How to Draw Peanut — Free Practice Sheets

REFERENCE / CASE 1

peanut: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

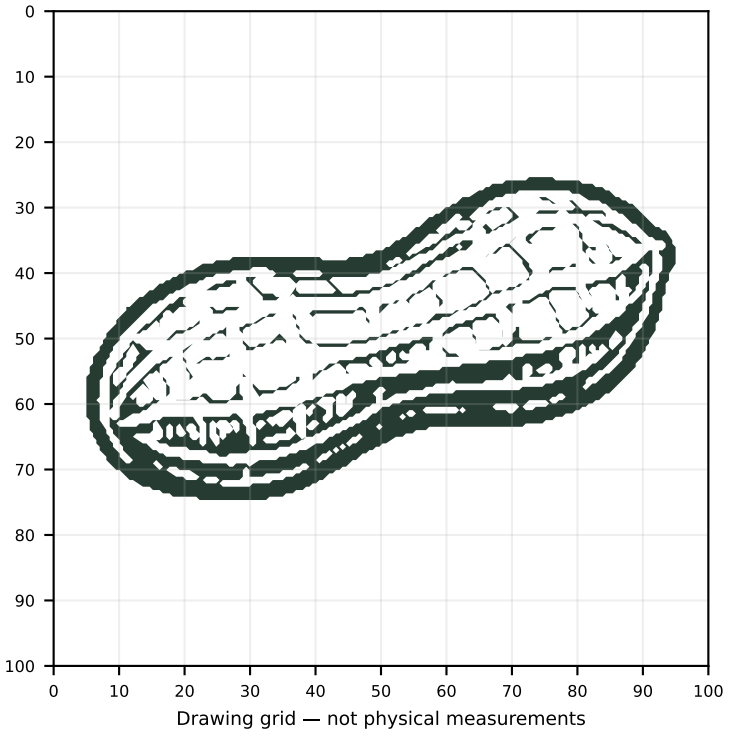

METHOD: Draw a long horizontal oval, then pinch the middle inward to create two lobes. Add a thick outer contour line following the pinched oval to define the shell edge. Inside the contour, draw a network of irregular quadrilateral and pentagonal cells to represent the bumpy shell texture. Darken the outer outline and some cell borders to give the shell a bold, finished look.
Use the separate practice sheet before checking the answer.

REFERENCE / CASE 2

peanut: Copy the reference onto the blank grid, using matching grid intersections.
Compare with the separate full reference sheet.

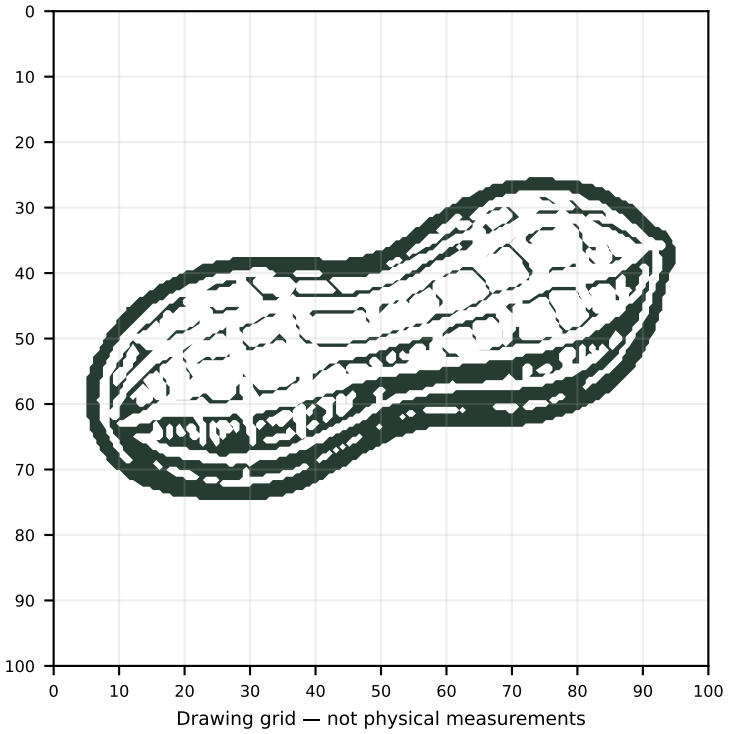

METHOD: Draw a long horizontal oval, then pinch the middle inward to create two lobes. Add a thick outer contour line following the pinched oval to define the shell edge. Inside the contour, draw a network of irregular quadrilateral and pentagonal cells to represent the bumpy shell texture. Darken the outer outline and some cell borders to give the shell a bold, finished look.
Use the separate practice sheet before checking the answer.

REFERENCE / CASE 3

peanut: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

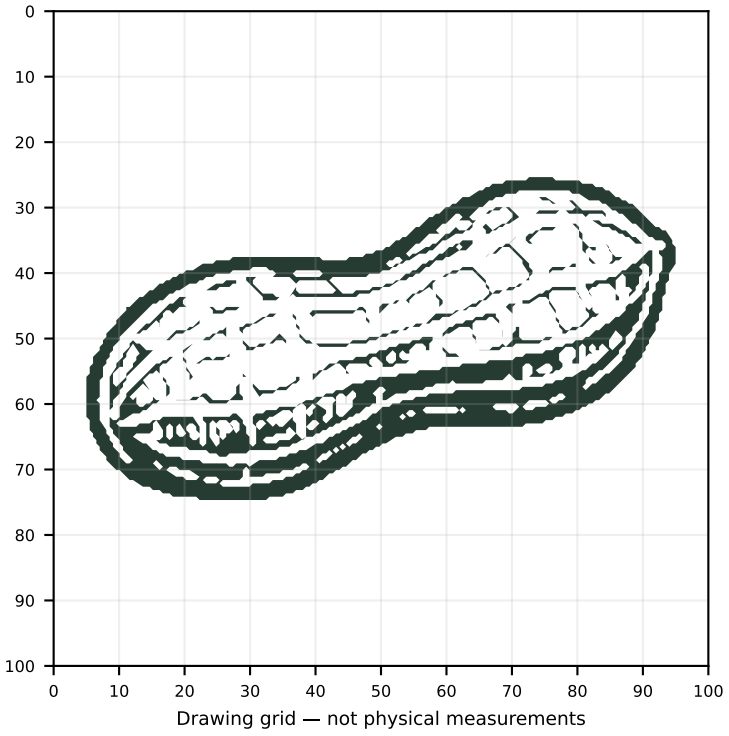

METHOD: Draw a long horizontal oval, then pinch the middle inward to create two lobes. Add a thick outer contour line following the pinched oval to define the shell edge. Inside the contour, draw a network of irregular quadrilateral and pentagonal cells to represent the bumpy shell texture. Darken the outer outline and some cell borders to give the shell a bold, finished look.
Use the separate practice sheet before checking the answer.

How to Draw Peanut — Free Practice Sheets

REFERENCE / CASE 4

peanut: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw a long horizontal oval, then pinch the middle inward to create two lobes. Add a thick outer contour line following the pinched oval to define the shell edge. Inside the contour, draw a network of irregular quadrilateral and pentagonal cells to represent the bumpy shell texture. Darken the outer outline and some cell borders to give the shell a bold, finished look.
Use the separate practice sheet before checking the answer.
