How to Draw Banana — Free Practice Sheets

ANSWER / CASE 1

banana: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

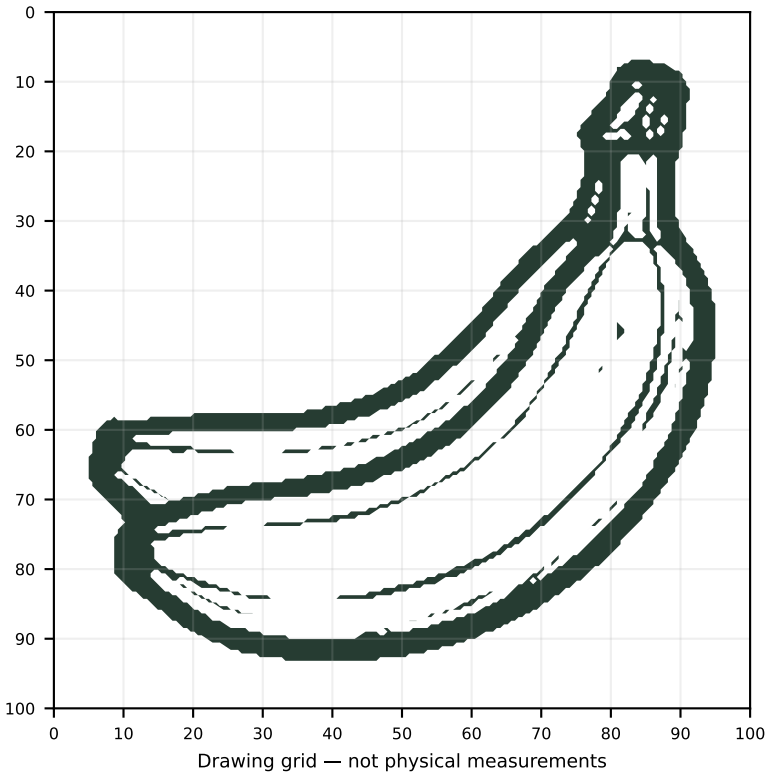

ANSWER: Example solution: preserve curved crescent shape, tapered stem end at the top, longitudinal ridges running along the body. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a thick curved crescent outline for the main body, wider in the middle and narrowing toward the top.
2. Add a short tapered stem at the top with a small cap-like tip.
3. Draw 2-3 longitudinal lines inside the body following the curve to indicate ridges.
4. Close the lower-left end with a blunt angled tip and thicken the outer contour for emphasis.

How to Draw Banana — Free Practice Sheets

ANSWER / CASE 2

banana: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

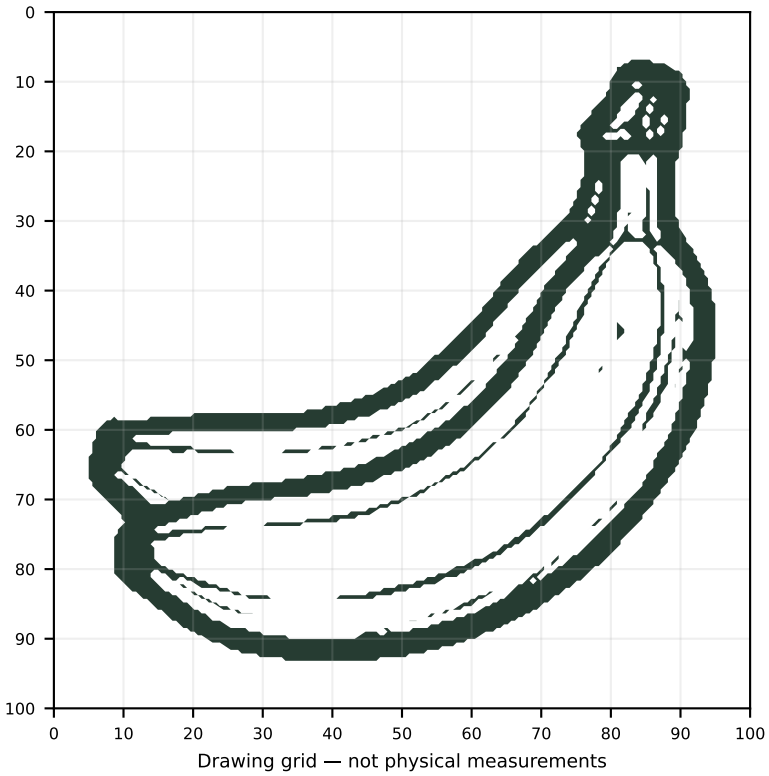

ANSWER: Example solution: preserve curved crescent shape, tapered stem end at the top, longitudinal ridges running along the body. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a thick curved crescent outline for the main body, wider in the middle and narrowing toward the top.
2. Add a short tapered stem at the top with a small cap-like tip.
3. Draw 2-3 longitudinal lines inside the body following the curve to indicate ridges.
4. Close the lower-left end with a blunt angled tip and thicken the outer contour for emphasis.

How to Draw Banana — Free Practice Sheets

ANSWER / CASE 3

banana: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

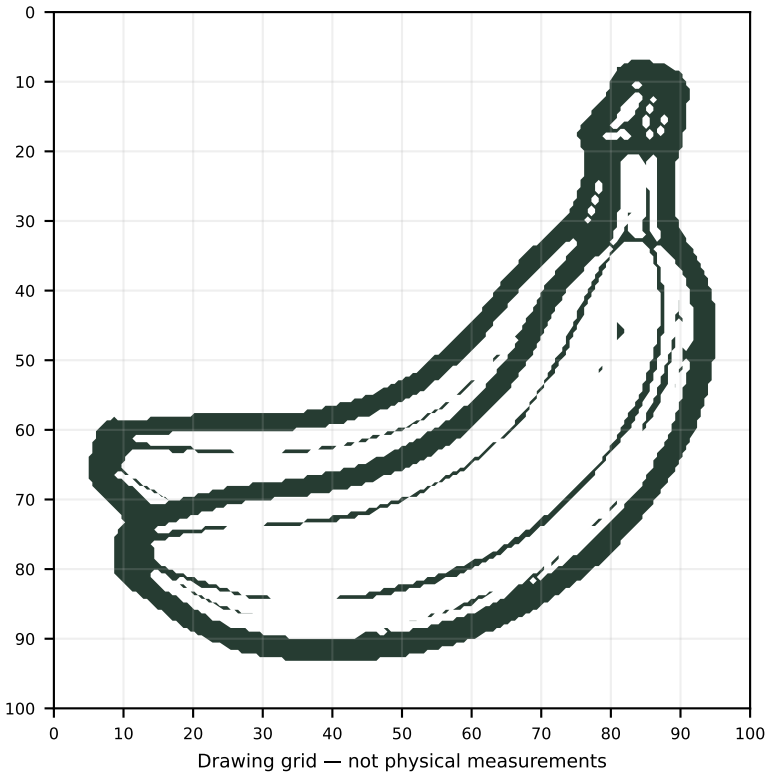

ANSWER: Example solution: preserve curved crescent shape, tapered stem end at the top, longitudinal ridges running along the body. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a thick curved crescent outline for the main body, wider in the middle and narrowing toward the top.
2. Add a short tapered stem at the top with a small cap-like tip.
3. Draw 2-3 longitudinal lines inside the body following the curve to indicate ridges.
4. Close the lower-left end with a blunt angled tip and thicken the outer contour for emphasis.

How to Draw Banana — Free Practice Sheets

ANSWER / CASE 4

banana: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve curved crescent shape, tapered stem end at the top, longitudinal ridges running along the body. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a thick curved crescent outline for the main body, wider in the middle and narrowing toward the top.
2. Add a short tapered stem at the top with a small cap-like tip.
3. Draw 2-3 longitudinal lines inside the body following the curve to indicate ridges.
4. Close the lower-left end with a blunt angled tip and thicken the outer contour for emphasis.
