How to Draw Grapes — Free Practice Sheets

ANSWER / CASE 1

grapes: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

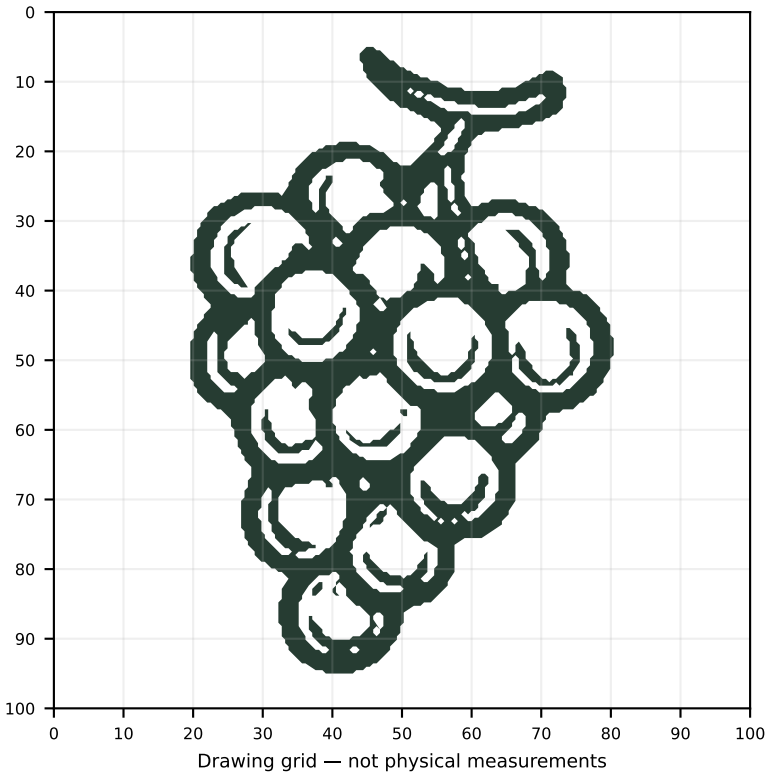

ANSWER: Example solution: preserve cluster of round berries arranged in a tapering triangular bunch, thick curved stem at the top with a small branch connecting to the berries, each berry drawn as a circle with a crescent highlight inside. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a thick curved stem at the top with a short downward branch.
2. Sketch a tapering triangular cluster of overlapping circles for the berries.
3. Add a crescent-shaped highlight inside each berry.
4. Outline the cluster with bold black lines and fill the background of each berry solid black.

ANSWER / CASE 2

grapes: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

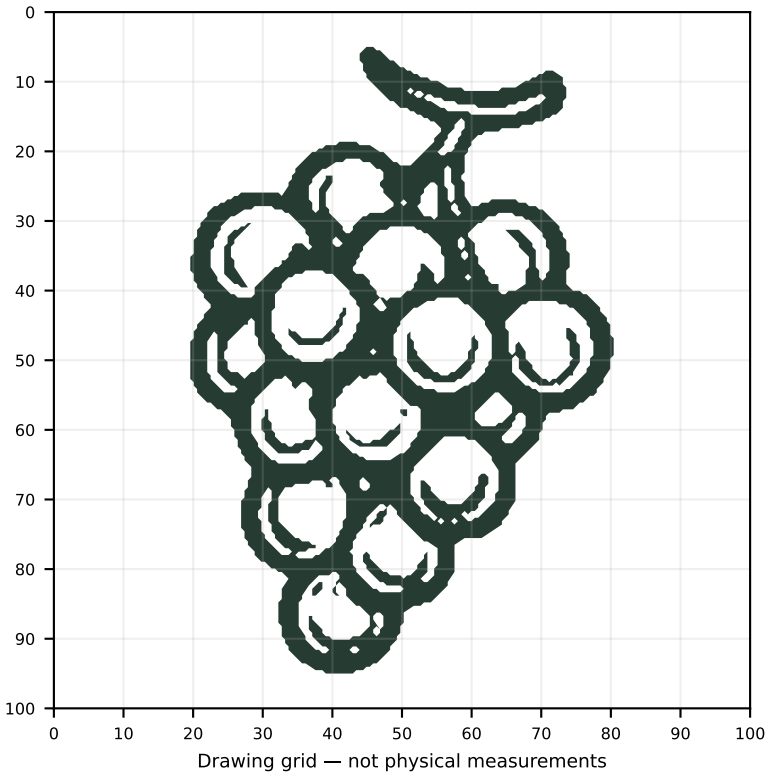

ANSWER: Example solution: preserve cluster of round berries arranged in a tapering triangular bunch, thick curved stem at the top with a small branch connecting to the berries, each berry drawn as a circle with a crescent highlight inside. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a thick curved stem at the top with a short downward branch.
2. Sketch a tapering triangular cluster of overlapping circles for the berries.
3. Add a crescent-shaped highlight inside each berry.
4. Outline the cluster with bold black lines and fill the background of each berry solid black.

ANSWER / CASE 3

grapes: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

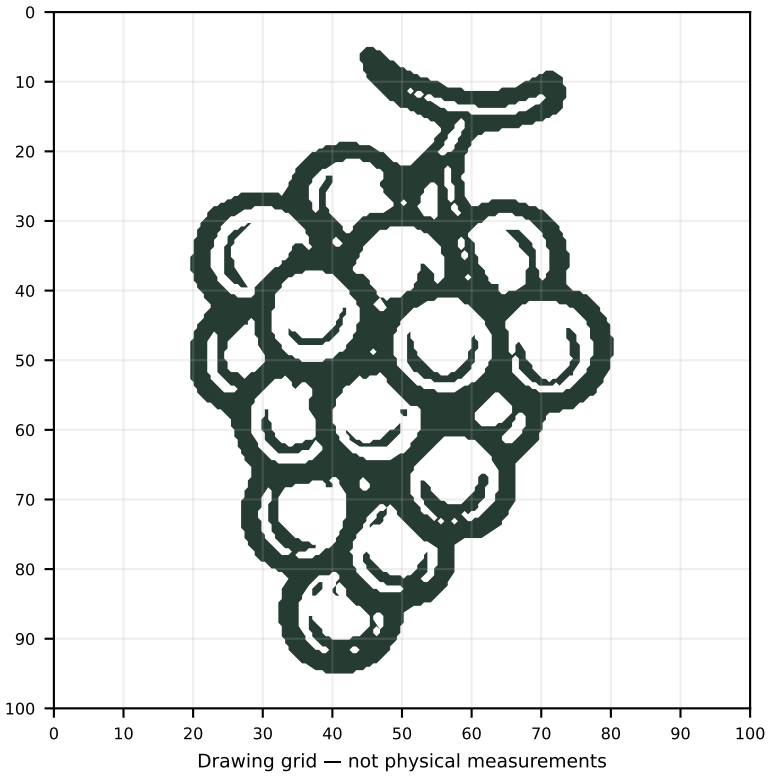

ANSWER: Example solution: preserve cluster of round berries arranged in a tapering triangular bunch, thick curved stem at the top with a small branch connecting to the berries, each berry drawn as a circle with a crescent highlight inside. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a thick curved stem at the top with a short downward branch.
2. Sketch a tapering triangular cluster of overlapping circles for the berries.
3. Add a crescent-shaped highlight inside each berry.
4. Outline the cluster with bold black lines and fill the background of each berry solid black.

How to Draw Grapes — Free Practice Sheets

ANSWER / CASE 4

grapes: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve cluster of round berries arranged in a tapering triangular bunch, thick curved stem at the top with a small branch connecting to the berries, each berry drawn as a circle with a crescent highlight inside. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a thick curved stem at the top with a short downward branch.
2. Sketch a tapering triangular cluster of overlapping circles for the berries.
3. Add a crescent-shaped highlight inside each berry.
4. Outline the cluster with bold black lines and fill the background of each berry solid black.
