How to Draw Pear — Free Practice Sheets

REFERENCE / CASE 1

pear: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

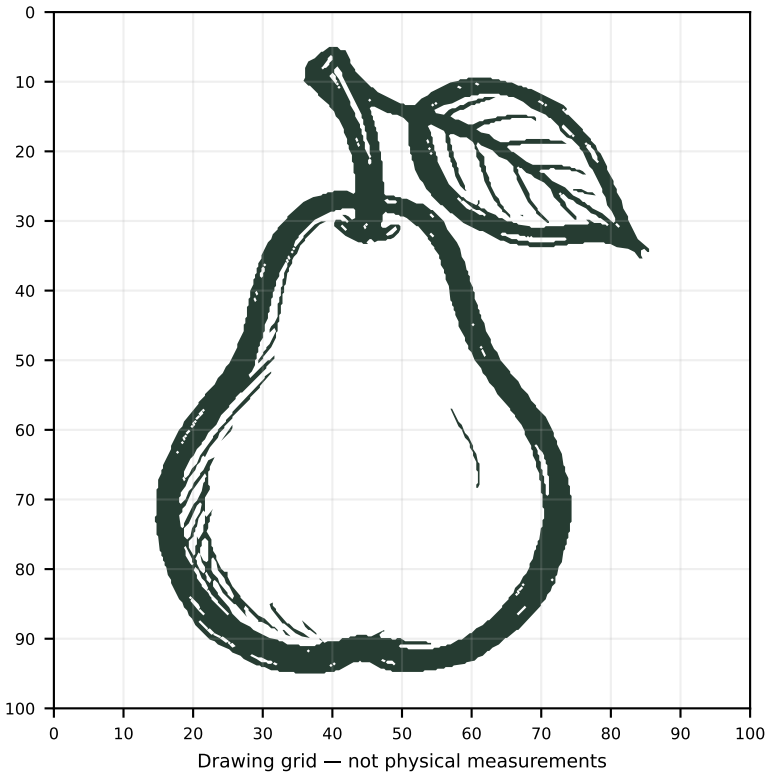

METHOD: Draw a rounded, wide bottom curve to form the bulging base of the pear. Taper the sides inward to create a narrow neck above the wide bottom. Add a short, thick stem at the top of the neck. Attach a single leaf with visible veins to the stem, and add a small curved line on the body for surface detail.
Use the separate practice sheet before checking the answer.

How to Draw Pear — Free Practice Sheets

REFERENCE / CASE 2

pear: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

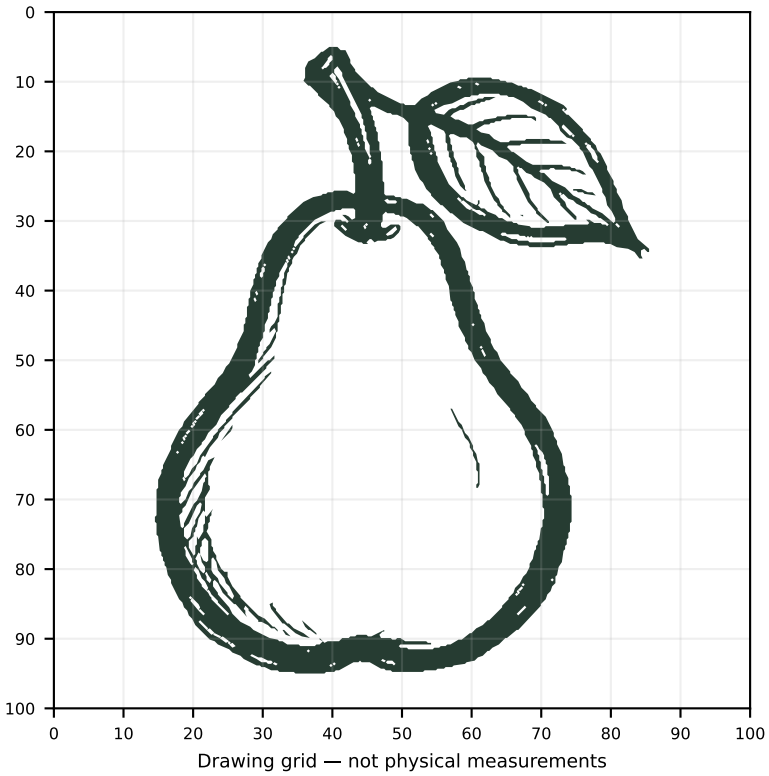

METHOD: Draw a rounded, wide bottom curve to form the bulging base of the pear. Taper the sides inward to create a narrow neck above the wide bottom. Add a short, thick stem at the top of the neck. Attach a single leaf with visible veins to the stem, and add a small curved line on the body for surface detail.
Use the separate practice sheet before checking the answer.

How to Draw Pear — Free Practice Sheets

REFERENCE / CASE 3

pear: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

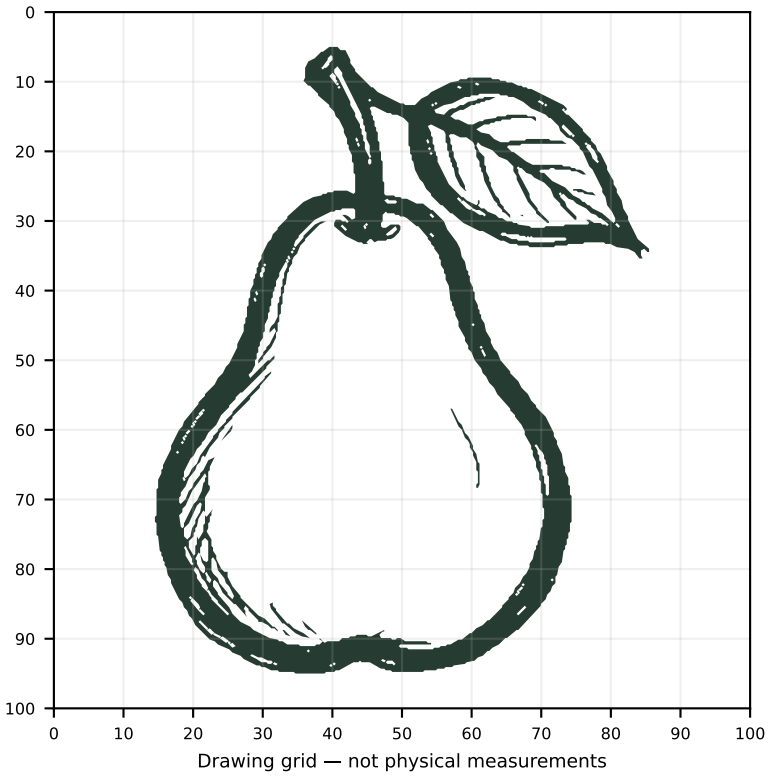

METHOD: Draw a rounded, wide bottom curve to form the bulging base of the pear. Taper the sides inward to create a narrow neck above the wide bottom. Add a short, thick stem at the top of the neck. Attach a single leaf with visible veins to the stem, and add a small curved line on the body for surface detail.
Use the separate practice sheet before checking the answer.

How to Draw Pear — Free Practice Sheets

REFERENCE / CASE 4

pear: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw a rounded, wide bottom curve to form the bulging base of the pear. Taper the sides inward to create a narrow neck above the wide bottom. Add a short, thick stem at the top of the neck. Attach a single leaf with visible veins to the stem, and add a small curved line on the body for surface detail.
Use the separate practice sheet before checking the answer.
