ANSWER / CASE 1

porridge: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

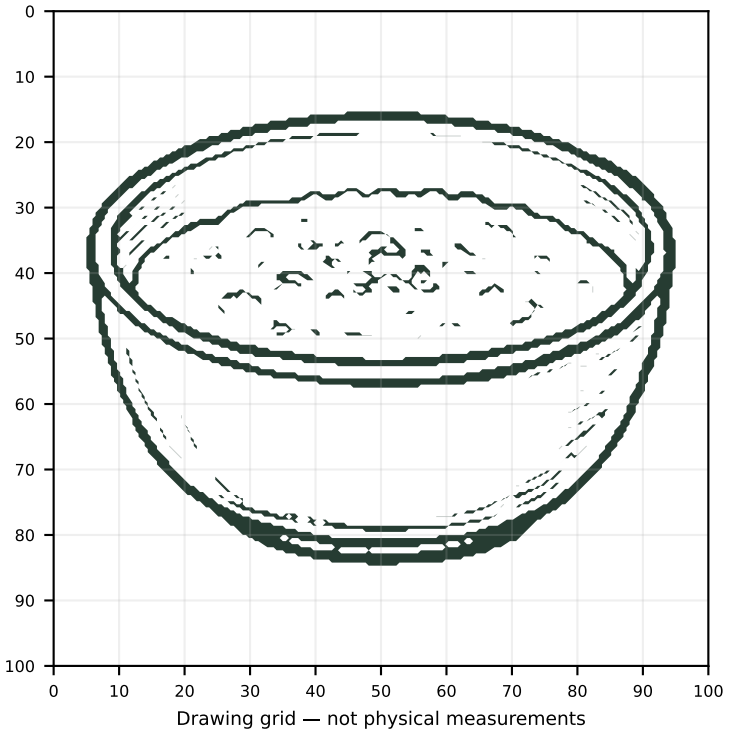

ANSWER: Example solution: preserve rounded bowl with a thick rim and small foot/base, textured surface inside the bowl with small lumps and speckles suggesting oats, curved side shading lines on the bowl exterior. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw an oval for the bowl opening and a slightly smaller inner oval for the rim thickness.
2. Add the bowl body as a curved U-shape below the rim, ending in a small flat base.
3. Fill the inner oval with irregular small circles and dots to indicate thick oats/porridge texture.
4. Add a few curved shading lines along the bowl sides to suggest roundness.
