How to Draw Cupcake — Free Practice Sheets

ANSWER / CASE 1

cupcake: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

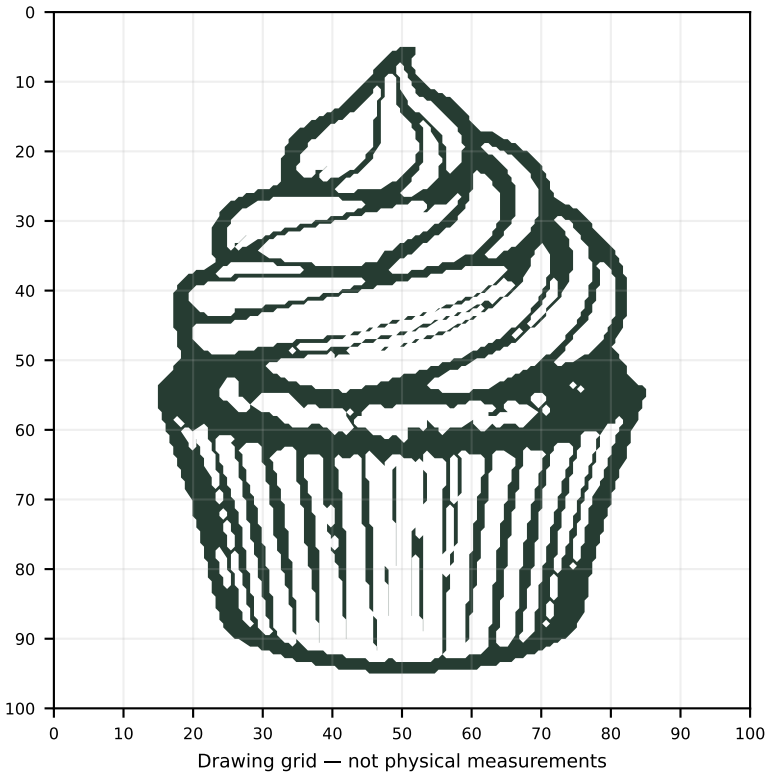

ANSWER: Example solution: preserve fluted paper cup with vertical ridges, rounded frosting swirl with layered curved lines, small pointed peak at the top of the frosting. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a slightly tapered cup shape for the base, narrower at the bottom and wider at the top.
2. Add evenly spaced vertical lines inside the cup to represent the fluted paper wrapper.
3. Draw a rounded mound of frosting above the cup using overlapping curved arcs that stack upward.
4. Finish the frosting with a small pointed swirl tip at the top center.
