How to Draw Taco — Free Practice Sheets

REFERENCE / CASE 1

taco: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

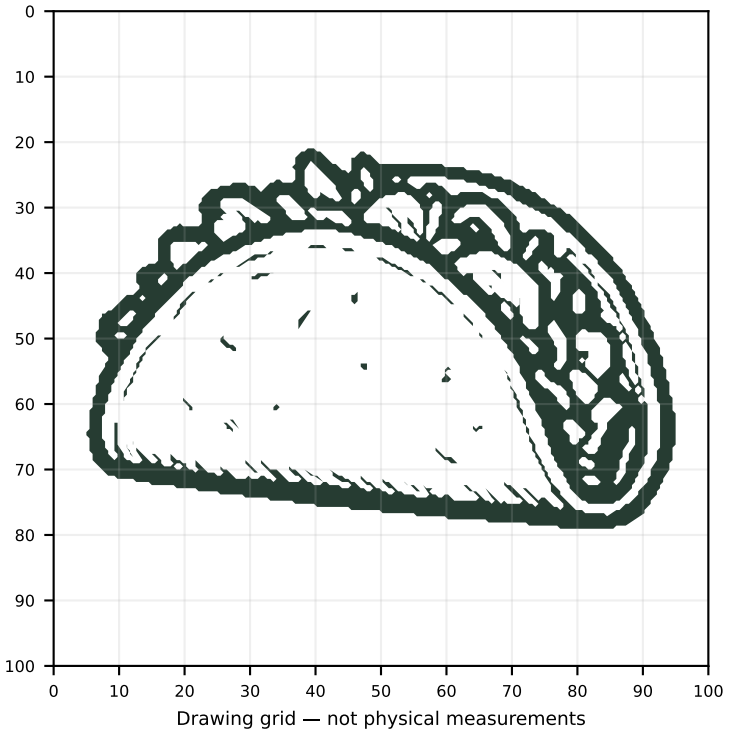

METHOD: Draw a wide U-shaped curve for the outer folded shell, with a flat base line. Add an inner parallel curve along the top opening to show the shell's thickness. Sketch filling shapes (lettuce/meat) protruding above the top edge. Add small texture marks on the shell surface and outline the filling inside the opening.
Use the separate practice sheet before checking the answer.

How to Draw Taco — Free Practice Sheets

REFERENCE / CASE 2

taco: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

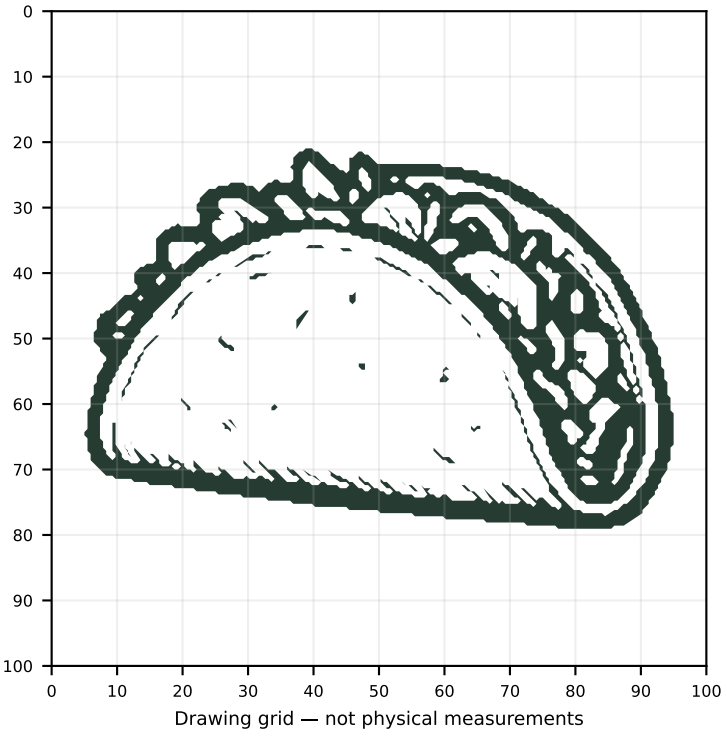

METHOD: Draw a wide U-shaped curve for the outer folded shell, with a flat base line. Add an inner parallel curve along the top opening to show the shell's thickness. Sketch filling shapes (lettuce/meat) protruding above the top edge. Add small texture marks on the shell surface and outline the filling inside the opening.
Use the separate practice sheet before checking the answer.

How to Draw Taco — Free Practice Sheets

REFERENCE / CASE 3

taco: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

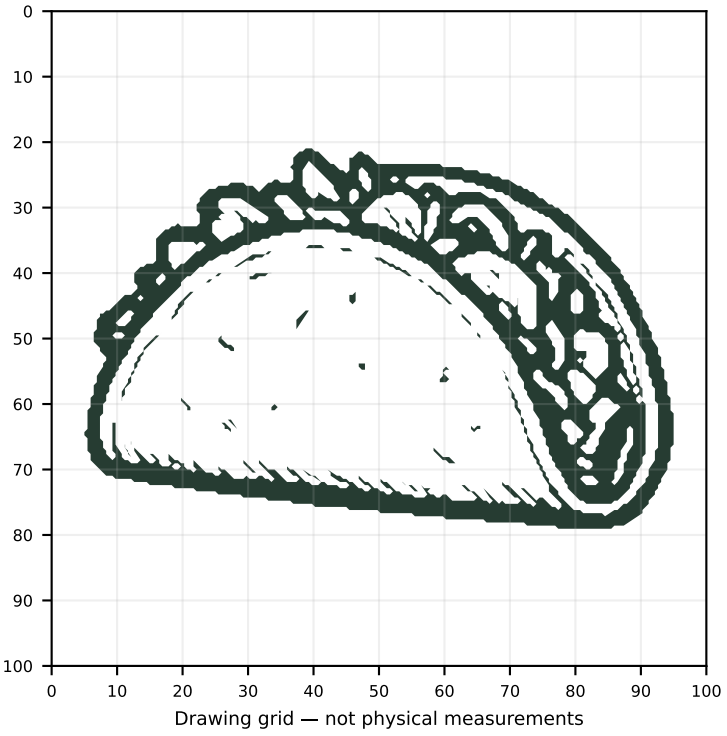

METHOD: Draw a wide U-shaped curve for the outer folded shell, with a flat base line. Add an inner parallel curve along the top opening to show the shell's thickness. Sketch filling shapes (lettuce/meat) protruding above the top edge. Add small texture marks on the shell surface and outline the filling inside the opening.
Use the separate practice sheet before checking the answer.

How to Draw Taco — Free Practice Sheets

REFERENCE / CASE 4

taco: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw a wide U-shaped curve for the outer folded shell, with a flat base line. Add an inner parallel curve along the top opening to show the shell's thickness. Sketch filling shapes (lettuce/meat) protruding above the top edge. Add small texture marks on the shell surface and outline the filling inside the opening.
Use the separate practice sheet before checking the answer.
