How to Draw Castle — Free Practice Sheets

ANSWER / CASE 1

castle: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

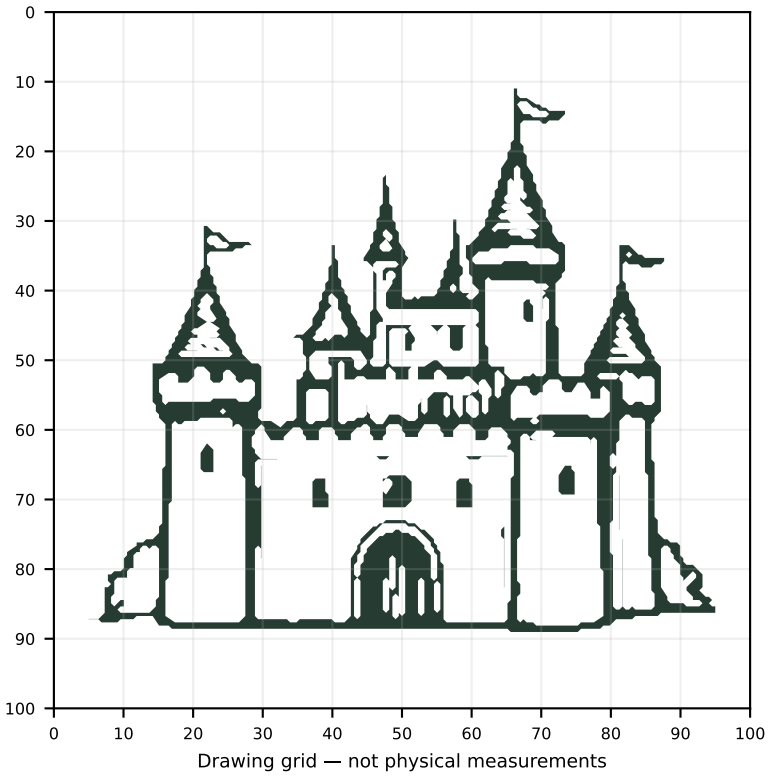

ANSWER: Example solution: preserve tall stone walls with a large central arched gate, crenellated battlements along the main wall and tower tops, multiple towers with conical roofs topped by flags. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a wide rectangular base for the main castle wall, then add a large arched doorway in the center.
2. Add a crenellated parapet along the top of the main wall by drawing a row of small rectangular notches.
3. Draw four corner towers as vertical cylinders, each topped with a triangular conical roof and a small flag.
4. Add a taller central keep behind the main wall with its own conical roof and flag, then draw small windows on the walls and towers.
