How to Draw Mackinac Bridge — Free Practice Sheets

REFERENCE / CASE 1

mackinac bridge: Trace the reference outline, then practise the contour independently.
Compare with the separate full reference sheet.

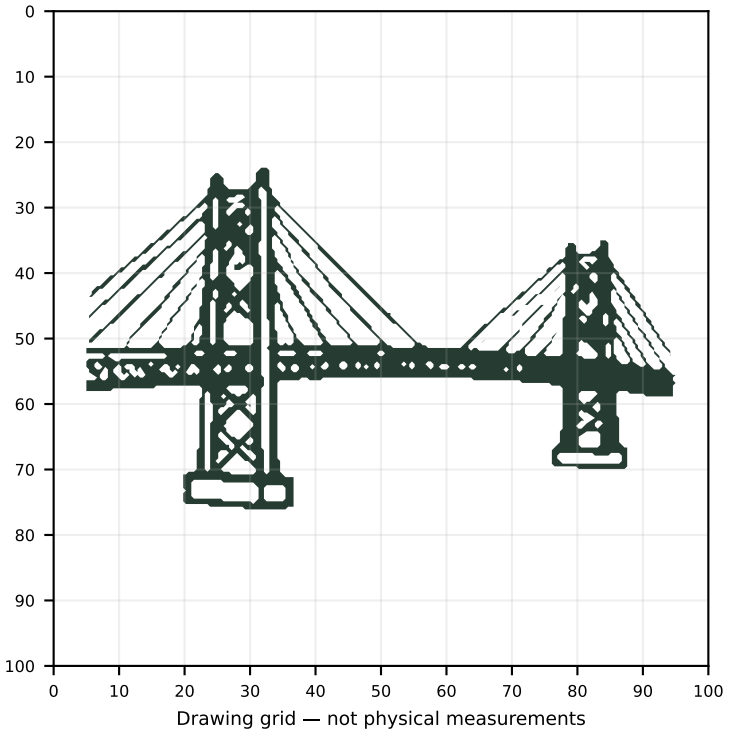

METHOD: Draw two vertical towers with rectangular bases and X-bracing between vertical members Connect the towers with a long horizontal deck line, extending it past both towers Add diagonal cable lines from each tower top down to points along the deck Outline the deck with parallel lines and add small vertical hatching for roadway detail
Use the separate practice sheet before checking the answer.

How to Draw Mackinac Bridge — Free Practice Sheets

REFERENCE / CASE 2

mackinac bridge: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

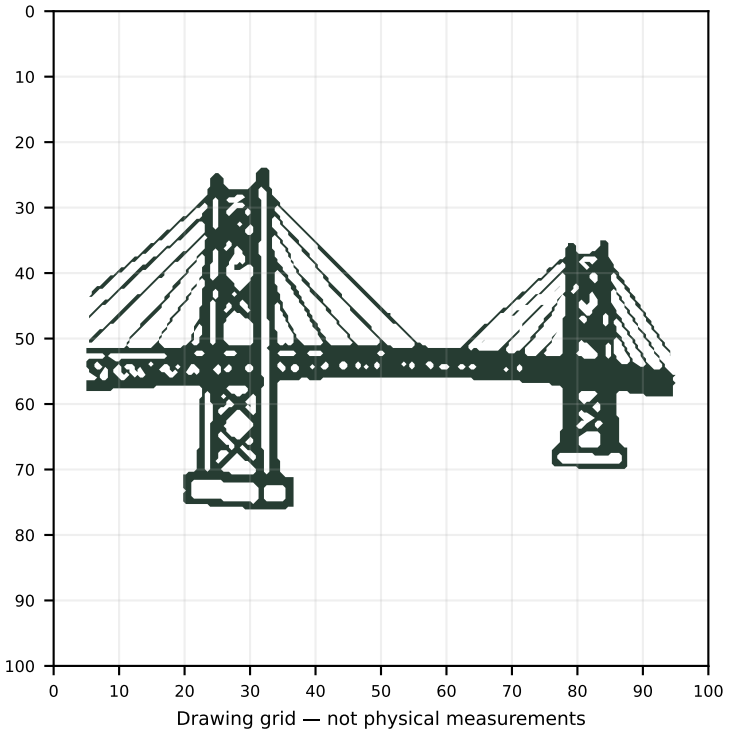

METHOD: Draw two vertical towers with rectangular bases and X-bracing between vertical members Connect the towers with a long horizontal deck line, extending it past both towers Add diagonal cable lines from each tower top down to points along the deck Outline the deck with parallel lines and add small vertical hatching for roadway detail
Use the separate practice sheet before checking the answer.

How to Draw Mackinac Bridge — Free Practice Sheets

REFERENCE / CASE 3

mackinac bridge: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

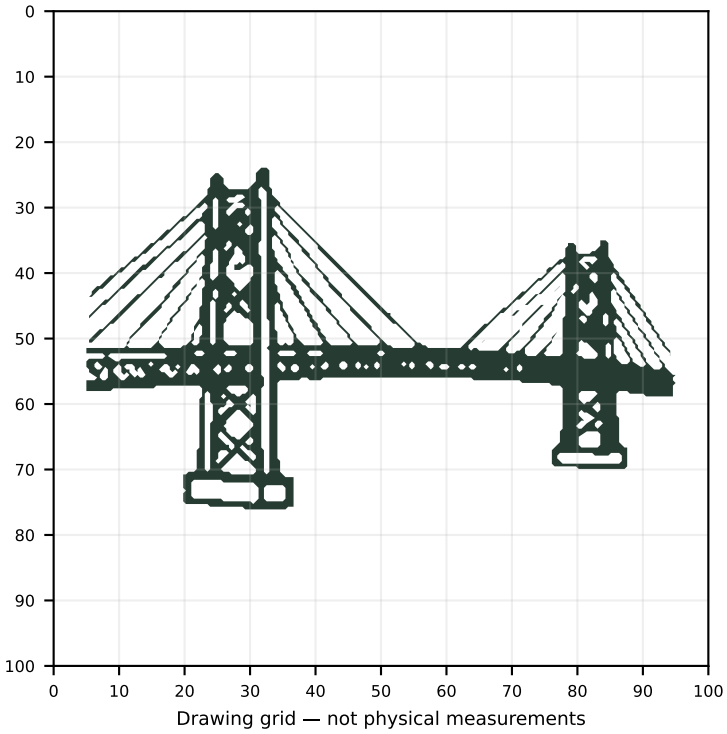

METHOD: Draw two vertical towers with rectangular bases and X-bracing between vertical members Connect the towers with a long horizontal deck line, extending it past both towers Add diagonal cable lines from each tower top down to points along the deck Outline the deck with parallel lines and add small vertical hatching for roadway detail
Use the separate practice sheet before checking the answer.

How to Draw Mackinac Bridge — Free Practice Sheets

REFERENCE / CASE 4

mackinac bridge: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw two vertical towers with rectangular bases and X-bracing between vertical members Connect the towers with a long horizontal deck line, extending it past both towers Add diagonal cable lines from each tower top down to points along the deck Outline the deck with parallel lines and add small vertical hatching for roadway detail
Use the separate practice sheet before checking the answer.
