How to Draw Watermelon Slice — Free Practice Sheets

REFERENCE / CASE 1

watermelon slice: Trace the reference outline, then practise the contour independently.
Compare with the separate full reference sheet.

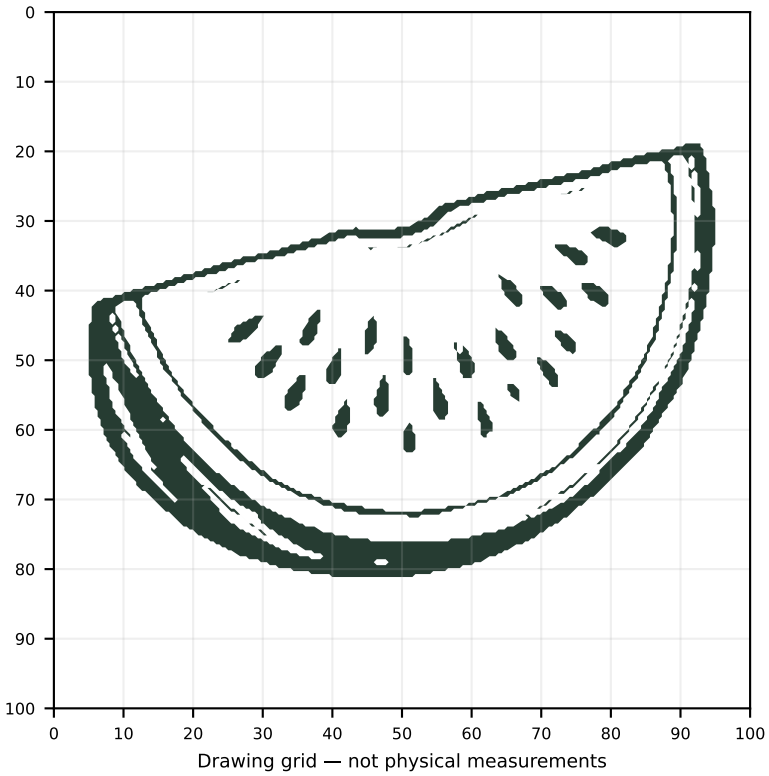

METHOD: Draw the outer wedge contour: a broad curved lower arc joined to a flatter upper edge with a small central indentation. Add a parallel inner contour line offset inward from the outer arc to define a continuous edge band. Place small dark oval marks in loose rows across the central region, varying their orientation slightly. Thicken the outer boundary and edge band with dark strokes to create a strong outline and shaded rim.
Use the separate practice sheet before checking the answer.

REFERENCE / CASE 3

watermelon slice: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

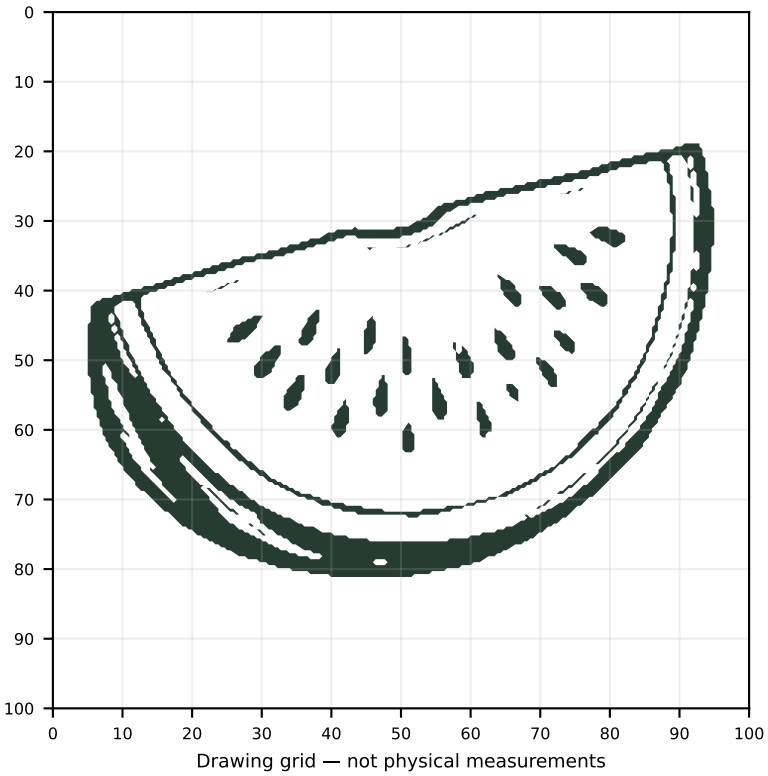

METHOD: Draw the outer wedge contour: a broad curved lower arc joined to a flatter upper edge with a small central indentation. Add a parallel inner contour line offset inward from the outer arc to define a continuous edge band.
