How to Draw Ribs — Free Practice Sheets

ANSWER / CASE 1

ribs: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

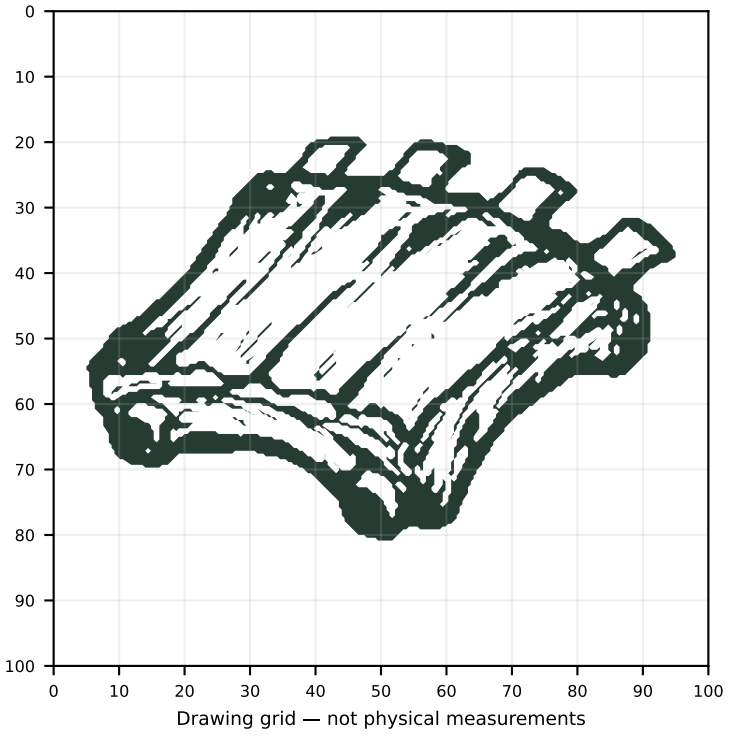

ANSWER: Example solution: preserve four protruding bone ends along the top edge, curved parallel rib bones forming a stacked rack, thick glazed meat surface with rounded lower edge. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a rounded rectangular slab tilted diagonally to form the main meat body.
2. Add four short rectangular bone stubs protruding from the top edge.
3. Draw curved parallel lines across the slab to indicate individual ribs.
4. Outline the lower edge with a thick rounded contour to suggest glazed meat and bone ends.

How to Draw Ribs — Free Practice Sheets

ANSWER / CASE 2

ribs: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

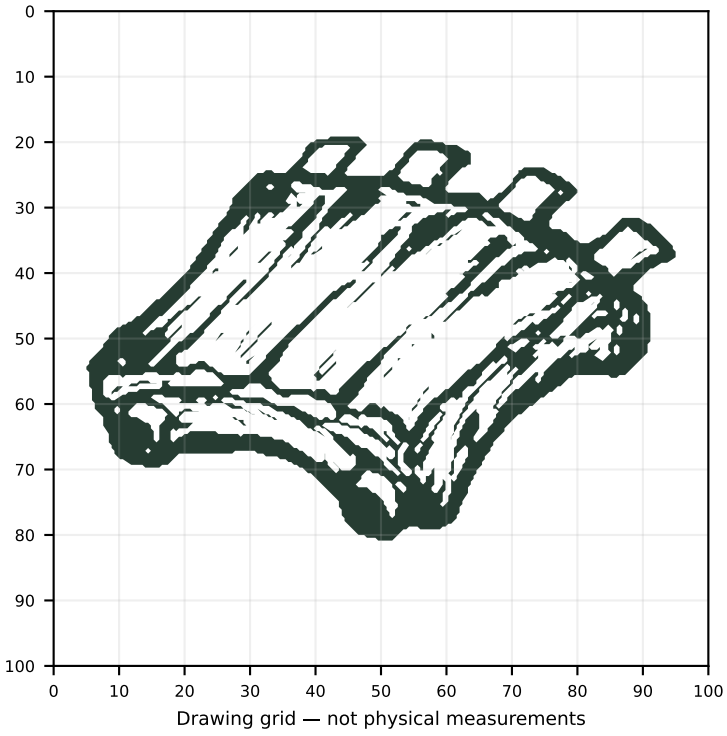

ANSWER: Example solution: preserve four protruding bone ends along the top edge, curved parallel rib bones forming a stacked rack, thick glazed meat surface with rounded lower edge. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a rounded rectangular slab tilted diagonally to form the main meat body.
2. Add four short rectangular bone stubs protruding from the top edge.
3. Draw curved parallel lines across the slab to indicate individual ribs.
4. Outline the lower edge with a thick rounded contour to suggest glazed meat and bone ends.

How to Draw Ribs — Free Practice Sheets

ANSWER / CASE 3

ribs: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

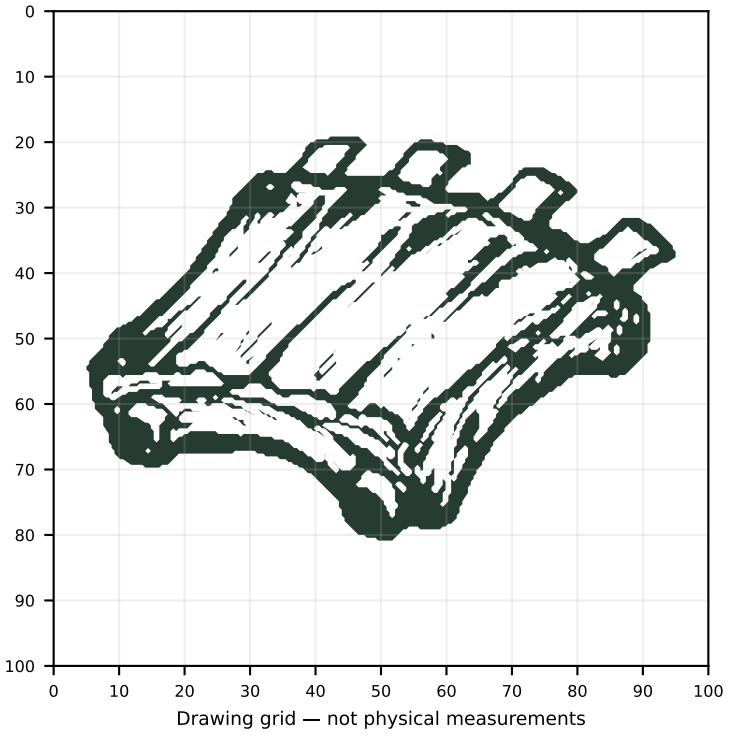

ANSWER: Example solution: preserve four protruding bone ends along the top edge, curved parallel rib bones forming a stacked rack, thick glazed meat surface with rounded lower edge. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a rounded rectangular slab tilted diagonally to form the main meat body.
2. Add four short rectangular bone stubs protruding from the top edge.
3. Draw curved parallel lines across the slab to indicate individual ribs.
4. Outline the lower edge with a thick rounded contour to suggest glazed meat and bone ends.

How to Draw Ribs — Free Practice Sheets

ANSWER / CASE 4

ribs: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve four protruding bone ends along the top edge, curved parallel rib bones forming a stacked rack, thick glazed meat surface with rounded lower edge. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a rounded rectangular slab tilted diagonally to form the main meat body.
2. Add four short rectangular bone stubs protruding from the top edge.
3. Draw curved parallel lines across the slab to indicate individual ribs.
4. Outline the lower edge with a thick rounded contour to suggest glazed meat and bone ends.
