# How to Draw Snowflake — Free Practice Sheets

**REFERENCE / CASE 1**

snowflake: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

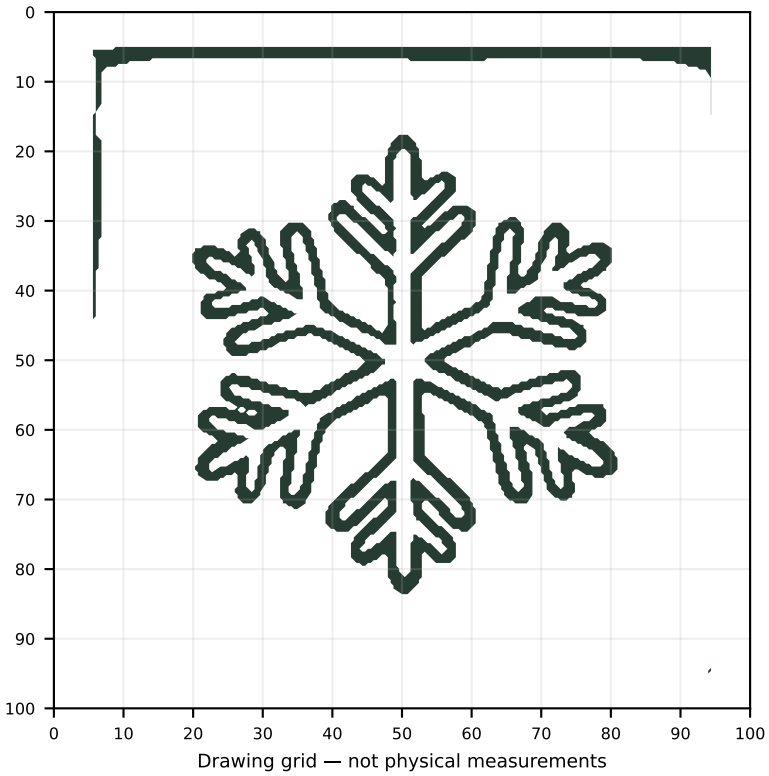

METHOD: Draw a small central hexagon or point as the hub. Draw six straight main arms radiating outward at equal 60-degree intervals. Add short angled branch twigs along each arm, mirrored on both sides. Outline the entire structure with a thick uniform stroke to create the crystalline line pattern.
Use the separate practice sheet before checking the answer.

# How to Draw Snowflake — Free Practice Sheets

## REFERENCE / CASE 2

snowflake: Copy the reference onto the blank grid, using matching grid intersections.
Compare with the separate full reference sheet.

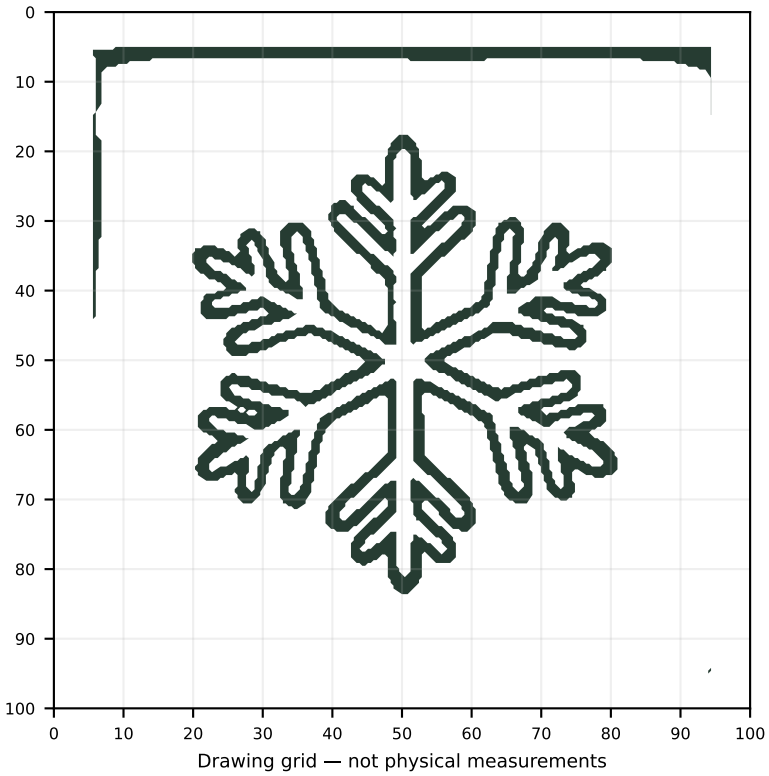

METHOD: Draw a small central hexagon or point as the hub. Draw six straight main arms radiating outward at equal 60-degree intervals. Add short angled branch twigs along each arm, mirrored on both sides. Outline the entire structure with a thick uniform stroke to create the crystalline line pattern.
Use the separate practice sheet before checking the answer.

# How to Draw Snowflake — Free Practice Sheets

**REFERENCE / CASE 3**

snowflake: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

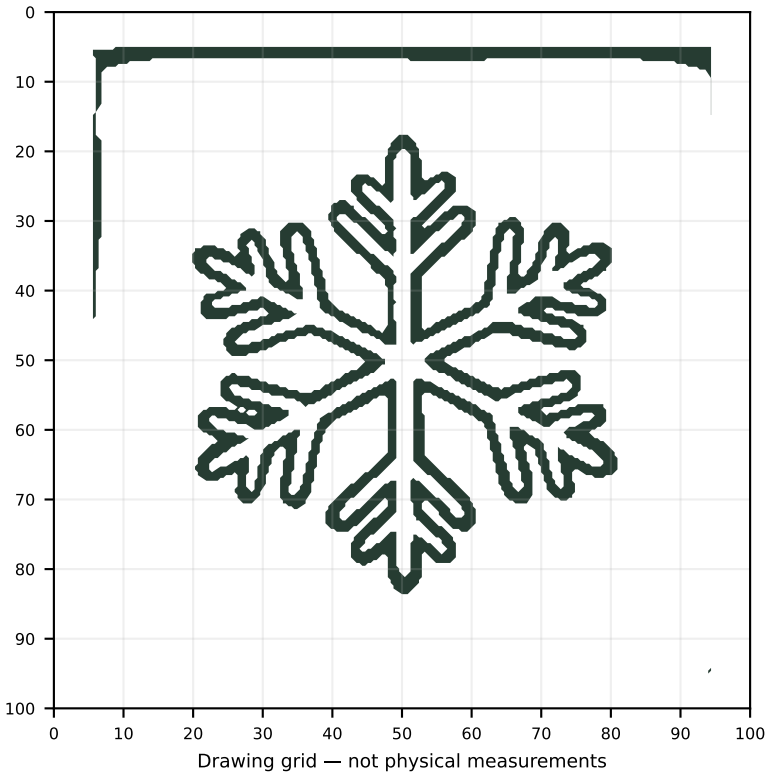

METHOD: Draw a small central hexagon or point as the hub. Draw six straight main arms radiating outward at equal 60-degree intervals. Add short angled branch twigs along each arm, mirrored on both sides. Outline the entire structure with a thick uniform stroke to create the crystalline line pattern.
Use the separate practice sheet before checking the answer.

# How to Draw Snowflake — Free Practice Sheets

**REFERENCE / CASE 4**

snowflake: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw a small central hexagon or point as the hub. Draw six straight main arms radiating outward at equal 60-degree intervals. Add short angled branch twigs along each arm, mirrored on both sides. Outline the entire structure with a thick uniform stroke to create the crystalline line pattern.
Use the separate practice sheet before checking the answer.
