How to Draw Treehouse — Free Practice Sheets

ANSWER / CASE 1

treehouse: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

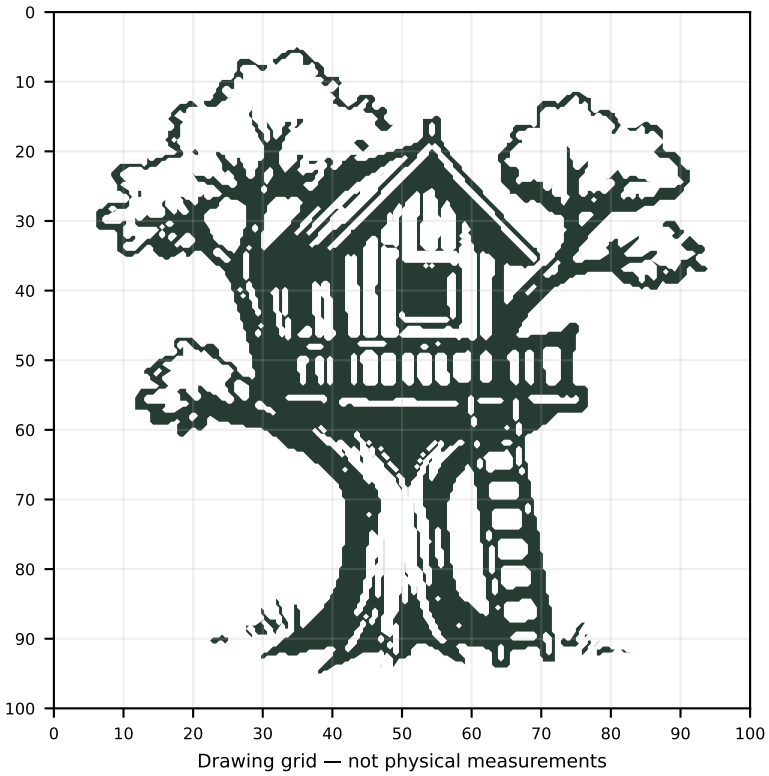

ANSWER: Example solution: preserve A small house structure with a gabled roof and a rectangular window sits atop a thick tree trunk., A horizontal platform with a railing wraps around the front of the house, supported by the tree branches., A ladder leans against the platform, providing access to the treehouse.. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the thick tree trunk with a wide base and branching limbs.
2. Add the horizontal platform with a railing on top of the trunk and branches.
3. Draw the small house structure with a gabled roof and window on the platform.
4. Add the ladder leaning from the ground to the platform, and sketch the leafy foliage around the branches.
