How to Draw Chicken Wing — Free Practice Sheets

ANSWER / CASE 1

chicken wing: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

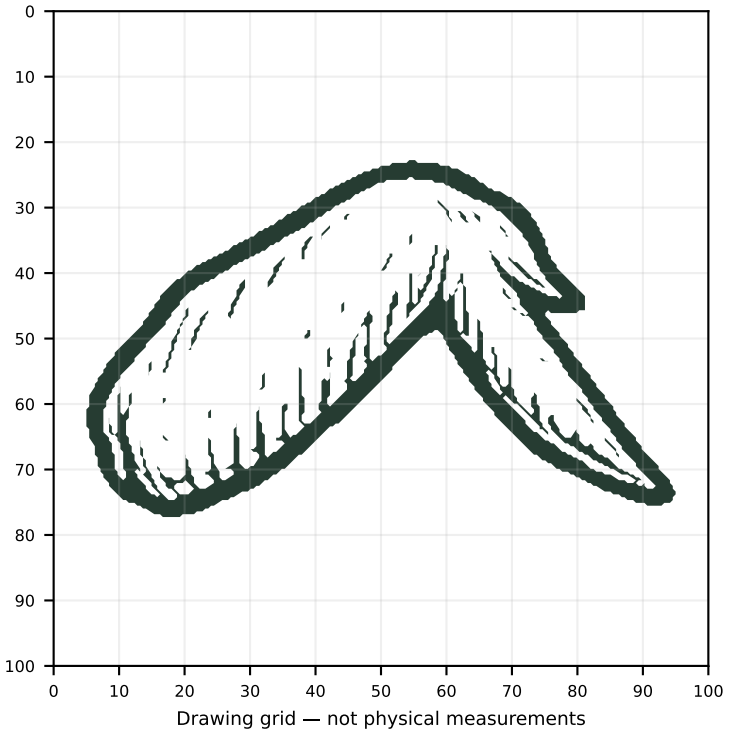

ANSWER: Example solution: preserve bulbous drumette-like upper section, tapered pointed wing tip section, short hatch marks suggesting skin texture. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a thick curved outline for the rounded upper wing section.
2. Extend a narrower tapered shape downward from the right side to form the wing tip.
3. Add short parallel hatch lines across the surface to indicate skin texture.
4. Refine the outline with a bold contour and keep the interior linework light.
