How to Draw Moon — Free Practice Sheets

ANSWER / CASE 1

moon: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

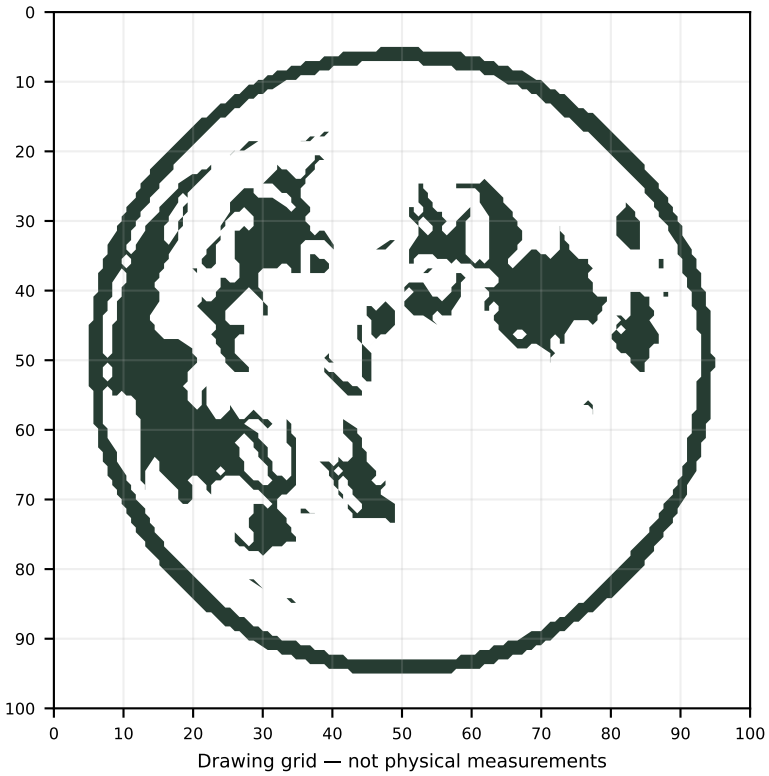

ANSWER: Example solution: preserve circular disk outline, irregular gray crater/mare shading patches, full-phase round silhouette. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a clean circular outline for the moon disk.
2. Sketch irregular crater and mare shapes inside the circle, concentrated on the left and upper areas.
3. Add gray shading to the crater patches while leaving the right/lower area mostly white.
4. Refine the outer circle and shading edges to keep the full moon silhouette clear.

How to Draw Moon — Free Practice Sheets

ANSWER / CASE 2

moon: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

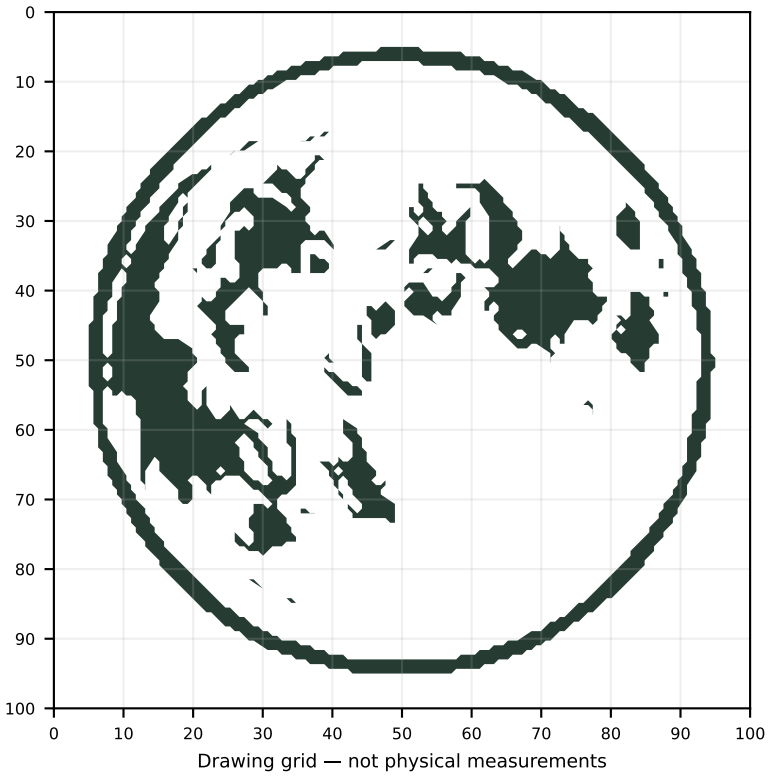

ANSWER: Example solution: preserve circular disk outline, irregular gray crater/mare shading patches, full-phase round silhouette. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a clean circular outline for the moon disk.
2. Sketch irregular crater and mare shapes inside the circle, concentrated on the left and upper areas.
3. Add gray shading to the crater patches while leaving the right/lower area mostly white.
4. Refine the outer circle and shading edges to keep the full moon silhouette clear.

How to Draw Moon — Free Practice Sheets

ANSWER / CASE 3

moon: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

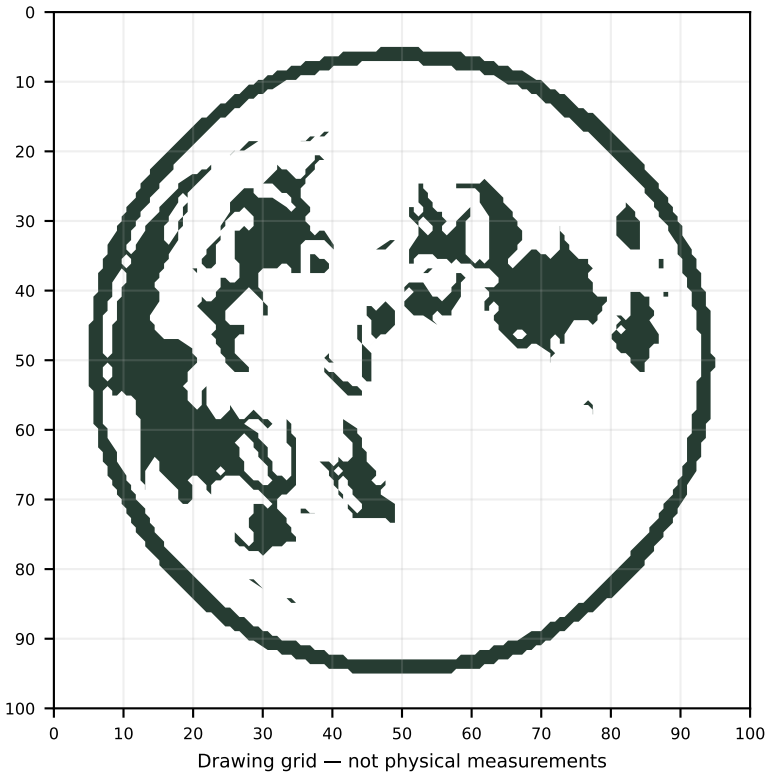

ANSWER: Example solution: preserve circular disk outline, irregular gray crater/mare shading patches, full-phase round silhouette. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a clean circular outline for the moon disk.
2. Sketch irregular crater and mare shapes inside the circle, concentrated on the left and upper areas.
3. Add gray shading to the crater patches while leaving the right/lower area mostly white.
4. Refine the outer circle and shading edges to keep the full moon silhouette clear.

How to Draw Moon — Free Practice Sheets

ANSWER / CASE 4

moon: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve circular disk outline, irregular gray crater/mare shading patches, full-phase round silhouette. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a clean circular outline for the moon disk.
2. Sketch irregular crater and mare shapes inside the circle, concentrated on the left and upper areas.
3. Add gray shading to the crater patches while leaving the right/lower area mostly white.
4. Refine the outer circle and shading edges to keep the full moon silhouette clear.
