How to Draw Brownie — Free Practice Sheets

ANSWER / CASE 1

brownie: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

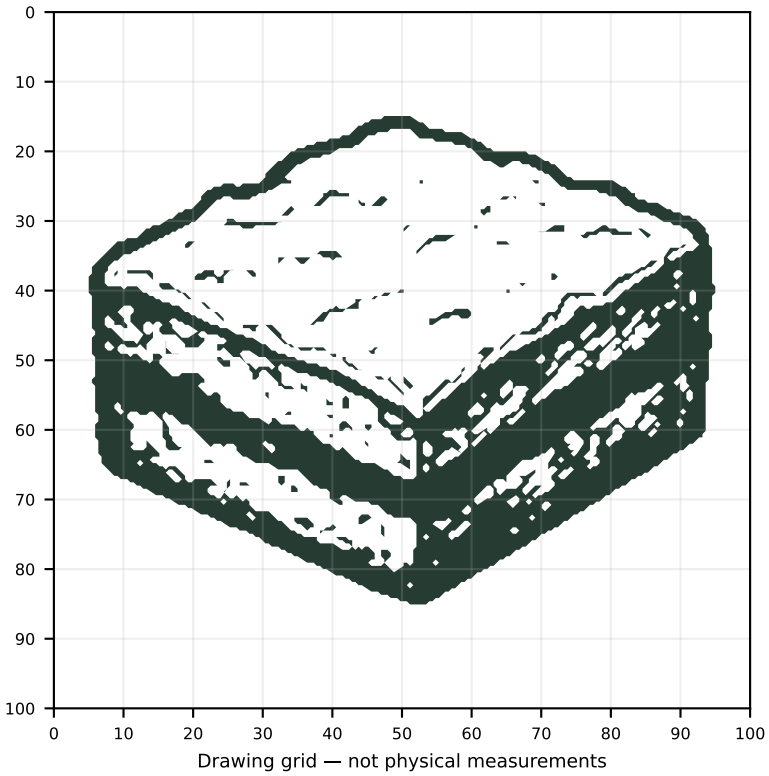

ANSWER: Example solution: preserve square chocolate block with a thick, slightly domed top, crackly, uneven top surface with small speckles, layered crumb texture visible on the two cut sides. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a three-dimensional square block using a top parallelogram and two side faces meeting at a central vertical edge.
2. Outline the top with a wavy, slightly domed contour to suggest a crackly crust.
3. Add small dots and short irregular marks across the top surface for the crackled texture.
4. Draw horizontal layered lines and speckled crumb marks on both visible side faces to show the brownie interior.
