How to Draw Hot Cocoa Mug — Free Practice Sheets

ANSWER / CASE 1

hot cocoa mug: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

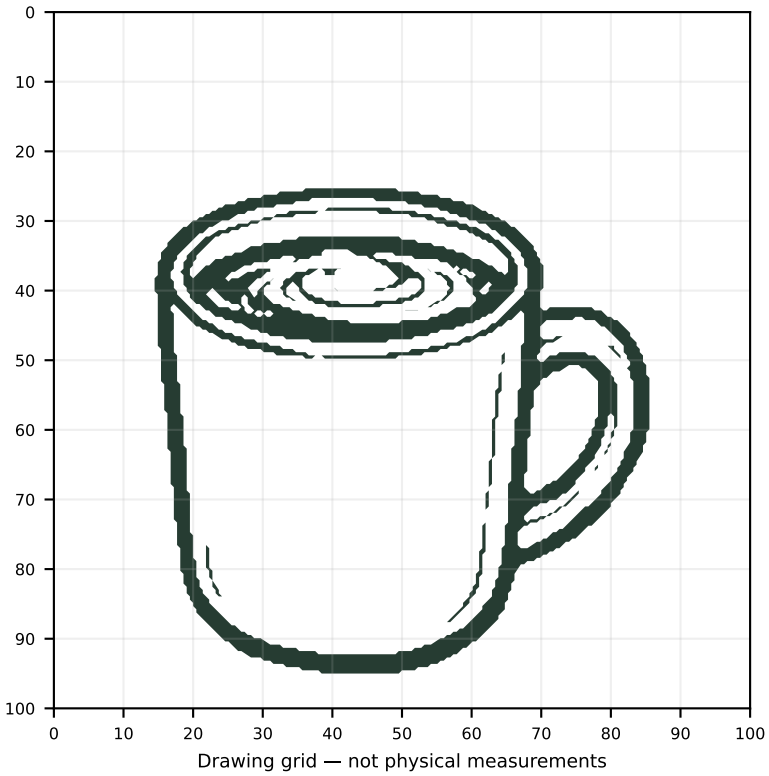

ANSWER: Example solution: preserve cylindrical mug body with slightly tapered sides, oval rim showing liquid surface with concentric swirl lines, C-shaped handle loop attached to the right side. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a tall rounded rectangle for the mug body, narrowing slightly toward the bottom.
2. Add an oval at the top to form the rim and interior liquid surface.
3. Draw a C-shaped loop on the right side connecting to the upper and lower body for the handle.
4. Add concentric curved lines inside the oval to suggest cocoa surface and steam swirls.
