How to Draw Cathedral — Free Practice Sheets

ANSWER / CASE 1

cathedral: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

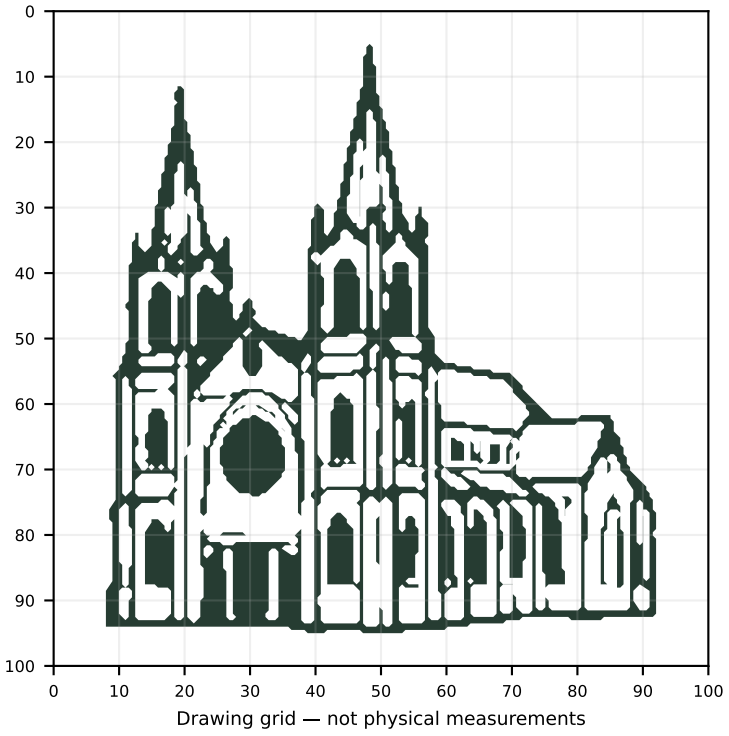

ANSWER: Example solution: preserve two tall pointed spires flanking the facade, large circular rose window centered on the front, pointed arch windows along the towers and side aisle. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw two vertical tower rectangles with pointed spires on top, keeping the right tower slightly taller.
2. Add the central facade block between the towers and place a large circle for the rose window.
3. Outline the lower side aisle to the right with a sloped roof and a row of pointed arch windows.
4. Add pointed arch openings on the towers and a dark rectangular doorway at the base, then outline the whole silhouette.

ANSWER / CASE 2

cathedral: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

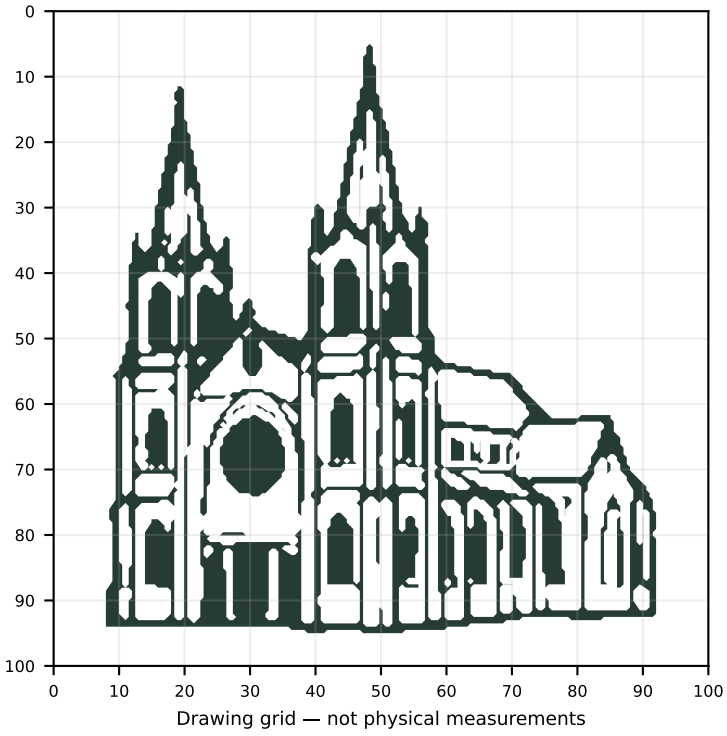

ANSWER: Example solution: preserve two tall pointed spires flanking the facade, large circular rose window centered on the front, pointed arch windows along the towers and side aisle. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw two vertical tower rectangles with pointed spires on top, keeping the right tower slightly taller.
2. Add the central facade block between the towers and place a large circle for the rose window.
3. Outline the lower side aisle to the right with a sloped roof and a row of pointed arch windows.
4. Add pointed arch openings on the towers and a dark rectangular doorway at the base, then outline the whole silhouette.

How to Draw Cathedral — Free Practice Sheets

ANSWER / CASE 3

cathedral: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

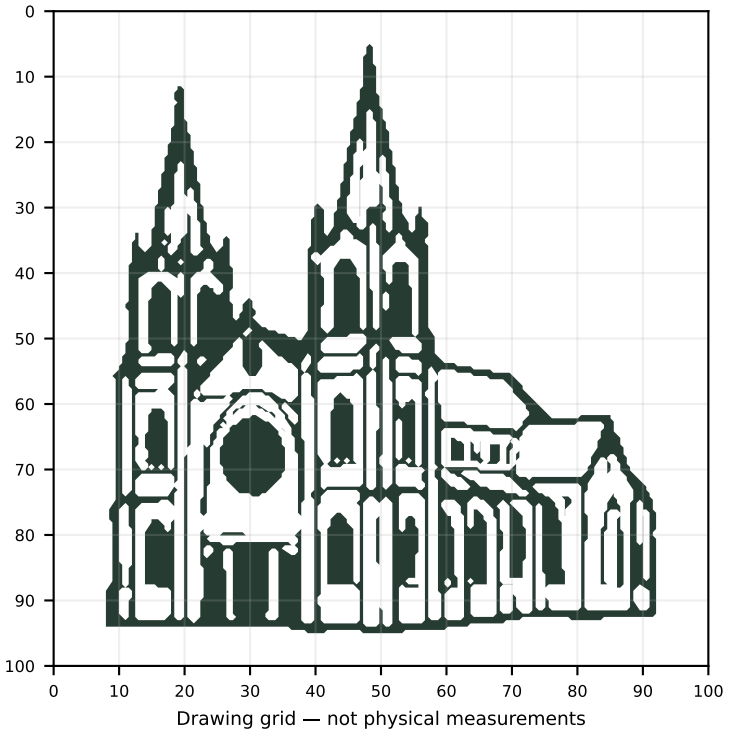

ANSWER: Example solution: preserve two tall pointed spires flanking the facade, large circular rose window centered on the front, pointed arch windows along the towers and side aisle. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw two vertical tower rectangles with pointed spires on top, keeping the right tower slightly taller.
2. Add the central facade block between the towers and place a large circle for the rose window.
3. Outline the lower side aisle to the right with a sloped roof and a row of pointed arch windows.
4. Add pointed arch openings on the towers and a dark rectangular doorway at the base, then outline the whole silhouette.

How to Draw Cathedral — Free Practice Sheets

ANSWER / CASE 4

cathedral: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve two tall pointed spires flanking the facade, large circular rose window centered on the front, pointed arch windows along the towers and side aisle. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw two vertical tower rectangles with pointed spires on top, keeping the right tower slightly taller.
2. Add the central facade block between the towers and place a large circle for the rose window.
3. Outline the lower side aisle to the right with a sloped roof and a row of pointed arch windows.
4. Add pointed arch openings on the towers and a dark rectangular doorway at the base, then outline the whole silhouette.
