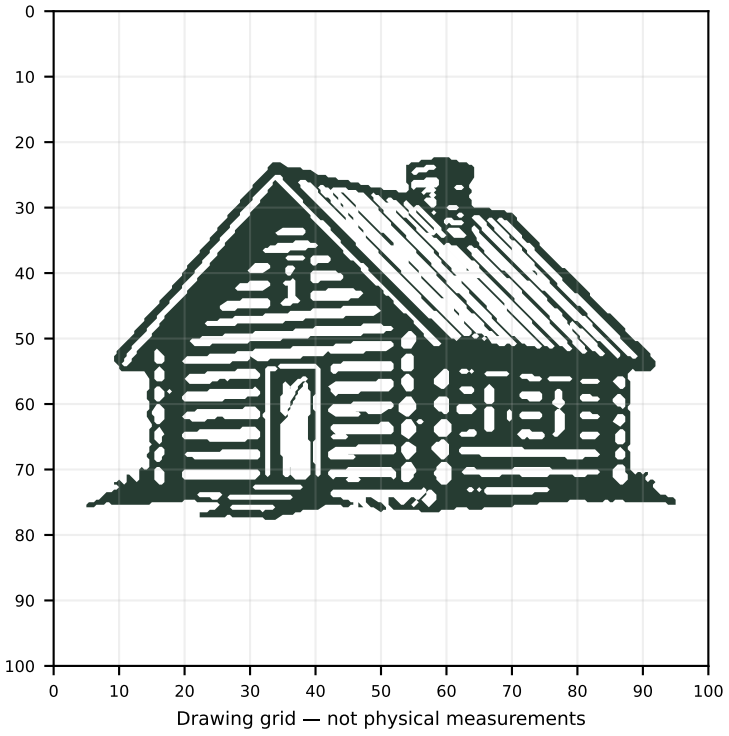

ANSWER: Example solution: preserve stacked horizontal log walls with rounded log ends at corners, gabled roof with parallel line texture, rectangular chimney on the roof ridge. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the main rectangular cabin body and side extension as simple box shapes.
2. Add stacked horizontal log lines across the walls and round log ends at the visible corners.
3. Place the gabled roof over the main body and the lower shed roof over the side extension, then add the chimney on the ridge.
4. Draw the front door, steps, and windows, then finish with simple ground/grass lines at the base.

How to Draw Log Cabin — Free Practice Sheets

ANSWER / CASE 4

log cabin: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve stacked horizontal log walls with rounded log ends at corners, gabled roof with parallel line texture, rectangular chimney on the roof ridge. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the main rectangular cabin body and side extension as simple box shapes.
2. Add stacked horizontal log lines across the walls and round log ends at the visible corners.
3. Place the gabled roof over the main body and the lower shed roof over the side extension, then add the chimney on the ridge.
4. Draw the front door, steps, and windows, then finish with simple ground/grass lines at the base.
