ANSWER / CASE 1

enchilada: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

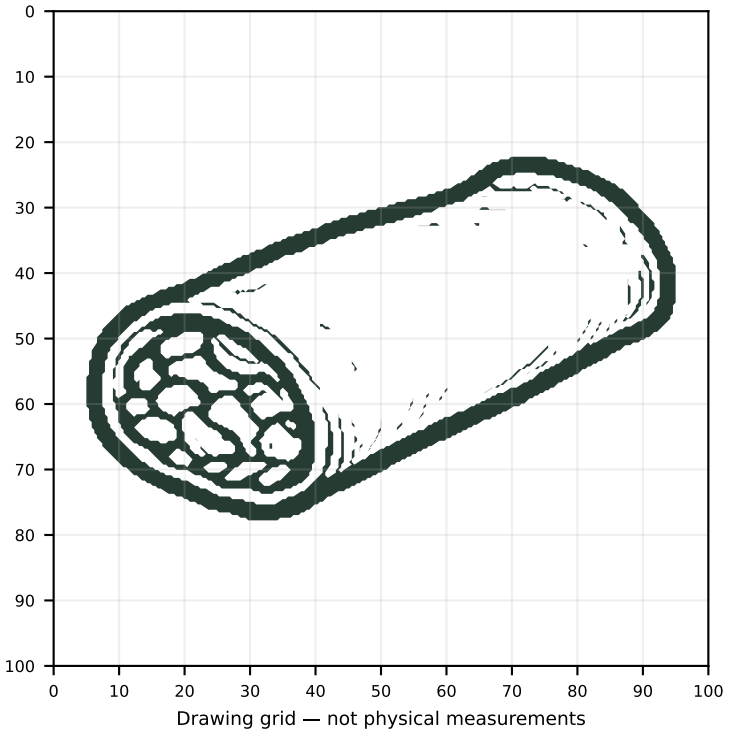

ANSWER: Example solution: preserve cylindrical rolled tortilla body, open end showing chunky filling, curved outline with interior texture lines. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a long rounded rectangle/cylinder tilted diagonally for the rolled tortilla.
2. Add an oval opening at the lower-left end to represent the cut cross-section.
3. Inside the oval, sketch irregular small shapes for the filling.
4. Outline the cylinder with a thicker border and add light curved texture lines along the tortilla surface.
