How to Draw Eggplant — Free Practice Sheets

REFERENCE / CASE 1

eggplant: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

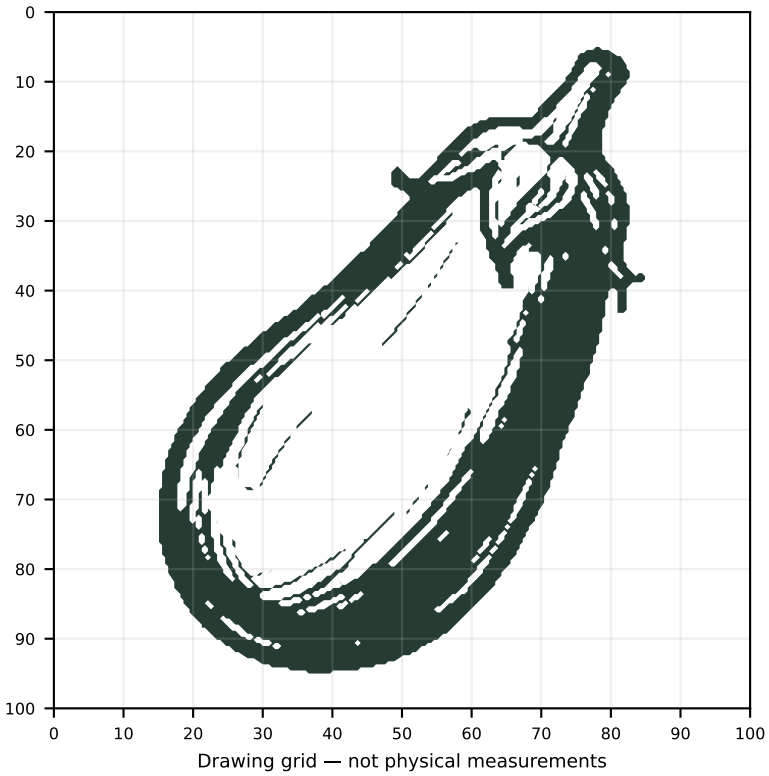

METHOD: Draw the main body as a long curved ovoid tilted diagonally from lower left to upper right Add the calyx at the top with several pointed leaf-like lobes wrapping the upper body Attach a short thick stem extending upward from the calyx Outline the body with a thick dark contour and add interior curved lines to indicate surface curvature and highlight regions
Use the separate practice sheet before checking the answer.

How to Draw Eggplant — Free Practice Sheets

REFERENCE / CASE 2

eggplant: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

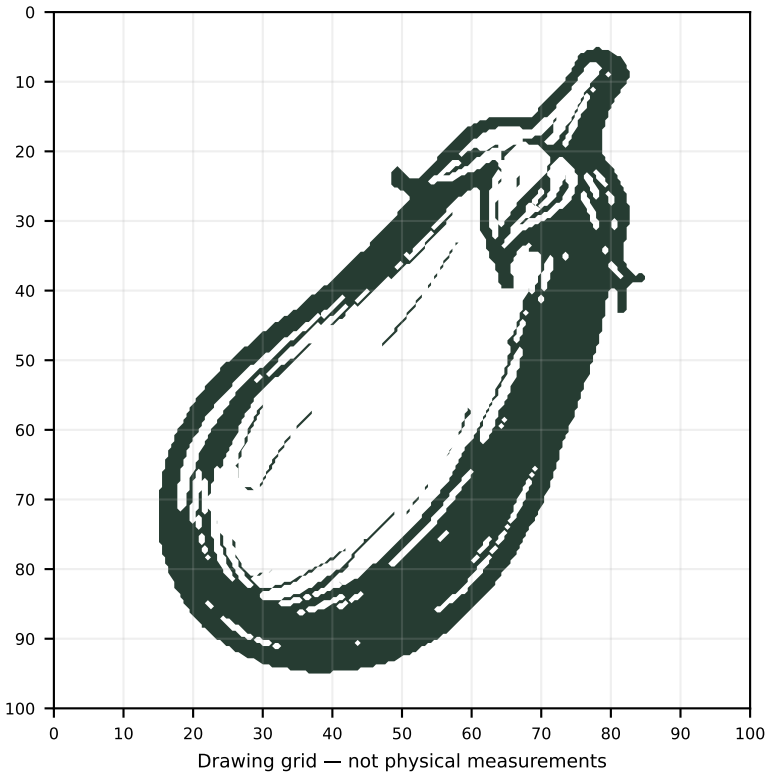

METHOD: Draw the main body as a long curved ovoid tilted diagonally from lower left to upper right Add the calyx at the top with several pointed leaf-like lobes wrapping the upper body Attach a short thick stem extending upward from the calyx Outline the body with a thick dark contour and add interior curved lines to indicate surface curvature and highlight regions
Use the separate practice sheet before checking the answer.

How to Draw Eggplant — Free Practice Sheets

REFERENCE / CASE 3

eggplant: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

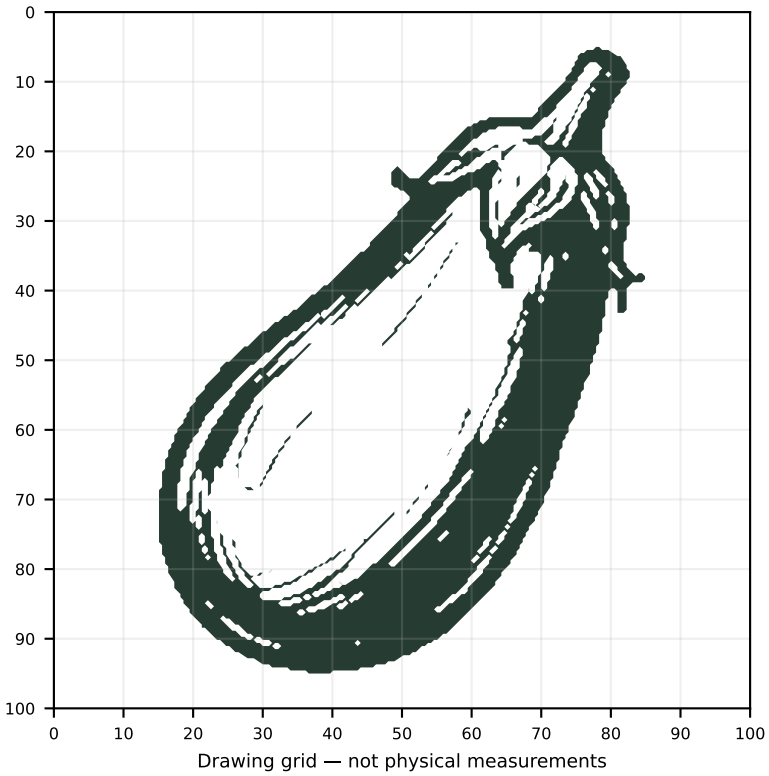

METHOD: Draw the main body as a long curved ovoid tilted diagonally from lower left to upper right Add the calyx at the top with several pointed leaf-like lobes wrapping the upper body Attach a short thick stem extending upward from the calyx Outline the body with a thick dark contour and add interior curved lines to indicate surface curvature and highlight regions
Use the separate practice sheet before checking the answer.

How to Draw Eggplant — Free Practice Sheets

REFERENCE / CASE 4

eggplant: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw the main body as a long curved ovoid tilted diagonally from lower left to upper right Add the calyx at the top with several pointed leaf-like lobes wrapping the upper body Attach a short thick stem extending upward from the calyx Outline the body with a thick dark contour and add interior curved lines to indicate surface curvature and highlight regions
Use the separate practice sheet before checking the answer.
