How to Draw Donut — Free Practice Sheets

ANSWER / CASE 1

donut: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

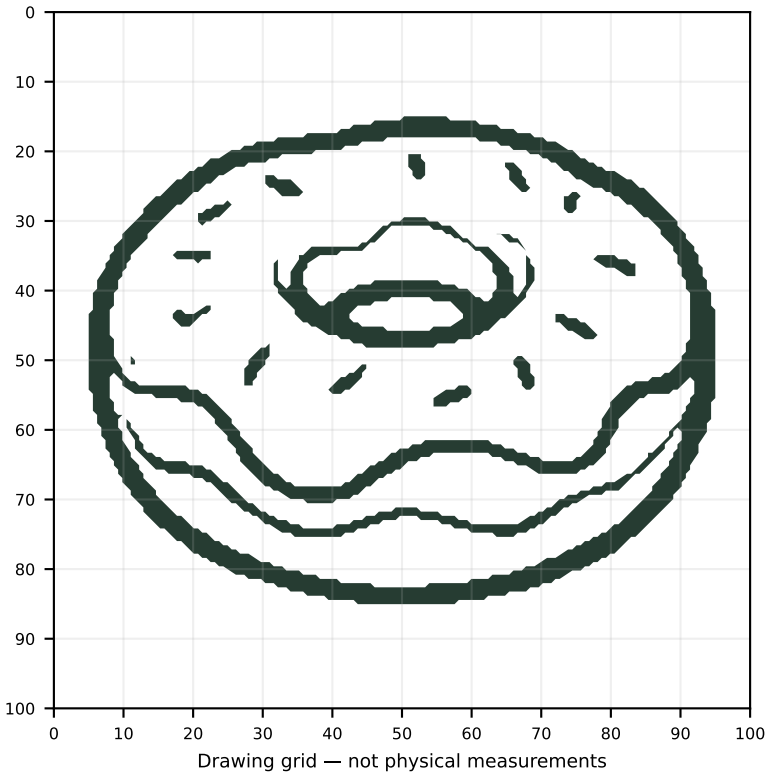

ANSWER: Example solution: preserve ring shape with central hole, wavy glaze drip line around the upper surface, small sprinkle marks scattered on the glazed top. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large outer oval for the donut body and a smaller inner oval for the hole.
2. Add a wavy line across the middle of the outer oval to separate the glazed top from the lower dough.
3. Draw a second wavy line below the first to suggest the glaze edge/drip.
4. Scatter short dash marks over the top surface for sprinkles.

How to Draw Donut — Free Practice Sheets

ANSWER / CASE 2

donut: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

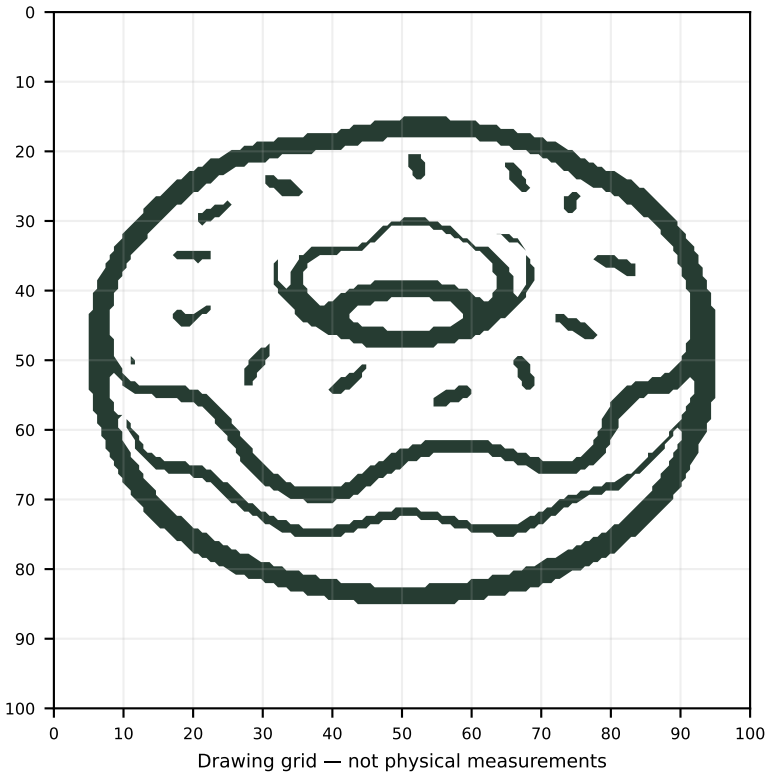

ANSWER: Example solution: preserve ring shape with central hole, wavy glaze drip line around the upper surface, small sprinkle marks scattered on the glazed top. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large outer oval for the donut body and a smaller inner oval for the hole.
2. Add a wavy line across the middle of the outer oval to separate the glazed top from the lower dough.
3. Draw a second wavy line below the first to suggest the glaze edge/drip.
4. Scatter short dash marks over the top surface for sprinkles.

How to Draw Donut — Free Practice Sheets

ANSWER / CASE 3

donut: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

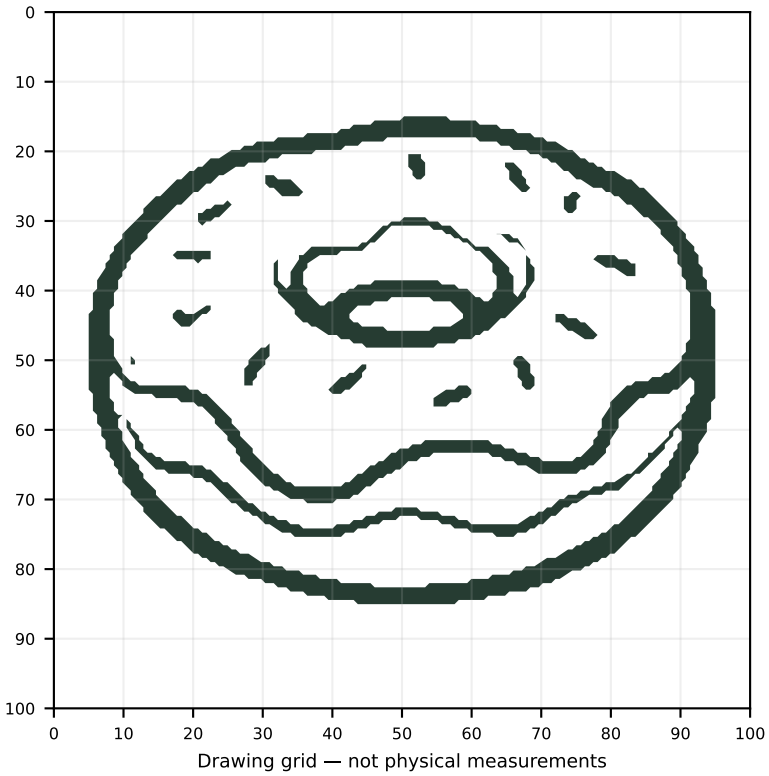

ANSWER: Example solution: preserve ring shape with central hole, wavy glaze drip line around the upper surface, small sprinkle marks scattered on the glazed top. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large outer oval for the donut body and a smaller inner oval for the hole.
2. Add a wavy line across the middle of the outer oval to separate the glazed top from the lower dough.
3. Draw a second wavy line below the first to suggest the glaze edge/drip.
4. Scatter short dash marks over the top surface for sprinkles.

How to Draw Donut — Free Practice Sheets

ANSWER / CASE 4

donut: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve ring shape with central hole, wavy glaze drip line around the upper surface, small sprinkle marks scattered on the glazed top. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large outer oval for the donut body and a smaller inner oval for the hole.
2. Add a wavy line across the middle of the outer oval to separate the glazed top from the lower dough.
3. Draw a second wavy line below the first to suggest the glaze edge/drip.
4. Scatter short dash marks over the top surface for sprinkles.
