How to Draw Colosseum — Free Practice Sheets

REFERENCE / CASE 1

colosseum: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

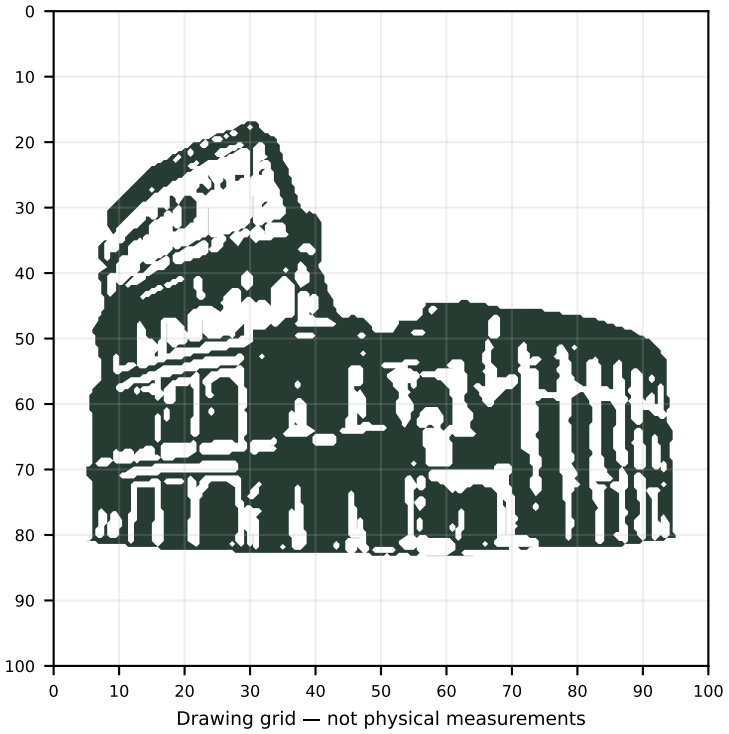

METHOD: Draw the elliptical base outline, wider than tall, with a slight tilt to show perspective. Add three horizontal tier lines following the curve of the ellipse to define the facade levels. Place evenly spaced arched openings along each tier, using simple U-shapes or rounded rectangles. Draw the taller outer wall segment on the left and the lower ruined section on the right, then connect the tiers with vertical pilaster lines. Use the separate practice sheet before checking the answer.

How to Draw Colosseum — Free Practice Sheets

REFERENCE / CASE 2

colosseum: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

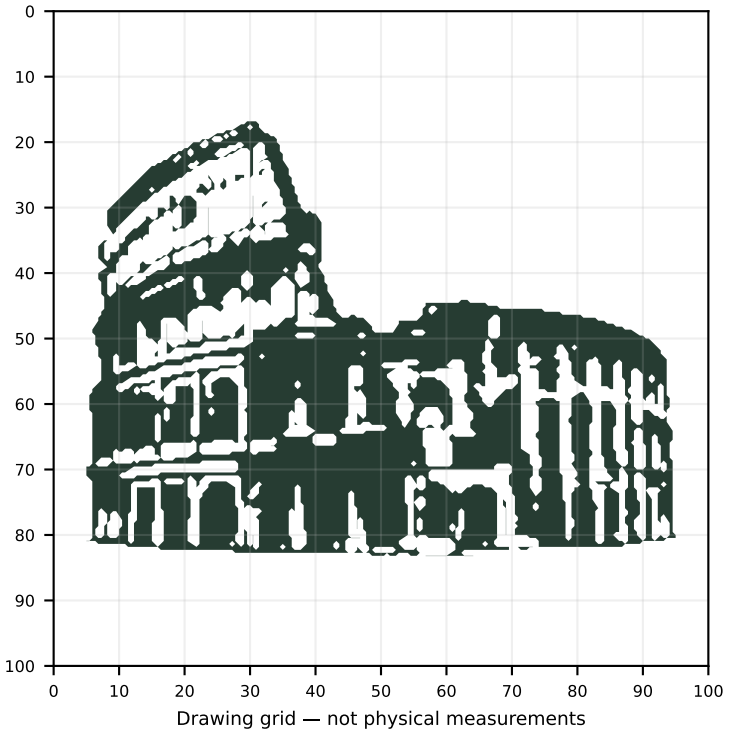

METHOD: Draw the elliptical base outline, wider than tall, with a slight tilt to show perspective. Add three horizontal tier lines following the curve of the ellipse to define the facade levels. Place evenly spaced arched openings along each tier, using simple U-shapes or rounded rectangles. Draw the taller outer wall segment on the left and the lower ruined section on the right, then connect the tiers with vertical pilaster lines. Use the separate practice sheet before checking the answer.

REFERENCE / CASE 3

colosseum: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

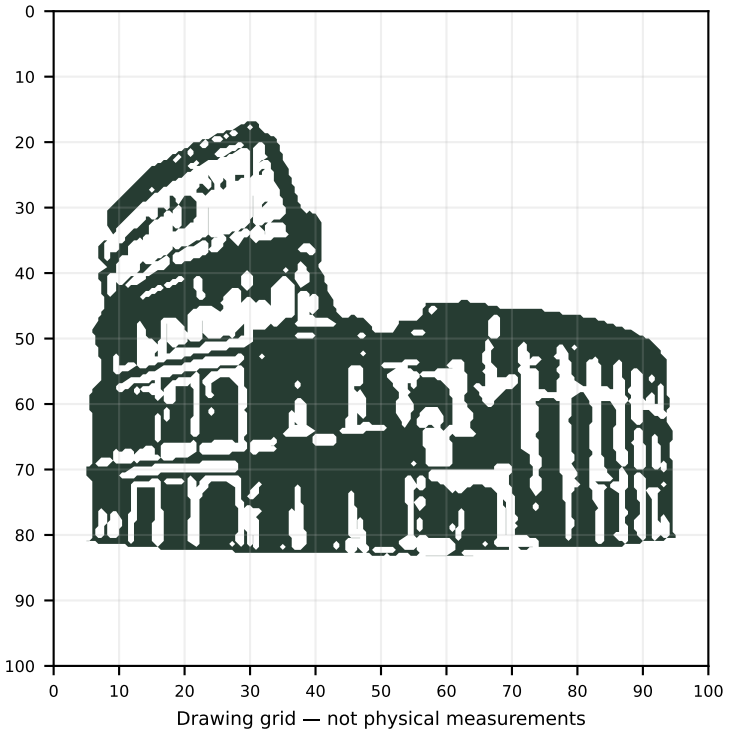

METHOD: Draw the elliptical base outline, wider than tall, with a slight tilt to show perspective. Add three horizontal tier lines following the curve of the ellipse to define the facade levels. Place evenly spaced arched openings along each tier, using simple U-shapes or rounded rectangles. Draw the taller outer wall segment on the left and the lower ruined section on the right, then connect the tiers with vertical pilaster lines. Use the separate practice sheet before checking the answer.

How to Draw Colosseum — Free Practice Sheets

REFERENCE / CASE 4

colosseum: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw the elliptical base outline, wider than tall, with a slight tilt to show perspective. Add three horizontal tier lines following the curve of the ellipse to define the facade levels. Place evenly spaced arched openings along each tier, using simple U-shapes or rounded rectangles. Draw the taller outer wall segment on the left and the lower ruined section on the right, then connect the tiers with vertical pilaster lines. Use the separate practice sheet before checking the answer.
