How to Draw Plateau — Free Practice Sheets

REFERENCE / CASE 1

plateau: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

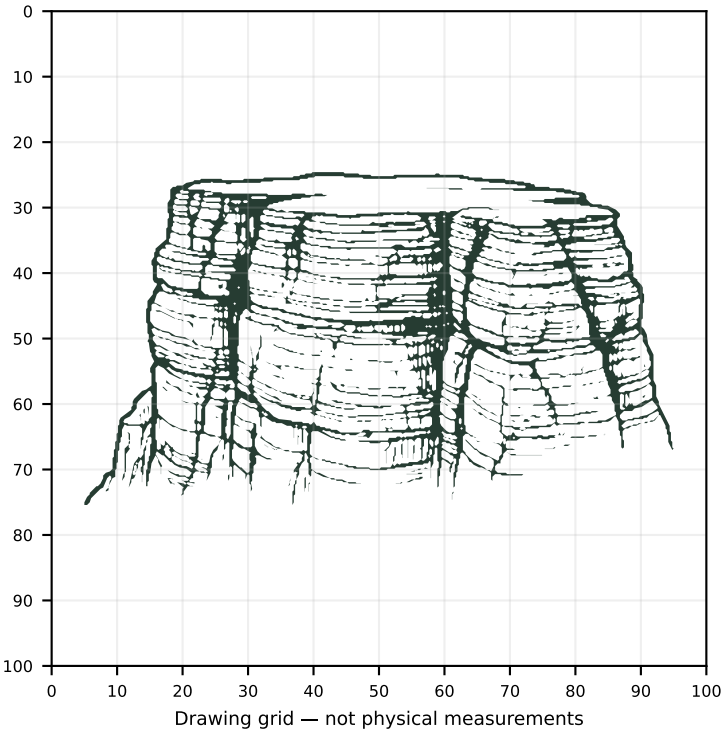

METHOD: Draw a wide, slightly irregular horizontal top line to establish the flat plateau surface. Sketch vertical cliff walls descending from the top edges, using slightly wavy lines to suggest rock faces. Add multiple horizontal lines across the cliff faces to represent layered sedimentary rock strata. Draw vertical cracks and column-like divisions down the cliff sides to show erosion and blocky rock structure.
Use the separate practice sheet before checking the answer.

How to Draw Plateau — Free Practice Sheets

REFERENCE / CASE 2

plateau: Copy the reference onto the blank grid, using matching grid intersections.
Compare with the separate full reference sheet.

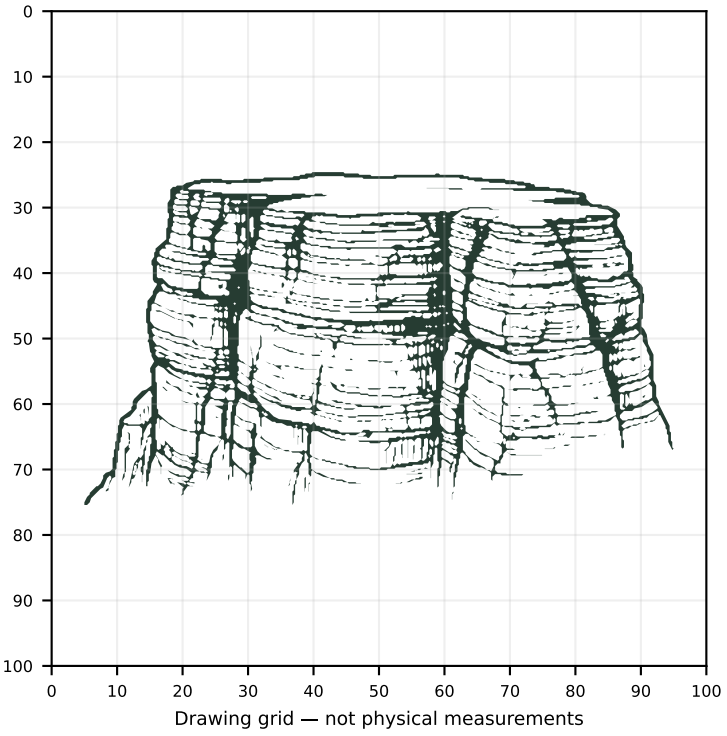

METHOD: Draw a wide, slightly irregular horizontal top line to establish the flat plateau surface. Sketch vertical cliff walls descending from the top edges, using slightly wavy lines to suggest rock faces. Add multiple horizontal lines across the cliff faces to represent layered sedimentary rock strata. Draw vertical cracks and column-like divisions down the cliff sides to show erosion and blocky rock structure.
Use the separate practice sheet before checking the answer.

How to Draw Plateau — Free Practice Sheets

REFERENCE / CASE 3

plateau: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

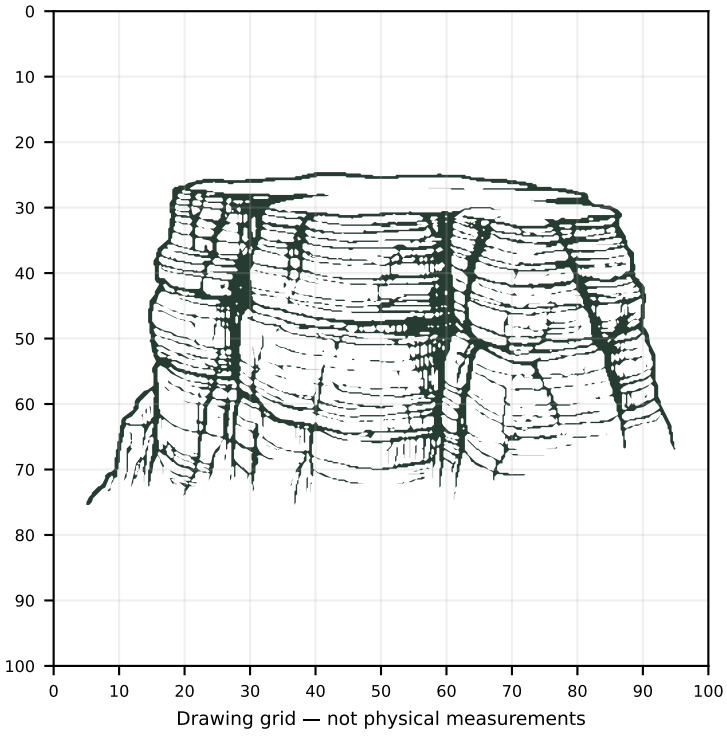

METHOD: Draw a wide, slightly irregular horizontal top line to establish the flat plateau surface. Sketch vertical cliff walls descending from the top edges, using slightly wavy lines to suggest rock faces. Add multiple horizontal lines across the cliff faces to represent layered sedimentary rock strata. Draw vertical cracks and column-like divisions down the cliff sides to show erosion and blocky rock structure.
Use the separate practice sheet before checking the answer.

How to Draw Plateau — Free Practice Sheets

REFERENCE / CASE 4

plateau: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw a wide, slightly irregular horizontal top line to establish the flat plateau surface. Sketch vertical cliff walls descending from the top edges, using slightly wavy lines to suggest rock faces. Add multiple horizontal lines across the cliff faces to represent layered sedimentary rock strata. Draw vertical cracks and column-like divisions down the cliff sides to show erosion and blocky rock structure.
Use the separate practice sheet before checking the answer.
