How to Draw Cloud — Free Practice Sheets

REFERENCE / CASE 1

cloud: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

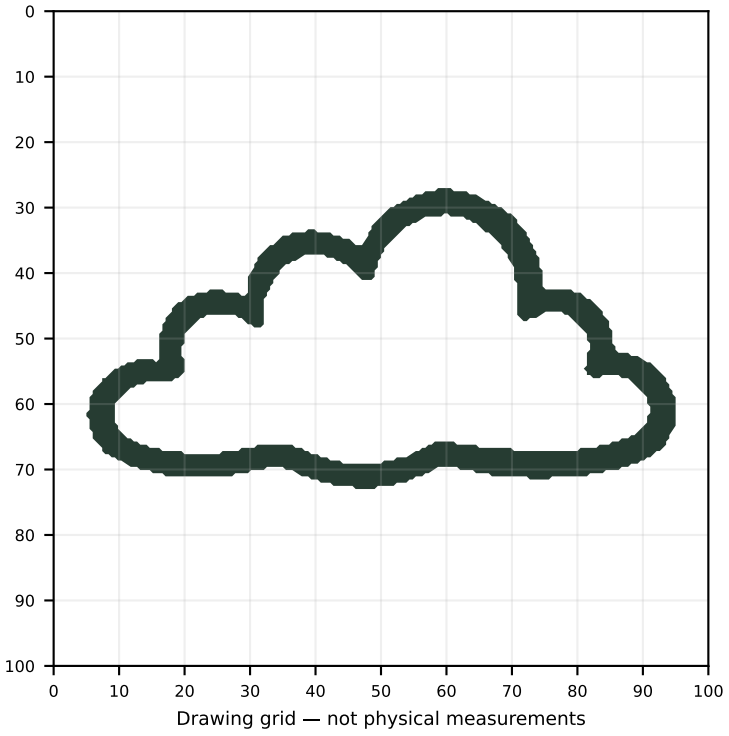

METHOD: Draw a wide, gently wavy horizontal base line. Add a series of rounded bumps rising from the base, starting with a small lobe on the left. Continue adding progressively larger rounded lobes across the top, overlapping the curves slightly. Close the shape by bringing the final right-side lobe down to meet the base, then thicken the outline.
Use the separate practice sheet before checking the answer.

REFERENCE / CASE 2

cloud: Copy the reference onto the blank grid, using matching grid intersections.
Compare with the separate full reference sheet.

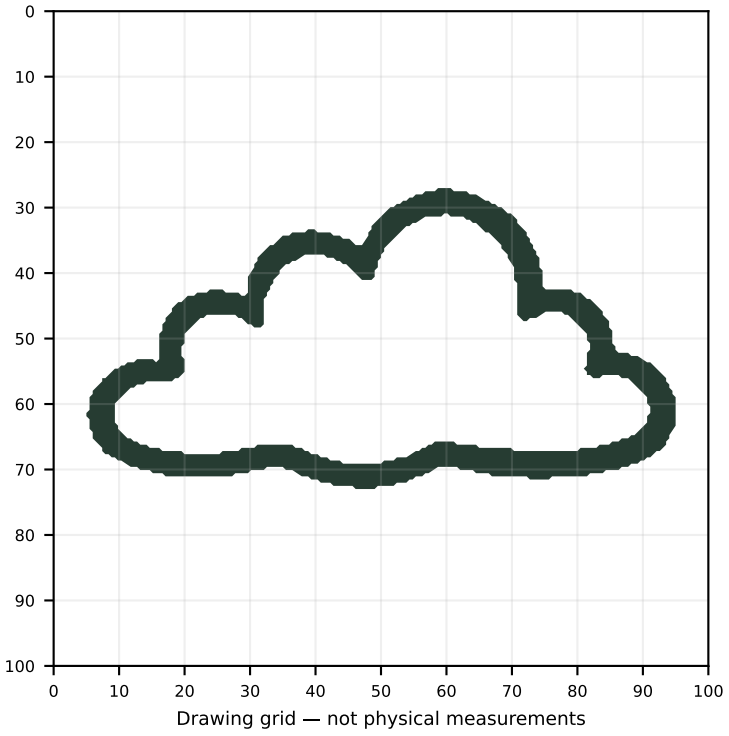

METHOD: Draw a wide, gently wavy horizontal base line. Add a series of rounded bumps rising from the base, starting with a small lobe on the left. Continue adding progressively larger rounded lobes across the top, overlapping the curves slightly. Close the shape by bringing the final right-side lobe down to meet the base, then thicken the outline.
Use the separate practice sheet before checking the answer.

REFERENCE / CASE 3

cloud: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

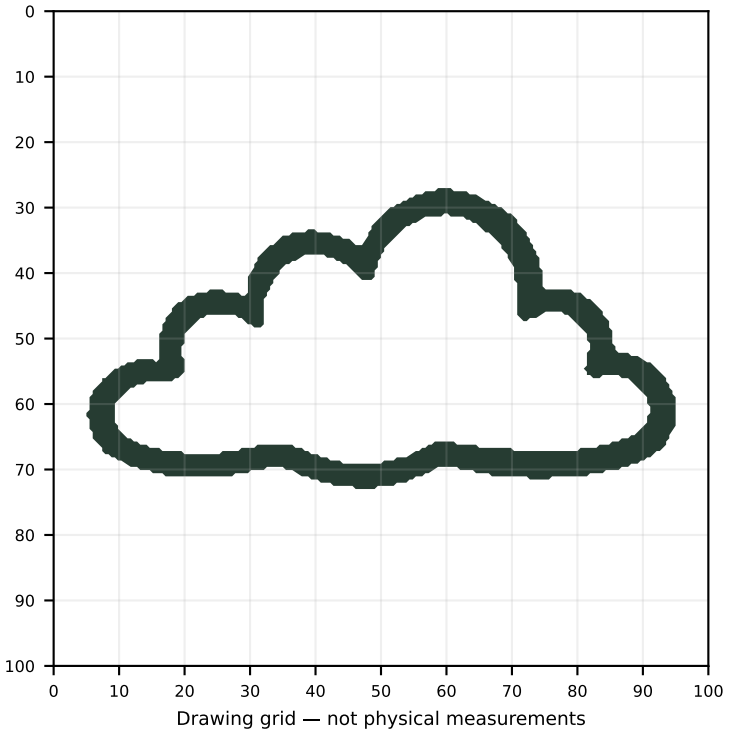

METHOD: Draw a wide, gently wavy horizontal base line. Add a series of rounded bumps rising from the base, starting with a small lobe on the left. Continue adding progressively larger rounded lobes across the top, overlapping the curves slightly. Close the shape by bringing the final right-side lobe down to meet the base, then thicken the outline.
Use the separate practice sheet before checking the answer.

REFERENCE / CASE 4

cloud: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw a wide, gently wavy horizontal base line. Add a series of rounded bumps rising from the base, starting with a small lobe on the left. Continue adding progressively larger rounded lobes across the top, overlapping the curves slightly. Close the shape by bringing the final right-side lobe down to meet the base, then thicken the outline.
Use the separate practice sheet before checking the answer.
