How to Draw Bean — Free Practice Sheets

ANSWER / CASE 1

bean: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

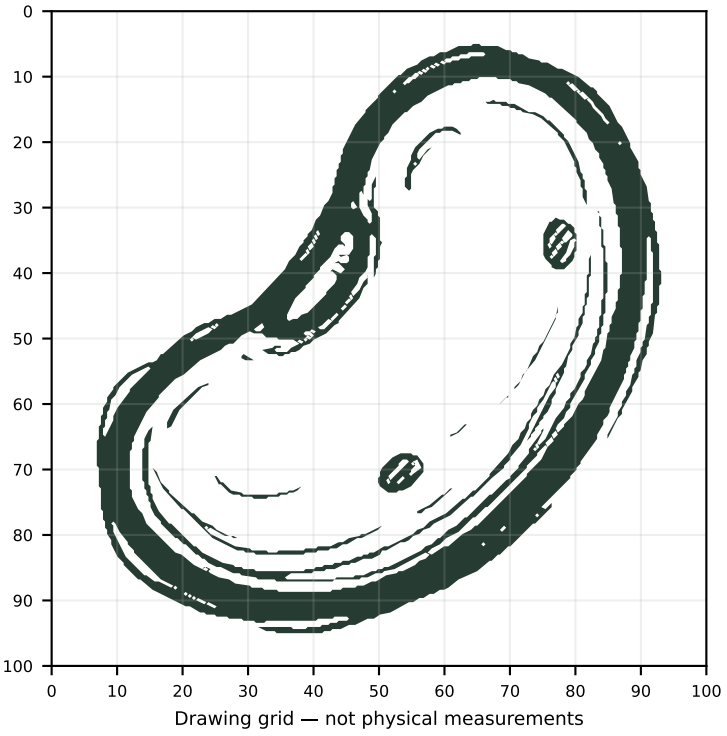

ANSWER: Example solution: preserve kidney curved shape, smooth surface, small dimple. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a kidney-shaped outline with a concave indentation on the upper left side.
2. Add a thick outer contour line to define the bean's edge.
3. Draw a smaller inner line following the outer contour to suggest a smooth, rounded surface.
4. Place two small oval dimples on the interior surface to indicate the bean's characteristic spots.

How to Draw Bean — Free Practice Sheets

ANSWER / CASE 2

bean: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

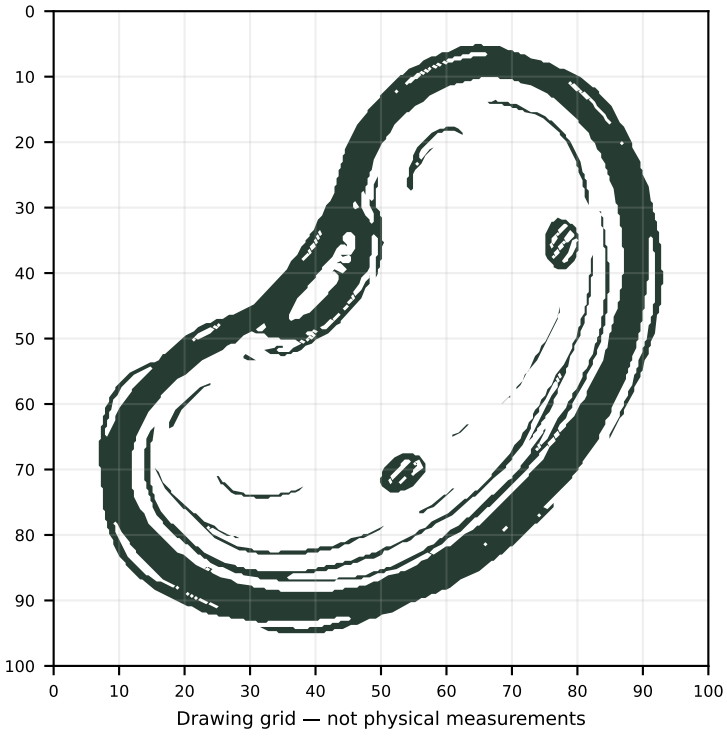

ANSWER: Example solution: preserve kidney curved shape, smooth surface, small dimple. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a kidney-shaped outline with a concave indentation on the upper left side.
2. Add a thick outer contour line to define the bean's edge.
3. Draw a smaller inner line following the outer contour to suggest a smooth, rounded surface.
4. Place two small oval dimples on the interior surface to indicate the bean's characteristic spots.

How to Draw Bean — Free Practice Sheets

ANSWER / CASE 3

bean: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

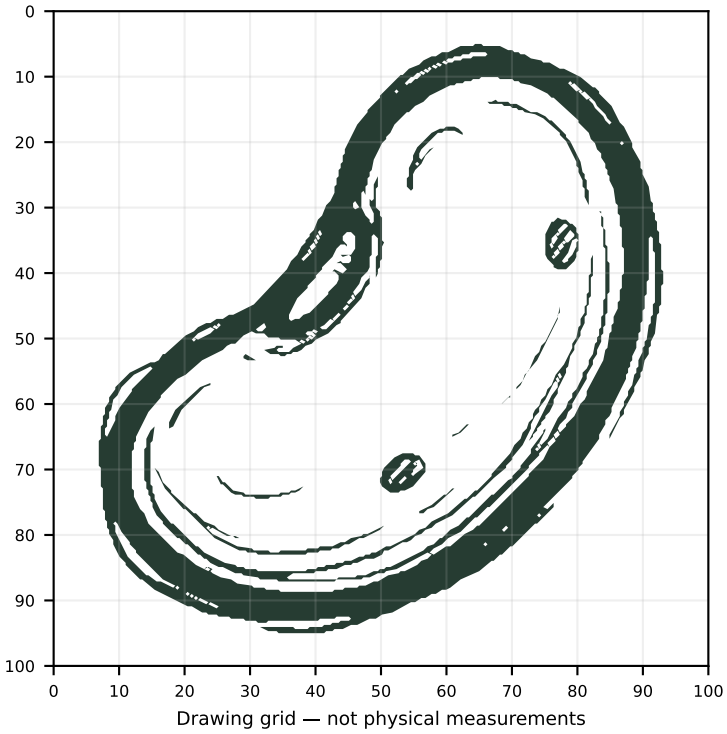

ANSWER: Example solution: preserve kidney curved shape, smooth surface, small dimple. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a kidney-shaped outline with a concave indentation on the upper left side.
2. Add a thick outer contour line to define the bean's edge.
3. Draw a smaller inner line following the outer contour to suggest a smooth, rounded surface.
4. Place two small oval dimples on the interior surface to indicate the bean's characteristic spots.

How to Draw Bean — Free Practice Sheets

ANSWER / CASE 4

bean: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve kidney curved shape, smooth surface, small dimple. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a kidney-shaped outline with a concave indentation on the upper left side.
2. Add a thick outer contour line to define the bean's edge.
3. Draw a smaller inner line following the outer contour to suggest a smooth, rounded surface.
4. Place two small oval dimples on the interior surface to indicate the bean's characteristic spots.
