How to Draw Coconut — Free Practice Sheets

ANSWER / CASE 1

coconut: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

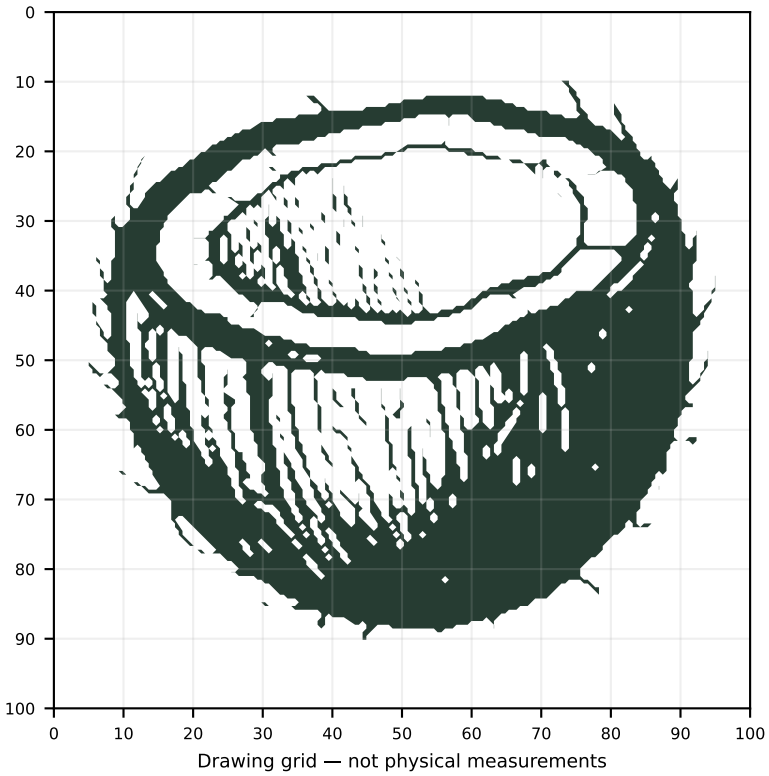

ANSWER: Example solution: preserve Large circular outer contour with a smaller elliptical opening near the top, Thick dark rim surrounding the opening, with a thin light inner ellipse, Vertical and diagonal light streaks radiating downward from the rim across the dark body. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large circle for the outer body and place a smaller ellipse near the top for the opening
2. Outline the opening with a thick dark band and add a thin light inner ellipse
3. Fill the body with dark tone and add light vertical/diagonal streaks radiating from the rim
4. Refine the outer contour with small irregular edge marks and keep the opening area light

How to Draw Coconut — Free Practice Sheets

ANSWER / CASE 2

coconut: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

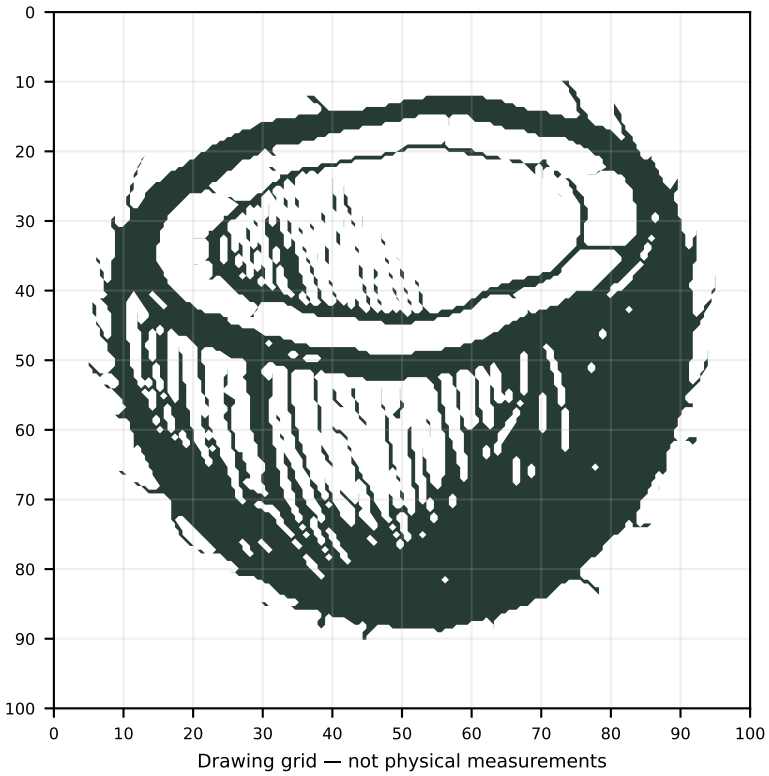

ANSWER: Example solution: preserve Large circular outer contour with a smaller elliptical opening near the top, Thick dark rim surrounding the opening, with a thin light inner ellipse, Vertical and diagonal light streaks radiating downward from the rim across the dark body. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large circle for the outer body and place a smaller ellipse near the top for the opening
2. Outline the opening with a thick dark band and add a thin light inner ellipse
3. Fill the body with dark tone and add light vertical/diagonal streaks radiating from the rim
4. Refine the outer contour with small irregular edge marks and keep the opening area light

How to Draw Coconut — Free Practice Sheets

ANSWER / CASE 3

coconut: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

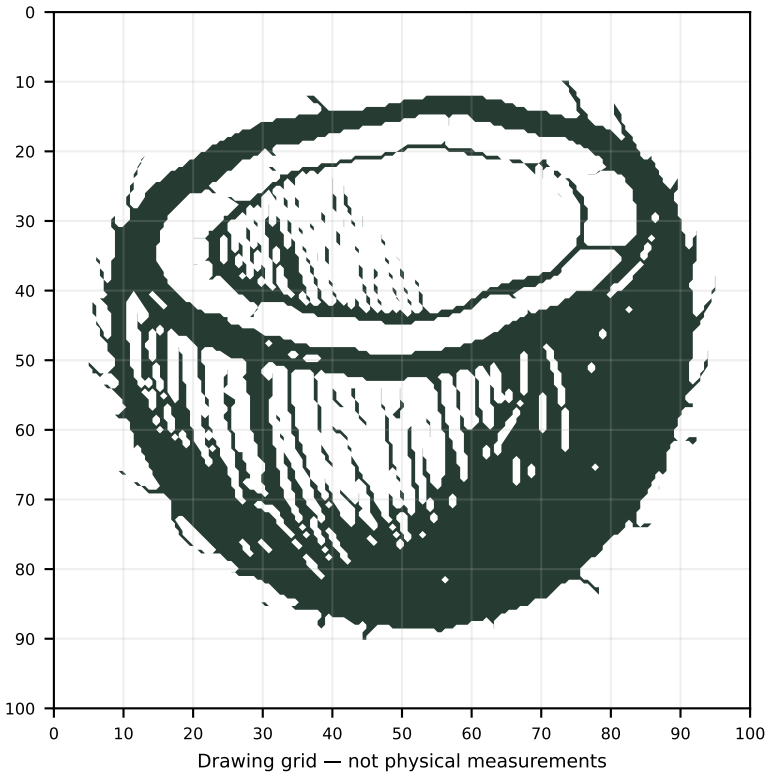

ANSWER: Example solution: preserve Large circular outer contour with a smaller elliptical opening near the top, Thick dark rim surrounding the opening, with a thin light inner ellipse, Vertical and diagonal light streaks radiating downward from the rim across the dark body. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large circle for the outer body and place a smaller ellipse near the top for the opening
2. Outline the opening with a thick dark band and add a thin light inner ellipse
3. Fill the body with dark tone and add light vertical/diagonal streaks radiating from the rim
4. Refine the outer contour with small irregular edge marks and keep the opening area light

How to Draw Coconut — Free Practice Sheets

ANSWER / CASE 4

coconut: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve Large circular outer contour with a smaller elliptical opening near the top, Thick dark rim surrounding the opening, with a thin light inner ellipse, Vertical and diagonal light streaks radiating downward from the rim across the dark body. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large circle for the outer body and place a smaller ellipse near the top for the opening
2. Outline the opening with a thick dark band and add a thin light inner ellipse
3. Fill the body with dark tone and add light vertical/diagonal streaks radiating from the rim
4. Refine the outer contour with small irregular edge marks and keep the opening area light
