How to Draw Blueberry — Free Practice Sheets

ANSWER / CASE 1

blueberry: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

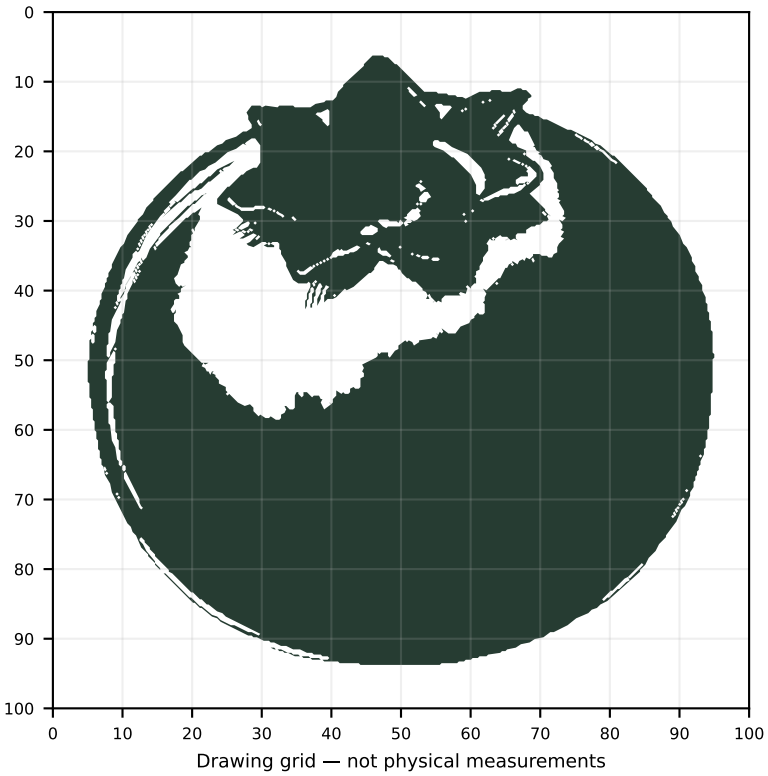

ANSWER: Example solution: preserve large round berry body with a smooth spherical outline, star-shaped leafy crown (calyx) sitting on top of the berry, curved highlight and fine contour lines suggesting spherical shading. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large circle for the berry body, keeping the outline smooth and slightly flattened at the top where the crown will sit.
2. Sketch a small central oval at the top of the circle to mark the recessed center of the crown.
3. Add five pointed leaf-like sepals radiating outward from the central oval to form the star-shaped crown.
4. Add a curved highlight on the upper-left side and light contour lines across the berry to suggest smooth spherical shading.

How to Draw Blueberry — Free Practice Sheets

ANSWER / CASE 2

blueberry: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

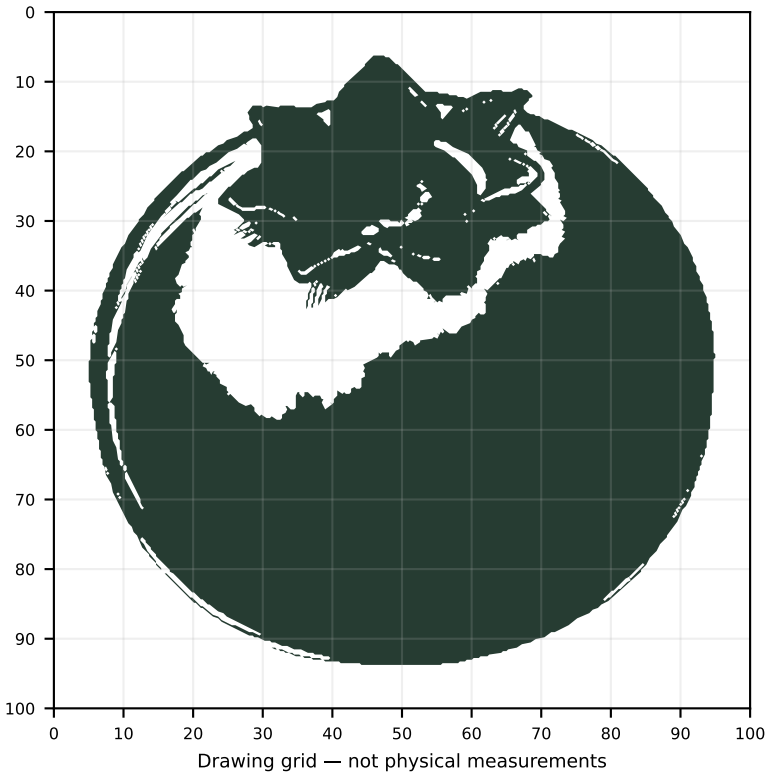

ANSWER: Example solution: preserve large round berry body with a smooth spherical outline, star-shaped leafy crown (calyx) sitting on top of the berry, curved highlight and fine contour lines suggesting spherical shading. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large circle for the berry body, keeping the outline smooth and slightly flattened at the top where the crown will sit.
2. Sketch a small central oval at the top of the circle to mark the recessed center of the crown.
3. Add five pointed leaf-like sepals radiating outward from the central oval to form the star-shaped crown.
4. Add a curved highlight on the upper-left side and light contour lines across the berry to suggest smooth spherical shading.

How to Draw Blueberry — Free Practice Sheets

ANSWER / CASE 3

blueberry: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

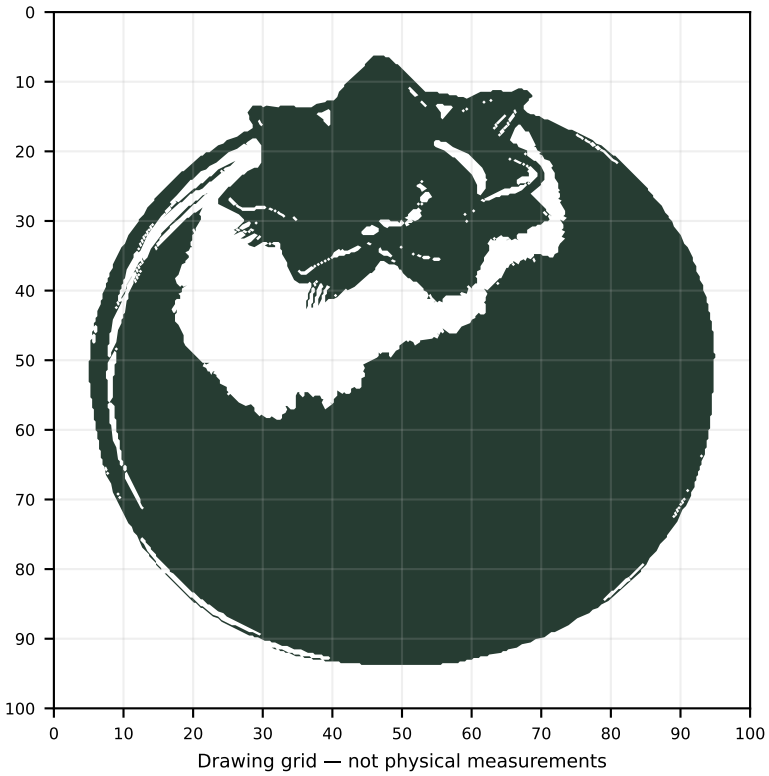

ANSWER: Example solution: preserve large round berry body with a smooth spherical outline, star-shaped leafy crown (calyx) sitting on top of the berry, curved highlight and fine contour lines suggesting spherical shading. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large circle for the berry body, keeping the outline smooth and slightly flattened at the top where the crown will sit.
2. Sketch a small central oval at the top of the circle to mark the recessed center of the crown.
3. Add five pointed leaf-like sepals radiating outward from the central oval to form the star-shaped crown.
4. Add a curved highlight on the upper-left side and light contour lines across the berry to suggest smooth spherical shading.

How to Draw Blueberry — Free Practice Sheets

ANSWER / CASE 4

blueberry: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve large round berry body with a smooth spherical outline, star-shaped leafy crown (calyx) sitting on top of the berry, curved highlight and fine contour lines suggesting spherical shading. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large circle for the berry body, keeping the outline smooth and slightly flattened at the top where the crown will sit.
2. Sketch a small central oval at the top of the circle to mark the recessed center of the crown.
3. Add five pointed leaf-like sepals radiating outward from the central oval to form the star-shaped crown.
4. Add a curved highlight on the upper-left side and light contour lines across the berry to suggest smooth spherical shading.
