How to Draw Campfire — Free Practice Sheets

ANSWER / CASE 1

campfire: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

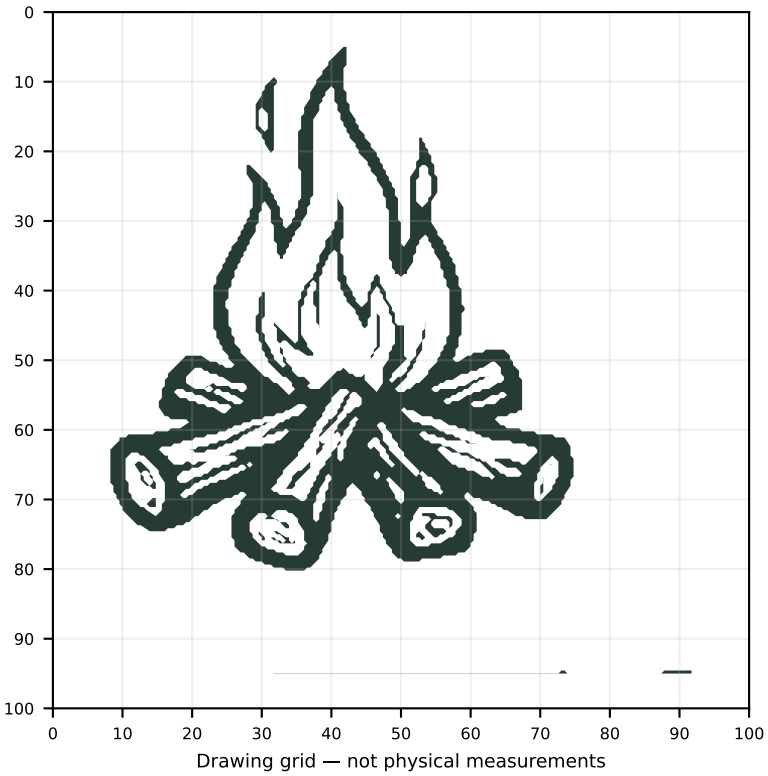

ANSWER: Example solution: preserve stacked logs arranged in a crisscross base, flame tongues rising above the logs with pointed tips, glow base formed by the log ends and central fire area. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a crisscross stack of logs at the bottom, with several log ends facing outward as circles.
2. Add a central flame mass rising from the top of the log stack.
3. Shape the flame into multiple pointed tongues, with the tallest central tongue and smaller side tongues.
4. Outline the log ends and flame edges with bold lines to define the campfire silhouette.

How to Draw Campfire — Free Practice Sheets

ANSWER / CASE 2

campfire: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

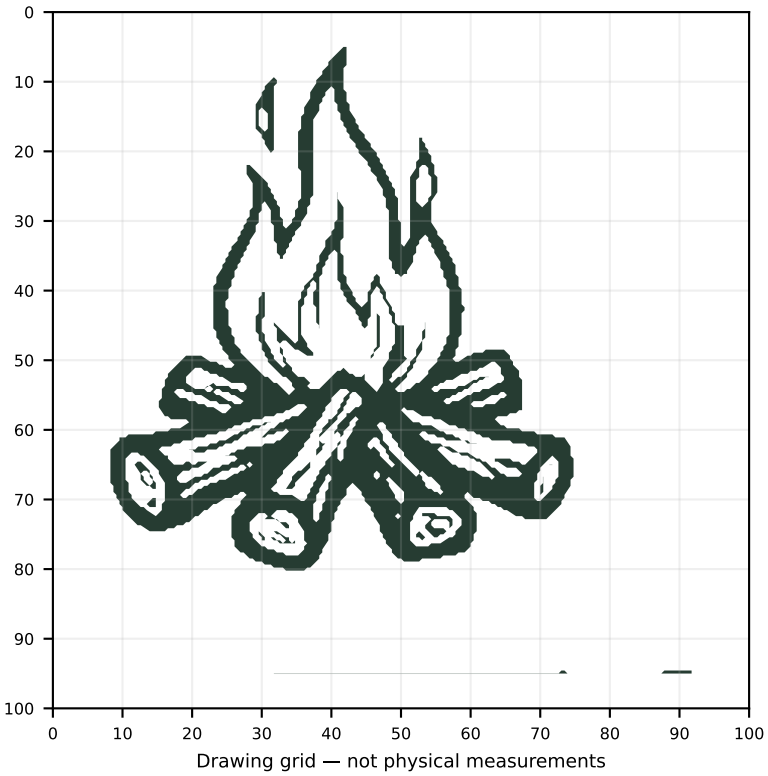

ANSWER: Example solution: preserve stacked logs arranged in a crisscross base, flame tongues rising above the logs with pointed tips, glow base formed by the log ends and central fire area. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a crisscross stack of logs at the bottom, with several log ends facing outward as circles.
2. Add a central flame mass rising from the top of the log stack.
3. Shape the flame into multiple pointed tongues, with the tallest central tongue and smaller side tongues.
4. Outline the log ends and flame edges with bold lines to define the campfire silhouette.

How to Draw Campfire — Free Practice Sheets

ANSWER / CASE 3

campfire: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

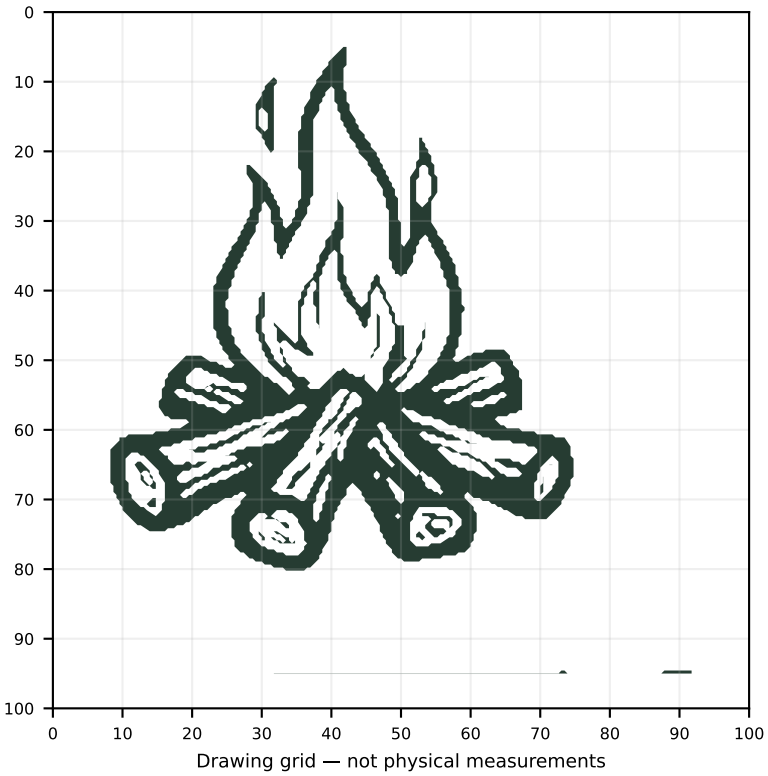

ANSWER: Example solution: preserve stacked logs arranged in a crisscross base, flame tongues rising above the logs with pointed tips, glow base formed by the log ends and central fire area. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a crisscross stack of logs at the bottom, with several log ends facing outward as circles.
2. Add a central flame mass rising from the top of the log stack.
3. Shape the flame into multiple pointed tongues, with the tallest central tongue and smaller side tongues.
4. Outline the log ends and flame edges with bold lines to define the campfire silhouette.

How to Draw Campfire — Free Practice Sheets

ANSWER / CASE 4

campfire: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve stacked logs arranged in a crisscross base, flame tongues rising above the logs with pointed tips, glow base formed by the log ends and central fire area. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a crisscross stack of logs at the bottom, with several log ends facing outward as circles.
2. Add a central flame mass rising from the top of the log stack.
3. Shape the flame into multiple pointed tongues, with the tallest central tongue and smaller side tongues.
4. Outline the log ends and flame edges with bold lines to define the campfire silhouette.
