How to Draw Tamale — Free Practice Sheets

ANSWER / CASE 1

tamale: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

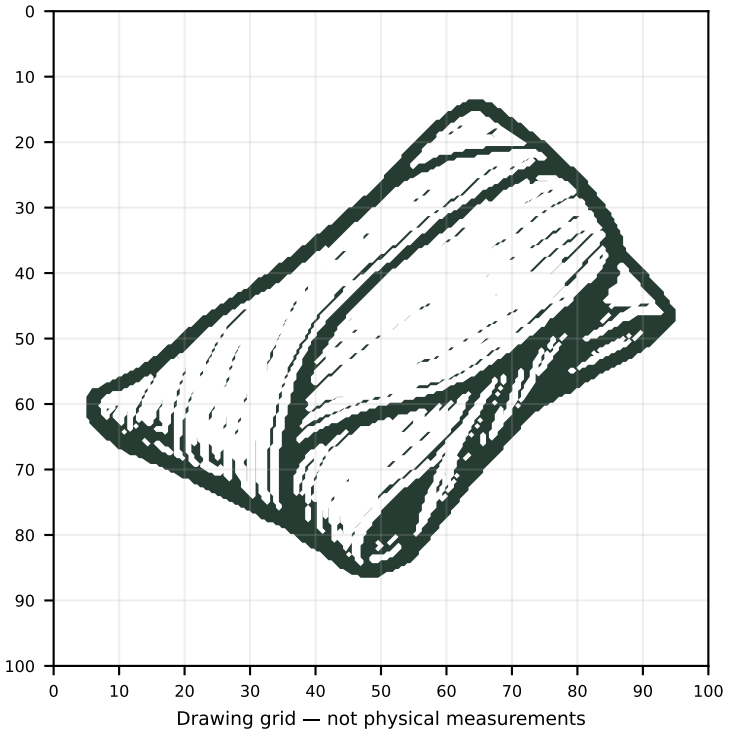

ANSWER: Example solution: preserve cylindrical wrapped body with a broad folded husk layer, pointed folded husk ends at both extremities, overlapping husk strips with linear texture lines suggesting a tied or wrapped bundle. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a long rounded rectangle tilted diagonally to establish the tamale body.
2. Add a pointed triangular fold at each end to represent the closed corn husk tips.
3. Layer curved husk strips across the top and bottom of the body, using parallel line strokes for texture.
4. Outline the overlapping edges with thicker contour lines to separate the wrapped husk sections.

How to Draw Tamale — Free Practice Sheets

ANSWER / CASE 2

tamale: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

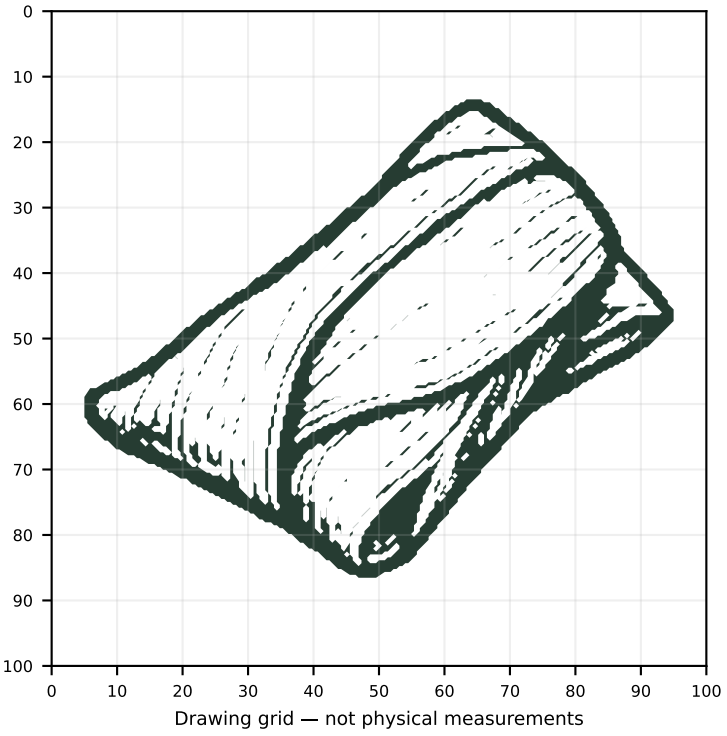

ANSWER: Example solution: preserve cylindrical wrapped body with a broad folded husk layer, pointed folded husk ends at both extremities, overlapping husk strips with linear texture lines suggesting a tied or wrapped bundle. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a long rounded rectangle tilted diagonally to establish the tamale body.
2. Add a pointed triangular fold at each end to represent the closed corn husk tips.
3. Layer curved husk strips across the top and bottom of the body, using parallel line strokes for texture.
4. Outline the overlapping edges with thicker contour lines to separate the wrapped husk sections.

How to Draw Tamale — Free Practice Sheets

ANSWER / CASE 3

tamale: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

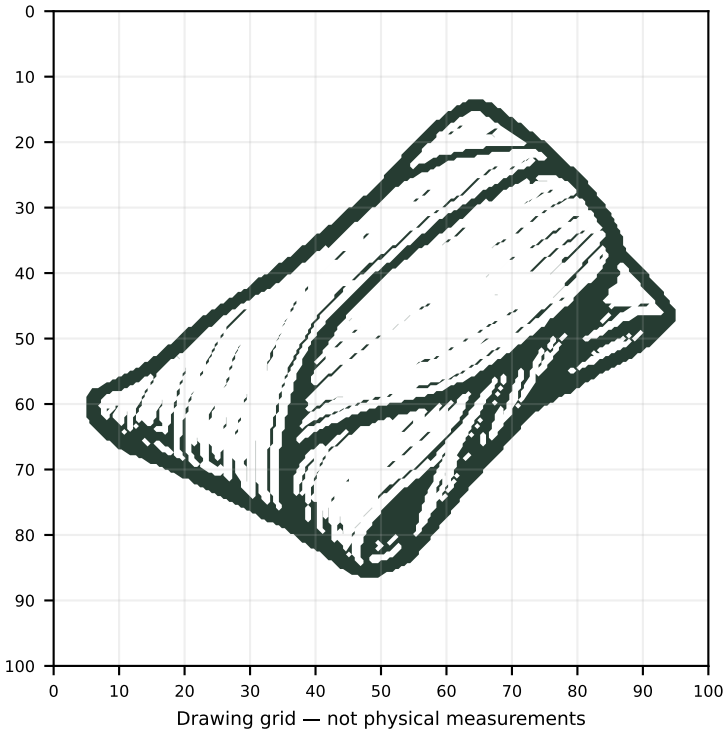

ANSWER: Example solution: preserve cylindrical wrapped body with a broad folded husk layer, pointed folded husk ends at both extremities, overlapping husk strips with linear texture lines suggesting a tied or wrapped bundle. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a long rounded rectangle tilted diagonally to establish the tamale body.
2. Add a pointed triangular fold at each end to represent the closed corn husk tips.
3. Layer curved husk strips across the top and bottom of the body, using parallel line strokes for texture.
4. Outline the overlapping edges with thicker contour lines to separate the wrapped husk sections.

How to Draw Tamale — Free Practice Sheets

ANSWER / CASE 4

tamale: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve cylindrical wrapped body with a broad folded husk layer, pointed folded husk ends at both extremities, overlapping husk strips with linear texture lines suggesting a tied or wrapped bundle. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a long rounded rectangle tilted diagonally to establish the tamale body.
2. Add a pointed triangular fold at each end to represent the closed corn husk tips.
3. Layer curved husk strips across the top and bottom of the body, using parallel line strokes for texture.
4. Outline the overlapping edges with thicker contour lines to separate the wrapped husk sections.
