How to Draw Gazebo — Free Practice Sheets

ANSWER / CASE 1

gazebo: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

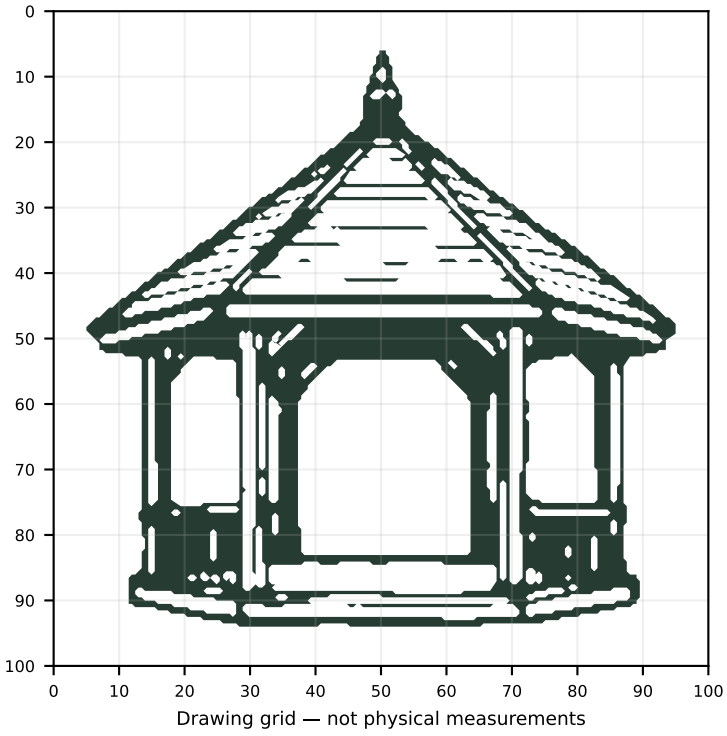

ANSWER: Example solution: preserve hexagonal roof with horizontal shingle lines and a central finial, open-sided structure with slender vertical support posts, stepped base platform with low railings between posts. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the stepped base platform as a wide, low hexagonal shape with a front edge and side edges.
2. Add slender vertical support posts at the visible corners, connecting them to the base and roof line.
3. Draw the hexagonal roof as a broad pyramid with horizontal shingle lines and a small finial at the top.
4. Add low railings between the posts along the base to complete the open-sided gazebo silhouette.

How to Draw Gazebo — Free Practice Sheets

ANSWER / CASE 2

gazebo: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

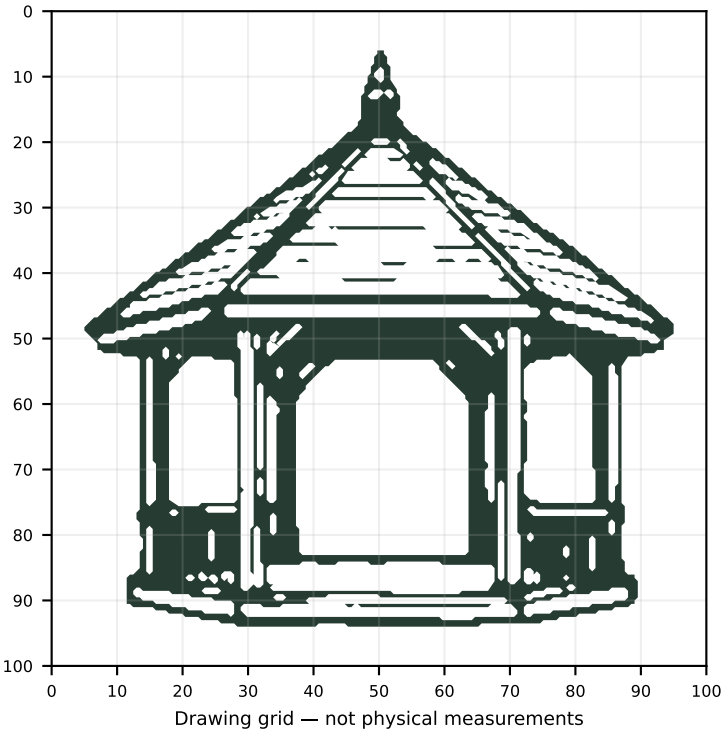

ANSWER: Example solution: preserve hexagonal roof with horizontal shingle lines and a central finial, open-sided structure with slender vertical support posts, stepped base platform with low railings between posts. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the stepped base platform as a wide, low hexagonal shape with a front edge and side edges.
2. Add slender vertical support posts at the visible corners, connecting them to the base and roof line.
3. Draw the hexagonal roof as a broad pyramid with horizontal shingle lines and a small finial at the top.
4. Add low railings between the posts along the base to complete the open-sided gazebo silhouette.

How to Draw Gazebo — Free Practice Sheets

ANSWER / CASE 3

gazebo: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

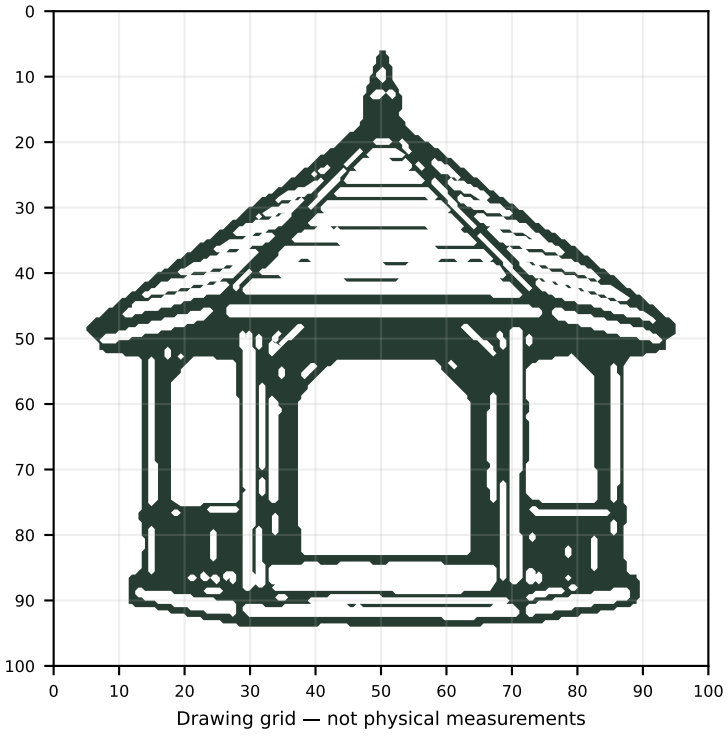

ANSWER: Example solution: preserve hexagonal roof with horizontal shingle lines and a central finial, open-sided structure with slender vertical support posts, stepped base platform with low railings between posts. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the stepped base platform as a wide, low hexagonal shape with a front edge and side edges.
2. Add slender vertical support posts at the visible corners, connecting them to the base and roof line.
3. Draw the hexagonal roof as a broad pyramid with horizontal shingle lines and a small finial at the top.
4. Add low railings between the posts along the base to complete the open-sided gazebo silhouette.

How to Draw Gazebo — Free Practice Sheets

ANSWER / CASE 4

gazebo: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve hexagonal roof with horizontal shingle lines and a central finial, open-sided structure with slender vertical support posts, stepped base platform with low railings between posts. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the stepped base platform as a wide, low hexagonal shape with a front edge and side edges.
2. Add slender vertical support posts at the visible corners, connecting them to the base and roof line.
3. Draw the hexagonal roof as a broad pyramid with horizontal shingle lines and a small finial at the top.
4. Add low railings between the posts along the base to complete the open-sided gazebo silhouette.
