How to Draw Ayers Rock — Free Practice Sheets

ANSWER / CASE 1

ayers rock: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

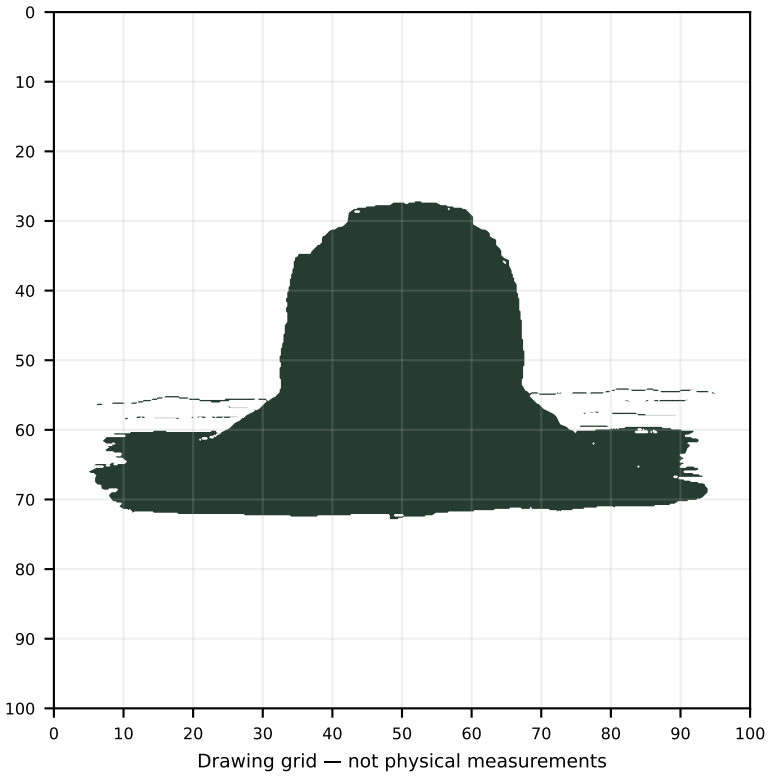

ANSWER: Example solution: preserve Large central rounded dome with a broad, sloping base, Wide flat horizontal ground line extending around the base, Slightly irregular, hand-drawn outline suggesting a natural rock silhouette. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a wide horizontal ground line across the lower portion of the grid.
2. Sketch a broad, rounded dome centered above the ground line, keeping the sides sloping outward at the base.
3. Connect the dome's base to the ground line with a wide, flat mound shape.
4. Refine the outline with slightly uneven edges to suggest a natural rock surface.

How to Draw Ayers Rock — Free Practice Sheets

ANSWER / CASE 2

ayers rock: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

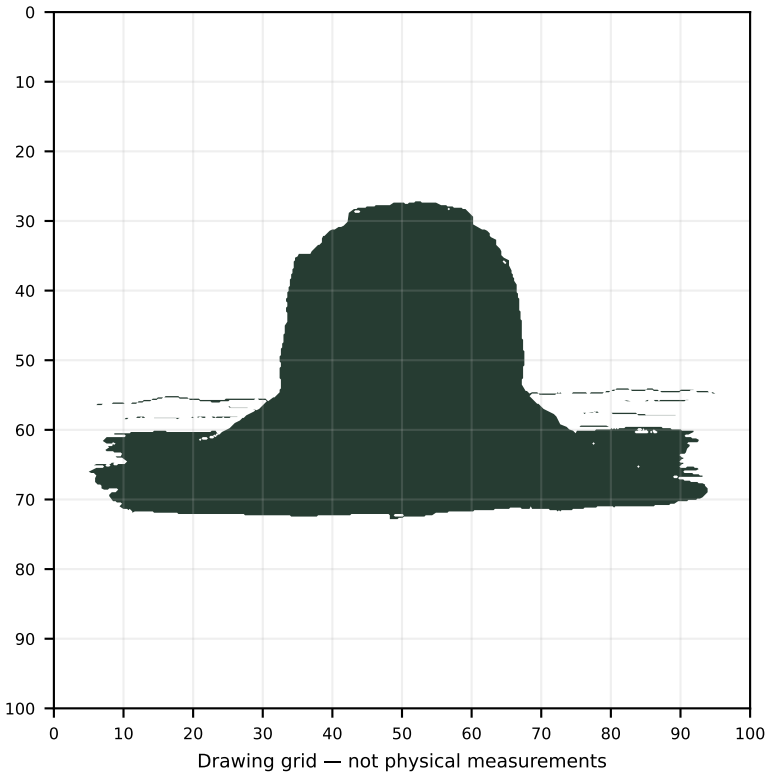

ANSWER: Example solution: preserve Large central rounded dome with a broad, sloping base, Wide flat horizontal ground line extending around the base, Slightly irregular, hand-drawn outline suggesting a natural rock silhouette. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a wide horizontal ground line across the lower portion of the grid.
2. Sketch a broad, rounded dome centered above the ground line, keeping the sides sloping outward at the base.
3. Connect the dome's base to the ground line with a wide, flat mound shape.
4. Refine the outline with slightly uneven edges to suggest a natural rock surface.

ANSWER / CASE 3

ayers rock: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

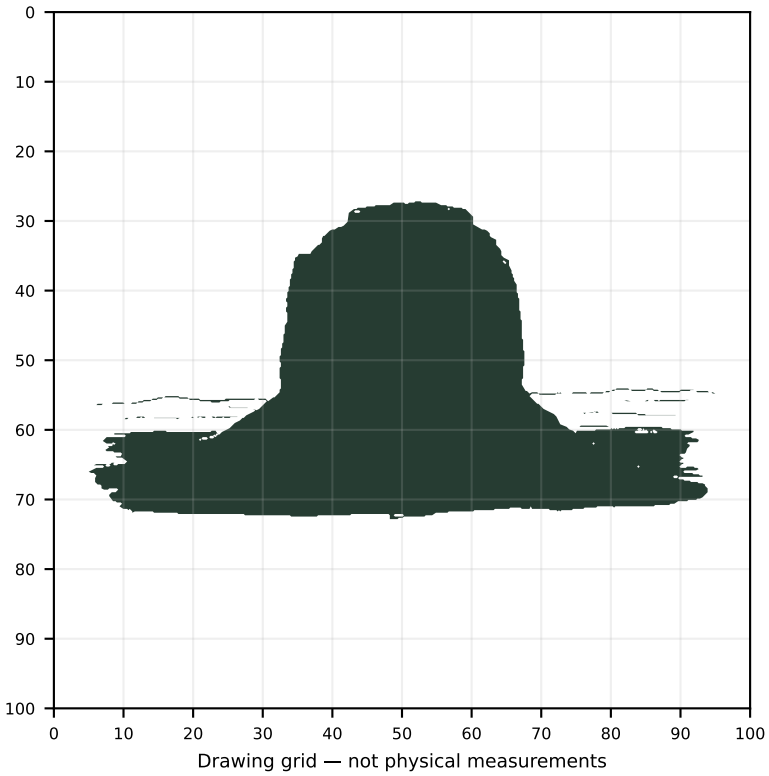

ANSWER: Example solution: preserve Large central rounded dome with a broad, sloping base, Wide flat horizontal ground line extending around the base, Slightly irregular, hand-drawn outline suggesting a natural rock silhouette. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a wide horizontal ground line across the lower portion of the grid.
2. Sketch a broad, rounded dome centered above the ground line, keeping the sides sloping outward at the base.
3. Connect the dome's base to the ground line with a wide, flat mound shape.
4. Refine the outline with slightly uneven edges to suggest a natural rock surface.

How to Draw Ayers Rock — Free Practice Sheets

ANSWER / CASE 4

ayers rock: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve Large central rounded dome with a broad, sloping base, Wide flat horizontal ground line extending around the base, Slightly irregular, hand-drawn outline suggesting a natural rock silhouette. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a wide horizontal ground line across the lower portion of the grid.
2. Sketch a broad, rounded dome centered above the ground line, keeping the sides sloping outward at the base.
3. Connect the dome's base to the ground line with a wide, flat mound shape.
4. Refine the outline with slightly uneven edges to suggest a natural rock surface.
