How to Draw River — Free Practice Sheets

REFERENCE / CASE 1

river: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

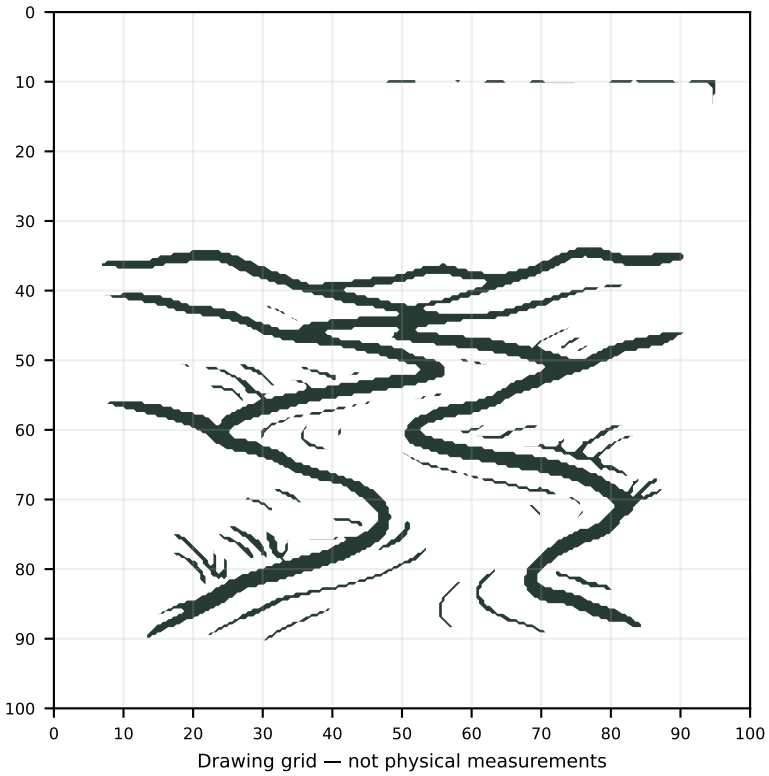

METHOD: Draw two long, roughly parallel wavy lines that snake from the top of the page to the bottom to form the river banks. Add short curved strokes between the bank lines to suggest flowing water and current. Sketch small clusters of grass tufts along the outer edges of the banks. Refine the bank lines so the channel narrows and widens naturally along its winding path.
Use the separate practice sheet before checking the answer.

How to Draw River — Free Practice Sheets

REFERENCE / CASE 2

river: Copy the reference onto the blank grid, using matching grid intersections.
Compare with the separate full reference sheet.

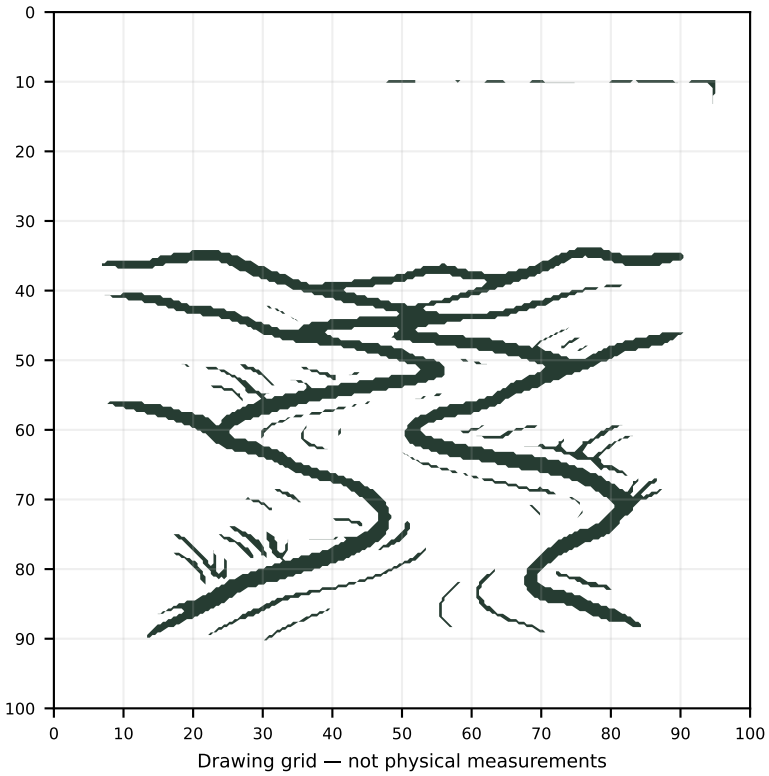

METHOD: Draw two long, roughly parallel wavy lines that snake from the top of the page to the bottom to form the river banks. Add short curved strokes between the bank lines to suggest flowing water and current. Sketch small clusters of grass tufts along the outer edges of the banks. Refine the bank lines so the channel narrows and widens naturally along its winding path.
Use the separate practice sheet before checking the answer.

How to Draw River — Free Practice Sheets

REFERENCE / CASE 3

river: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

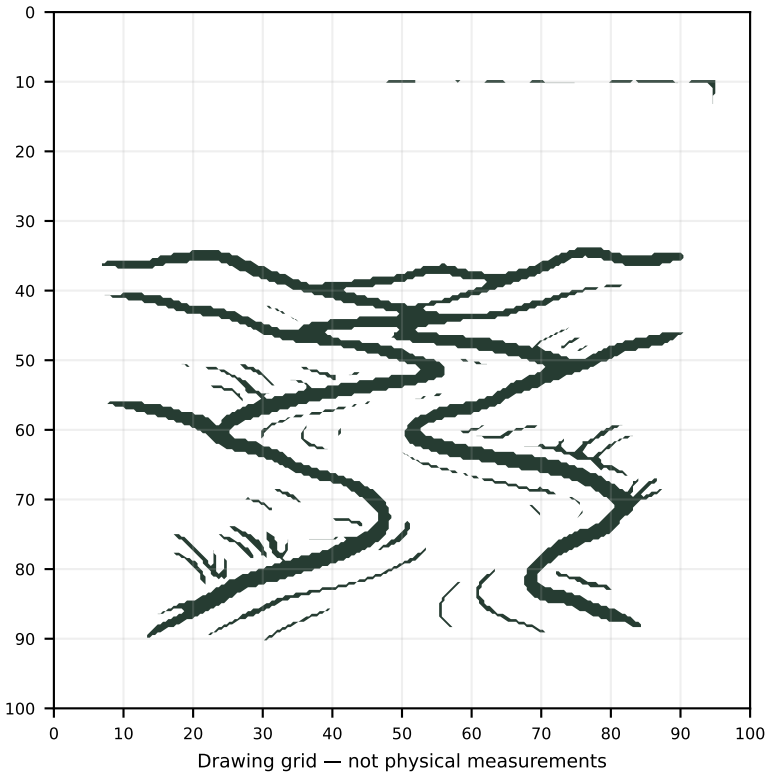

METHOD: Draw two long, roughly parallel wavy lines that snake from the top of the page to the bottom to form the river banks. Add short curved strokes between the bank lines to suggest flowing water and current. Sketch small clusters of grass tufts along the outer edges of the banks. Refine the bank lines so the channel narrows and widens naturally along its winding path.
Use the separate practice sheet before checking the answer.

How to Draw River — Free Practice Sheets

REFERENCE / CASE 4

river: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw two long, roughly parallel wavy lines that snake from the top of the page to the bottom to form the river banks. Add short curved strokes between the bank lines to suggest flowing water and current. Sketch small clusters of grass tufts along the outer edges of the banks. Refine the bank lines so the channel narrows and widens naturally along its winding path.
Use the separate practice sheet before checking the answer.
