How to Draw Earth — Free Practice Sheets

REFERENCE / CASE 1

earth: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

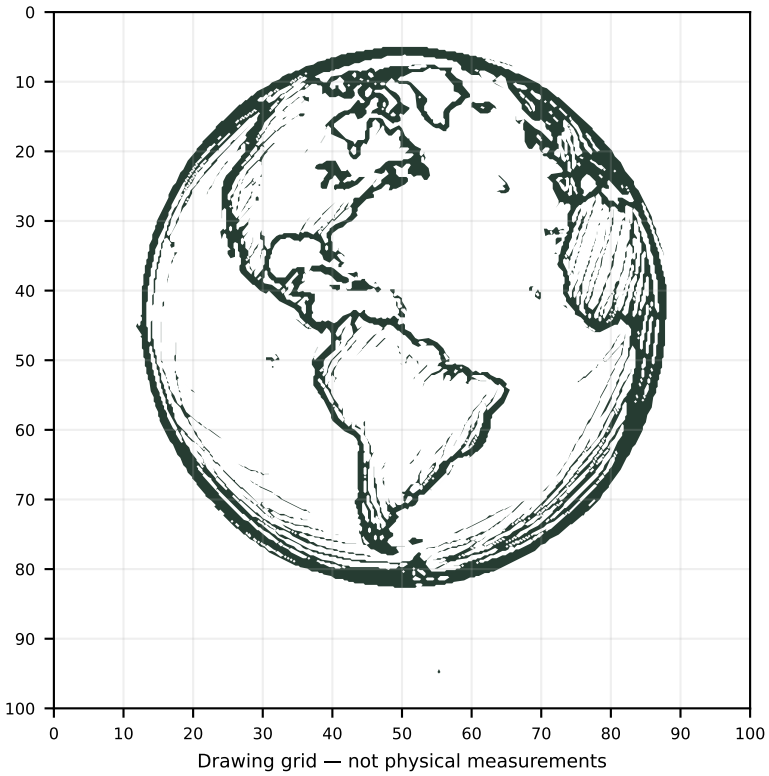

METHOD: Draw a large circle to establish the round globe outline. Sketch the continent shapes inside the circle, placing North America in the upper left and South America below it. Add the remaining landmass shapes on the right side of the globe. Fill the ocean areas with light hatching lines to distinguish them from the continents.
Use the separate practice sheet before checking the answer.

How to Draw Earth — Free Practice Sheets

REFERENCE / CASE 2

earth: Copy the reference onto the blank grid, using matching grid intersections.
Compare with the separate full reference sheet.

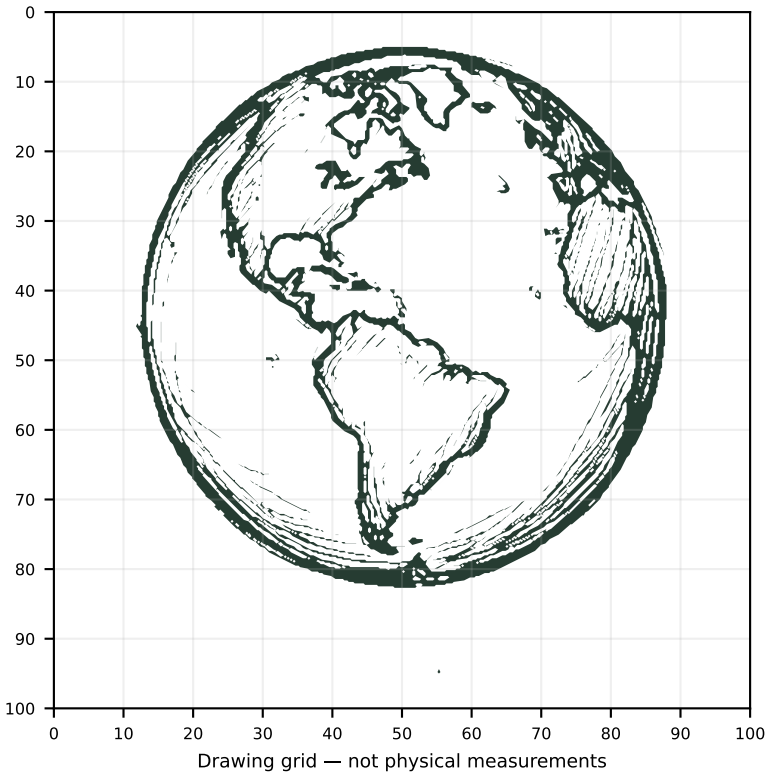

METHOD: Draw a large circle to establish the round globe outline. Sketch the continent shapes inside the circle, placing North America in the upper left and South America below it. Add the remaining landmass shapes on the right side of the globe. Fill the ocean areas with light hatching lines to distinguish them from the continents.
Use the separate practice sheet before checking the answer.

How to Draw Earth — Free Practice Sheets

REFERENCE / CASE 3

earth: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

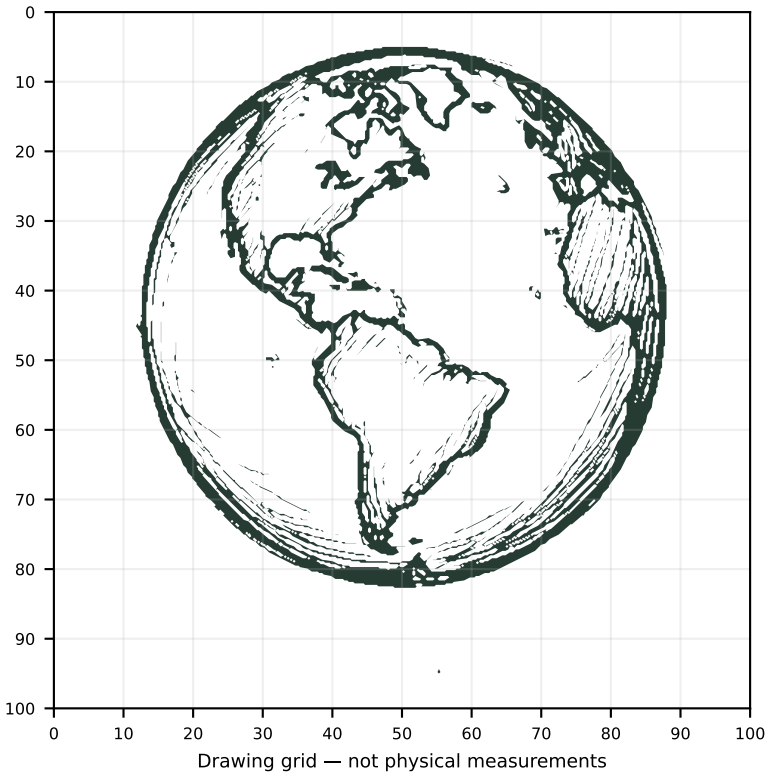

METHOD: Draw a large circle to establish the round globe outline. Sketch the continent shapes inside the circle, placing North America in the upper left and South America below it. Add the remaining landmass shapes on the right side of the globe. Fill the ocean areas with light hatching lines to distinguish them from the continents.
Use the separate practice sheet before checking the answer.

How to Draw Earth — Free Practice Sheets

REFERENCE / CASE 4

earth: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw a large circle to establish the round globe outline. Sketch the continent shapes inside the circle, placing North America in the upper left and South America below it. Add the remaining landmass shapes on the right side of the globe. Fill the ocean areas with light hatching lines to distinguish them from the continents.
Use the separate practice sheet before checking the answer.
