How to Draw Tamale — Free Practice Sheets

REFERENCE / CASE 1

tamale: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

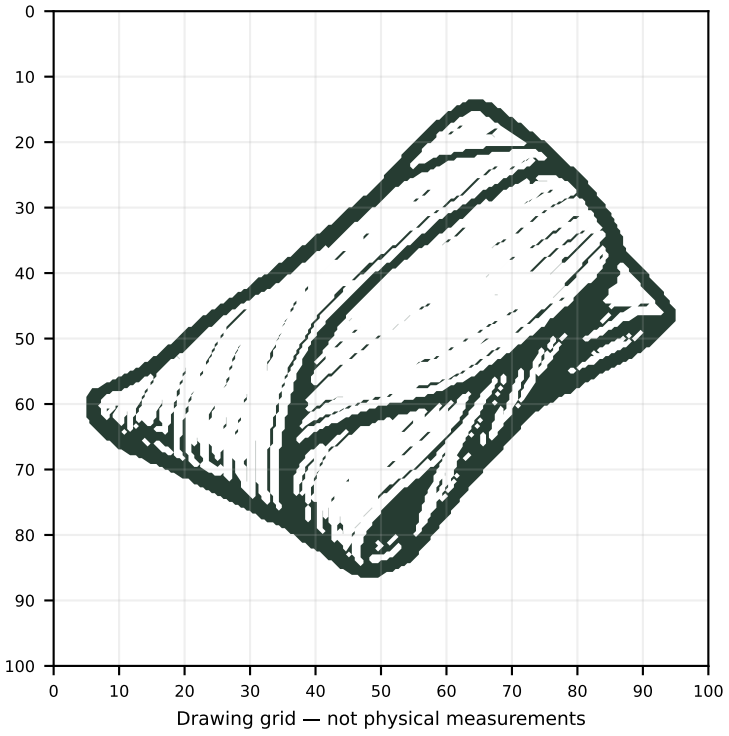

METHOD: Draw a long rounded rectangle tilted diagonally to establish the tamale body. Add a pointed triangular fold at each end to represent the closed corn husk tips. Layer curved husk strips across the top and bottom of the body, using parallel line strokes for texture. Outline the overlapping edges with thicker contour lines to separate the wrapped husk sections.
Use the separate practice sheet before checking the answer.

How to Draw Tamale — Free Practice Sheets

REFERENCE / CASE 2

tamale: Copy the reference onto the blank grid, using matching grid intersections.
Compare with the separate full reference sheet.

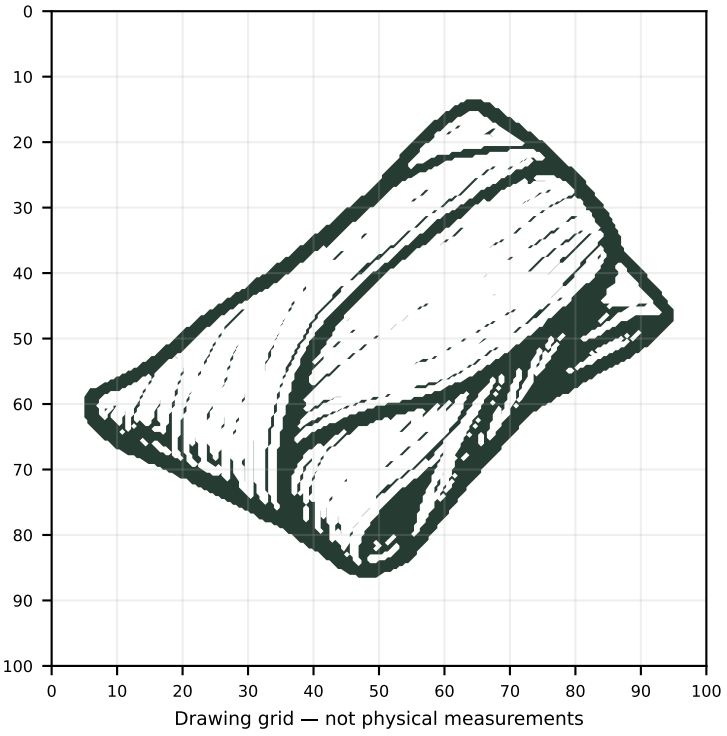

METHOD: Draw a long rounded rectangle tilted diagonally to establish the tamale body. Add a pointed triangular fold at each end to represent the closed corn husk tips. Layer curved husk strips across the top and bottom of the body, using parallel line strokes for texture. Outline the overlapping edges with thicker contour lines to separate the wrapped husk sections.
Use the separate practice sheet before checking the answer.

REFERENCE / CASE 3

tamale: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

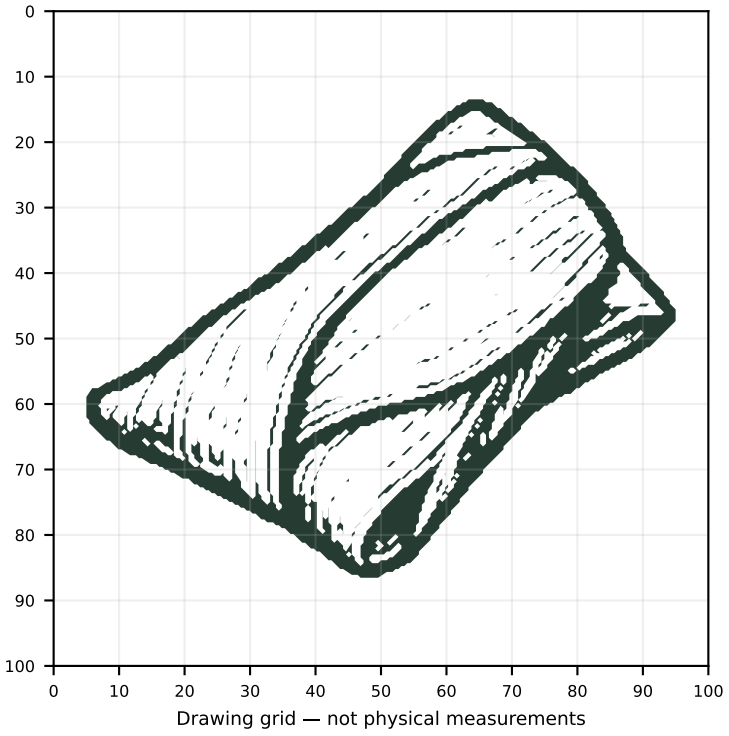

METHOD: Draw a long rounded rectangle tilted diagonally to establish the tamale body. Add a pointed triangular fold at each end to represent the closed corn husk tips. Layer curved husk strips across the top and bottom of the body, using parallel line strokes for texture. Outline the overlapping edges with thicker contour lines to separate the wrapped husk sections.
Use the separate practice sheet before checking the answer.

How to Draw Tamale — Free Practice Sheets

REFERENCE / CASE 4

tamale: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw a long rounded rectangle tilted diagonally to establish the tamale body. Add a pointed triangular fold at each end to represent the closed corn husk tips. Layer curved husk strips across the top and bottom of the body, using parallel line strokes for texture. Outline the overlapping edges with thicker contour lines to separate the wrapped husk sections.
Use the separate practice sheet before checking the answer.
