How to Draw Barn — Free Practice Sheets

ANSWER / CASE 1

barn: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

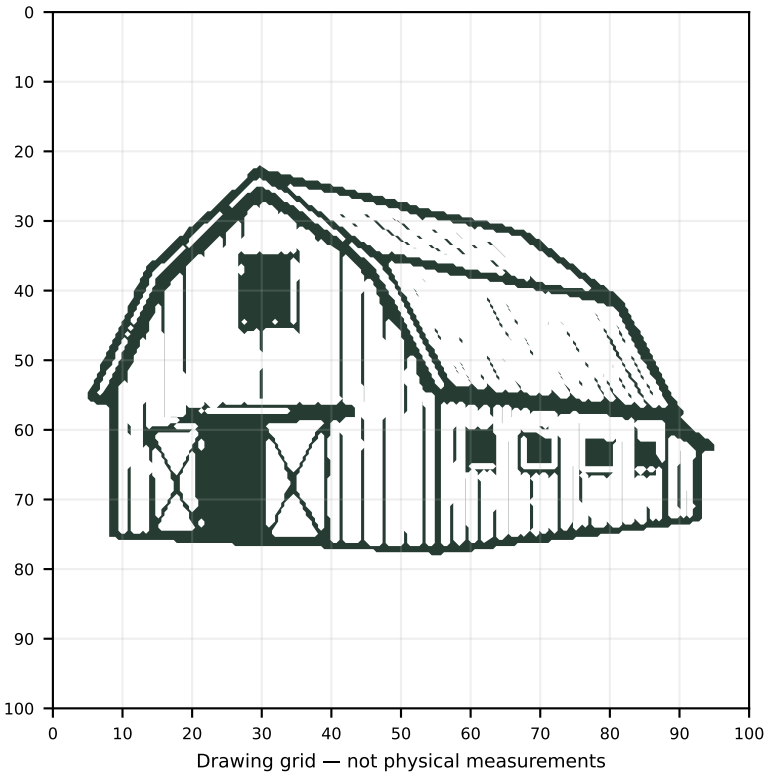

ANSWER: Example solution: preserve gambrel roof with two slopes on each side, large central sliding door opening with cross-buck trim on flanking doors, row of small square windows along the side wall. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the gambrel roof outline as a wide pentagon-like profile with a shallow upper slope and steeper lower slope.
2. Add the front facade rectangle beneath the roof, then place a large rectangular door opening in the center.
3. Draw two cross-buck door panels flanking the central opening, each with an X made of diagonal lines.
4. Extend the side wall to the right, add a row of small square windows, and finish with vertical siding lines.

ANSWER / CASE 2

barn: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

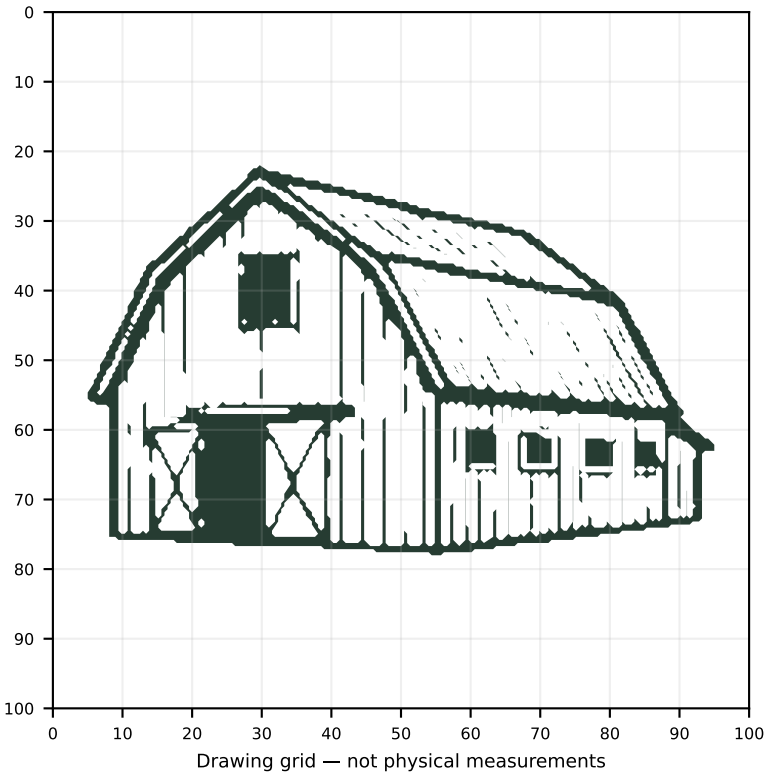

ANSWER: Example solution: preserve gambrel roof with two slopes on each side, large central sliding door opening with cross-buck trim on flanking doors, row of small square windows along the side wall. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the gambrel roof outline as a wide pentagon-like profile with a shallow upper slope and steeper lower slope.
2. Add the front facade rectangle beneath the roof, then place a large rectangular door opening in the center.
3. Draw two cross-buck door panels flanking the central opening, each with an X made of diagonal lines.
4. Extend the side wall to the right, add a row of small square windows, and finish with vertical siding lines.

ANSWER / CASE 3

barn: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

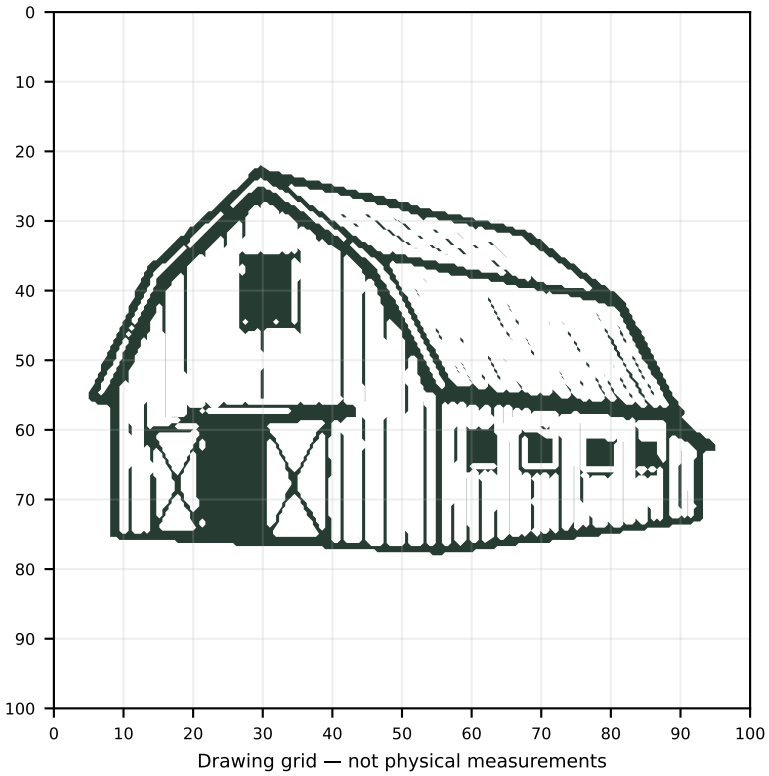

ANSWER: Example solution: preserve gambrel roof with two slopes on each side, large central sliding door opening with cross-buck trim on flanking doors, row of small square windows along the side wall. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the gambrel roof outline as a wide pentagon-like profile with a shallow upper slope and steeper lower slope.
2. Add the front facade rectangle beneath the roof, then place a large rectangular door opening in the center.
3. Draw two cross-buck door panels flanking the central opening, each with an X made of diagonal lines.
4. Extend the side wall to the right, add a row of small square windows, and finish with vertical siding lines.

How to Draw Barn — Free Practice Sheets

ANSWER / CASE 4

barn: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve gambrel roof with two slopes on each side, large central sliding door opening with cross-buck trim on flanking doors, row of small square windows along the side wall. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the gambrel roof outline as a wide pentagon-like profile with a shallow upper slope and steeper lower slope.
2. Add the front facade rectangle beneath the roof, then place a large rectangular door opening in the center.
3. Draw two cross-buck door panels flanking the central opening, each with an X made of diagonal lines.
4. Extend the side wall to the right, add a row of small square windows, and finish with vertical siding lines.
