How to Draw Blueberry — Free Practice Sheets

REFERENCE / CASE 1

blueberry: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

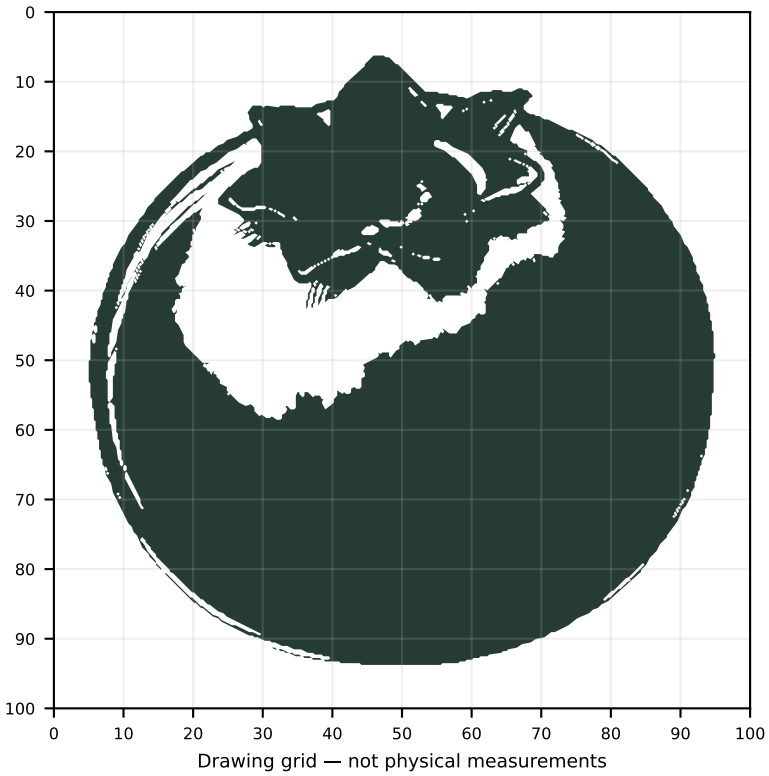

METHOD: Draw a large circle for the berry body, keeping the outline smooth and slightly flattened at the top where the crown will sit. Sketch a small central oval at the top of the circle to mark the recessed center of the crown. Add five pointed leaf-like sepals radiating outward from the central oval to form the star-shaped crown. Add a curved highlight on the upper-left side and light contour lines across the berry to suggest smooth spherical shading.
