# How to Draw Feather — Free Practice Sheets

**REFERENCE / CASE 1**

feather: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

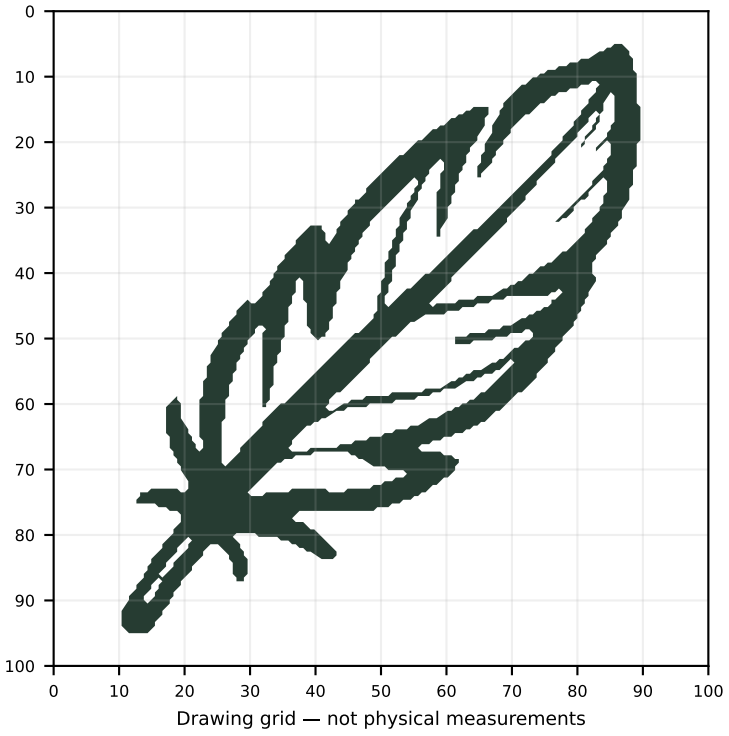

METHOD: Draw a long diagonal line for the central shaft, leaving a short bare quill at the lower-left. Outline the vane on both sides of the shaft, starting narrow at the base and widening toward the middle. Add jagged barb separations along the vane edges, angling them outward from the shaft. Taper the vane to a point at the upper-right tip and add a few interior barb lines for texture.
Use the separate practice sheet before checking the answer.

# How to Draw Feather — Free Practice Sheets

### REFERENCE / CASE 2

feather: Copy the reference onto the blank grid, using matching grid intersections.
Compare with the separate full reference sheet.

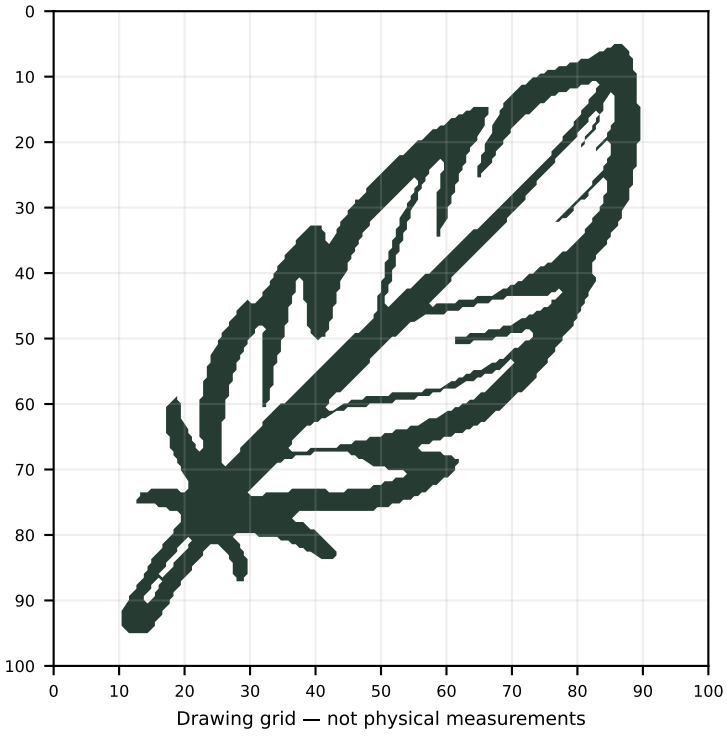

METHOD: Draw a long diagonal line for the central shaft, leaving a short bare quill at the lower-left. Outline the vane on both sides of the shaft, starting narrow at the base and widening toward the middle. Add jagged barb separations along the vane edges, angling them outward from the shaft. Taper the vane to a point at the upper-right tip and add a few interior barb lines for texture.
Use the separate practice sheet before checking the answer.

# How to Draw Feather — Free Practice Sheets

**REFERENCE / CASE 3**

feather: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

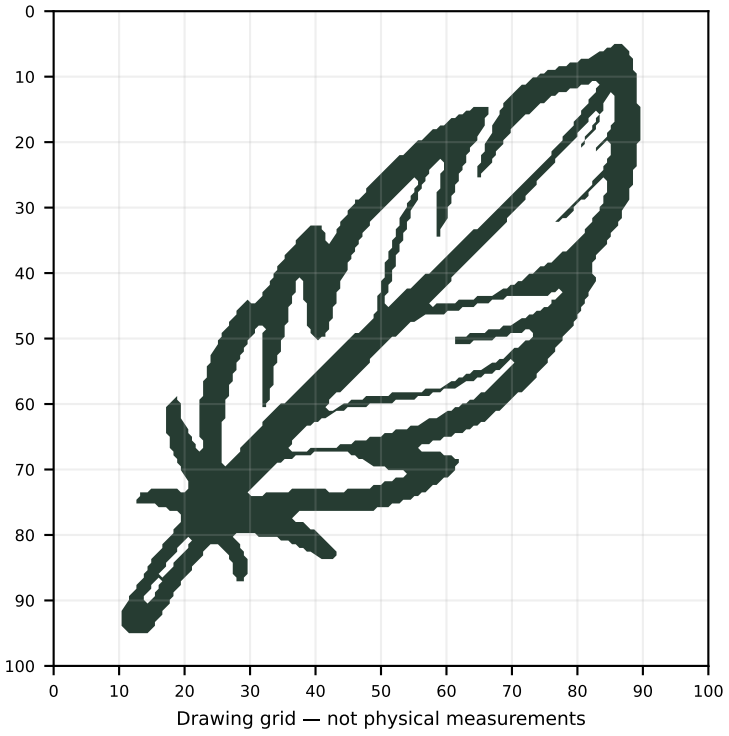

METHOD: Draw a long diagonal line for the central shaft, leaving a short bare quill at the lower-left. Outline the vane on both sides of the shaft, starting narrow at the base and widening toward the middle. Add jagged barb separations along the vane edges, angling them outward from the shaft. Taper the vane to a point at the upper-right tip and add a few interior barb lines for texture.
Use the separate practice sheet before checking the answer.

# How to Draw Feather — Free Practice Sheets

**REFERENCE / CASE 4**

feather: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw a long diagonal line for the central shaft, leaving a short bare quill at the lower-left. Outline the vane on both sides of the shaft, starting narrow at the base and widening toward the middle. Add jagged barb separations along the vane edges, angling them outward from the shaft. Taper the vane to a point at the upper-right tip and add a few interior barb lines for texture.
Use the separate practice sheet before checking the answer.
